THE EARL OF ALDBOROUGH

CURED BY

HOLLOWAY'S PILLS!

The Earl of Aldborough cured of a Liver and Stomach Complaint.

Extract of a Letter from the Earl of Aldborough, dated Villa Messina, Leghorn, 21st February, 1845.

TO PROFESSOR HOLLOWAY.

SIR,—Various circumstances prevented the possibility of my thanking you before this time for your politeness in sending me your Pills as you did. I now take this opportunity of sending you an order for the amount, and at the same time, to add that your Pills have effected a cure of a disorder in my Liver and Stomach, which all the most eminent, of the Faculty at home, and all over the Continent, had not been able to effect; nay! not even the waters of Carlsbad and Marienbad. I wish to have another Box and a Pot of the Ointment, in case any of my family should ever require either.

Your most obliged and obedient servant,
(Signed) ALDBOROUGH.

Wonderful Cure of Dropsy of Five Years' standing.

Copy of a Letter from Mr. Thomas Taylor, Chemist, Stockton, Durham, 17th April 1845.

TO PROFESSOR HOLLOWAY.

SIR,—I think it my duty to inform you that Mrs. Clough, wife of Mr. John Clough, a respectable farmer of Acklam, within four miles of this place, had been suffering from Dropsy for five years, and had had the best medical advice without receiving any relief. Hearing of your Pills and Ointment, she used them with such surprising benefit that, in fact, she has now given them up, being so well and quite able to attend to her household duties as formerly, *which she never expected to do again*. I had almost forgotten to state that she was given up by the Faculty *as incurable*. When she used to get up in the morning it was impossible to discover a feature in her face, being in such a fearful state. This cure is entirely by the use of your medicines.

I am, Sir, yours, &c.
(Signed) THOMAS TAYLOR.

Cure of Indigestion and Constipation of the Bowels.

Copy of a Letter from G. R. Wythen, Esq., Author of the "Book of the Bastile," &c.

The Brynn, near Newtown, Montgomeryshire, North Wales, March 3, 1845.

TO PROFESSOR HOLLOWAY.

SIR,—I consider it my duty to inform you that your Pills, a few boxes of which I purchased at Mr. Moore's, Druggist, of Newtown, have cured me of constant indigestion and constipation of the bowels, which application to literary pursuits had long entailed upon me. I should strongly recommend Authors, and studiously disposed persons generally, to use your valuable Pills. You have my permission to publish this note, if you wish to do so.

I am, Sir, your most obedient servant.
(Signed) G. R. WYTHEN BAXTER

A Cure of Asthma and Shortness of Breath.

Extract of a Letter from the Rev. David Williams, Resident Wesleyan Minister at Beaumaris, Island of Anglesea, North Wales, January 14, 1845.

TO PROFESSOR HOLLOWAY.

SIR,—The Pills which I requested you to send me were for a poor man of the name of Hugh Davis, who, before he took them, was *almost unable to walk for the want of breath!* and had only taken them a few days when he appeared quite another man; his breath is now *easy* and *natural*, and he is increasing daily in strength.

(Signed) DAVID WILLIAMS.

METALLIC GUM ELASTIC MACHINE BLEATING

Notice to Mill Owners and Machinists.

THE favorable opinion expressed, thus far, by those who have used GOODYEAR'S METALLIC MACHINE BELTING has induced the Manufacturers to make arrangements to supply it in unlimited quantities, and to make such reduction in the prices as the cost of raw material will warrant.

It is composed of several thicknesses of the very best DUCK, and *Goodyear's Metalic Gum Elastic Composition CONSOLIDATED.*

Its peculiar qualities are:—1. Perfect equality of width and thickness, which it will retain. 2. No degree of heat under 280 Fabrenheit injures it, and it remains flexible in any degree of cold. 3. Essential and common Oils, Turpentine and other solvents (some of which at once will destroy leather,) produce no effect on it. 4. It is of *great strength and durability*; does not slip on the Pulleys, consequently a gain of power is obtained; and, when adjusted to Machinery, does not require alterations, as is the case with leather. 5. It is particularly adapted to *Machine Shops, Furnaces, &c.*, where coal, gas, and steam prove so injurious to leather. 6. It is confidently believed that Electricity will in a great measure be avoided by the use of this BELTING, it being a non-conductor, which has been ascertained by some of the most experienced and scientific Cotton Manufacturers in New England.

The Selling Agent is authorised to guarantee its adaptation to all kinds of Machinery (tight cross belts excepted,) and to state that every effort will be made to furnish Belts of suitable strength and quality for given purposes.

An article for *Elevaters in Flouring Mills, &c.*, is made with buckets permanently inserted—an invention of great utility. Also, an Article, made of the *Metalic Gum Elastic*, for packing Steam Boilers and Steam Pipes, which is pronounced by skilful Engineers to be superior to all other articles heretofore used for that purpose.

All orders and communications promptly answered.

THOMAS McHENRY, Nelson Street.
Agent for Goodyear's Manufacturing Company.
