

MISS THOMSON LOST TO A PHILADELPHIA GOLFER.

**Defeated at Toronto Yesterday by Miss Bishop--Sir Thomas is Not Tired--
New Umpire System to be Adopted in Hockey--General Sporting News.**

Miss Mabel Thomson of this city, who was defeated by Miss Bishop in the game of golf between Canada and Philadelphia, at Toronto yesterday, Miss M. Curtis, of Philadelphia, won with 66 strokes, and her sister, Miss H. Curtis, was second with 70.

Miss Dod, the English champion, played against Miss Harvey, the Canadian champion, and made the course in 74, one better than Miss Harvey. They were, however, all even on holes. Miss Thomson's score was 76.

In the international team match tomorrow, Miss Thomson will play against Miss Griscom, who brought the Philadelphia team to Canada. Miss Dod will play with the Canadians.

Is Still on Deck.

London, Oct. 19.—Sir Thomas Lipton was shown the Yachting World's article today and said to the Associated Press that it is utterly incorrect to assume that he has abandoned the idea of challenging for the America's cup. He had, he said, faced a great difficulty in securing a designer, but he had not given up. He had given George L. Watson carte blanche in the matter of securing a boat and was still hopeful of success.

Mike Slattery Dead.

Mike Slattery, the ball player, who played centre field for the New Yorks in the '80s, died in the Carney Hospital in Boston last Sunday. Slattery was a player of high class, and was a contemporary of Buck Ewing, Mike Tiernan, George Gore and other noted diamond stars.

Double Umpire System.

At the meeting of the Canadian Hockey League, Mr. Stocking, of Quebec, succeeded in having the league vote to have a trial of a system of two officials for matches. The new official position is that of umpire, or assistant to the referee, and the duty of the new official will be to look after anything that may occur behind the referee's back. The duties of the referee remain unchanged, and he is to retain his present powers. The assistant will remain clear of the play, and in such a position that he will have a view of the territory that does not come under observation of the referee. In this manner it is proposed to keep a strict watch on off-side loafing and the numerous little things that usually occur when the puck is clear. It was thought that there would be some difficulty in having an extra man on the ice, but it was agreed that whatever inconvenience would

be experienced would be amply compensated if the presence of the additional official succeeded in making the game clean.

As the Canadian rules are followed here, it is presumed the Nova Scotia and New Brunswick League will have an umpire to assist the referee this winter.

Horse Notes.

Francella (2:18½), by Arion (2:07½) is now in the great brood mare ranks.

John A. McKerrin (2:04½) has been permanently retired to the stud.

Sidney Dillon, the sire of Lou Dillon, will be sold at the New York sale.

Tiverton (2:04) is the fastest race trotter of the year. At one time they called him a counterfeit.

The largest number of 2:10 trotters that ever entered the list in a single season was 29 in 1902. The record has already been tried and is sure to be beaten this year.

Tiverton and Sweet Marie smashed up a lot of records in the Transylvania, but Bouzetta's fourth heat record, 2:06½, escaped untouched. Will it ever be beaten?

The famous trotting stallion Grat-tan Boy, winner of the Massachusetts stake of 1893, brought but \$2,100 at auction at the closing out sale of the Idle Hour farm horses.

Seldom has a sire had two as fast 3-year-old trotters out the same season as Bingen has this. Lord Revel-stoke has taken a record of 2:12½ and Totara was timed in 2:10½ in the Futurity.

Football.

The High School foot ball team defeated the north and team, by a score of 11 to 0, yesterday afternoon.

The members of the opposing teams were considerably older and heavier than the school boys, but the latter's combination won them the game. Stalling made two tries and kicked one goal. Mr. Powers secured the other three points for High School.

Brunswick, Maine., Oct. 19.—Bow-doin and Colby football elevens met this afternoon, in the first game of the Maine College championship, which proved to be Colby's "Water-lou" the latter team being unable to do anything against the Bowdoin eleven. The score was 52 to 0.

A Great Feat.

New York Sun:—A first class ex-

hibition of weight throwing was given Sunday by John Flanagan, at the grounds of the pastime A. C. The occasion was a benefit set of games for the trackmaster of the club, and the big Irishman was the star attraction. He threw the 56 pound weight the great distance of 40 feet 8 inches with unlimited run and follow. It is the longest throw on record for that particular style, but it will never be accepted as a record, for there was a slight down grade, and, anyway, the rules stipulate that record performances must be done in open competition in order to be valid.

Want Lively Balls.

That something must be done to said the batsman and render the pitcher less effective, is the contention of base ball officials all over the National League circuit at this season of the year, when discussion of new rules for next season is general. That things have been too nicely arranged for the twirler, and the batsmen have been hampered by the newest rules in force this year, has been disputably demonstrated, and among most of the big men of base ball the opinion obtains that the changes are wrong and detract from the sport.

The foul strike rule has been blamed and defended and seems to be destined to remain in force if the National League advocates have their way. Every little detail that boosts up the pitchers' showing has been discussed, and though condemned by some, there seem to be enough in favor of the objectionable things to support them.

The latest thing to be given thought is the manufacture of the ball itself, and discussion has brought out the question: Is the ball in use today so greatly inferior to that of several years ago that it is tricking the batsman and shrinking his batting average to the delight of various pitchers.

"That is the truth," says Bob Emslie, the dean of President Pulliam's umpirical staff, who has observed the conditions closely. "The ball now used needs a little more rubber in it," declared Emslie, "and until its defect is remedied, the batsman will have a kick coming. The best hitters are still swatting the sphere as of yore, but it refuses to travel so far."

"A good whack in the right place is bound to be as effective as it ever was, if the ball is the same."

"Though the pitcher has been helped a great deal by the existing rules, he has been aided still more by the difference in the make of the balls, to my mind, and that's a thing that should be remedied, if it is desired to increase the batting."

"And the people seem to want just a bit more of that feature of base ball. They all hail the coming of a heavy hitter with delight, and the club owners are falling over themselves to sign the best strikers. A little more hammering of the leather would be refreshing to the fans."

General Notes.

Member of the Carleton Athletic Association, are requested to meet tonight at 7 o'clock, at the city hall, west end. Important matters will come before the meeting.

This evening the executive commit-

tee of the St. John base ball league, will meet in Doctor Robertson's office, Germain street, at 8 o'clock.

Toronto, Oct. 19.—Tom Burrows, the English athlete, here tonight completed a remarkable feat in continuous club swinging. At the Arena, at 3:30 Tuesday morning, he started to swing a pair of three pound clubs, and continued without stop until 10:30 tonight, forty-three hours and six minutes, which breaks his own world's record of forty-two hours. During his performance, Burrows was fed by his trainer. When he finished his task tonight he immediately fell asleep.

PROFITABLE BUSINESS.

**American Sportsmen Spend
Money Freely in New
Brunswick.**

(Newcastle Advocate.)

"No, sir, we came just with the clothes we stand in—nothing more," and with a long pull on his cigar, Ira D. McCowan, millionaire steel and coal man watched the effect of his words upon Chief Game Warden Robinson.

"We believe in getting our layout from the town which furnishes us the sport," he went on, "so we brought absolutely nothing with us."

Mr. McCowan is the head of a party of millionaire sportsmen which arrived here yesterday morning. Others in the party are Messrs. J. W. Gates, J. Taylor and Dr. J. Hopford, all of Pittsburgh.

Shortly after their arrival, the party took a turn about town, and purchased \$100 worth of dry goods. They spent double as much on supplies.

Neuralgic Headache is Usually

Attended with blinding pain, but relief comes quickly when Nerviline is applied, for it is the strongest pain-reliever in the world. "I consider Nerviline a most magical remedy for neuralgia. I am subject to violent attacks, writes Mrs. E. G. Harris of Baltimore, but never worry if Nerviline is in the house. The prompt relief that Nerviline brings makes it priceless to me. A few applications never yet failed to kill the pain. I can also recommend Nerviline for stiffness in the joints and rheumatism." Try Nerviline yourself. Price 25c.

NOTHING TO REGRET.

"Ah me," sighed the spinster as she gave a backward glance at her "wasted life." "I have selfishly lived alone all three years, and made no man happy." "Oh, yes, you have," rejoined the bachelor with the ingrown hair. "Don't you remember I proposed to you twenty years ago, and you turned me down?"—Chicago News.

Piles

To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EMMANUEL BATES & Co., Toronto.

Dr. Chase's Ointment

NOT SATISFIED.

**A Bridgetown Paper on the
Administration of Justice
in Nova Scotia.**

(Bridgetown, N. S., Monitor.)

The administration of justice in Kings county of late has not been marked with harmony between the officials of the law and the people. Two criminal cases were tried there recently, one for the shooting of a boy on Hallowe'en of last year, and the other for the death of a boy by stabbing. The trials took place in Windsor before Judge Graham. As punishment for shooting the boy, the man who committed the deed in a fit of ill-temper was sentenced to one year's imprisonment in the county jail. The other, who stabbed to death a boy that was teasing him, was acquitted.

A few weeks previous the execution took place of a man who had been convicted of murdering his wife and setting fire to his house to conceal his crime. The scene at the execution is described as a disgrace to a civilized community, and some of the county papers are calling for an investigation and punishment of the disorderly individuals. But the most serious phase of the affair is that there seems to be a gathering conviction that possibly the man was unjustly sentenced and executed, although at the time of the trial circumstances pointed strongly to his guilt. If there are any tangible grounds for the assumption that such a terrible miscarriage of justice has occurred, there should be an investigation, though no result is possible except a sense of realization by the public that circumstantial evidence is never strong enough to justify destroying life, and also to convince them that after conviction sufficient time should elapse before execution, to afford every chance for the correction of erroneous conclusions.

WORKED AN OLD GAME.
Some store-keepers in Fairville, would welcome the man, who as an agent, solicited orders from them for magazines, published by a New York house. The dealers paid the agent, and when after some time no magazines arrived, one dealer wrote to the firm, but his letter was returned, being told that the name of no such firm was to be found in the directory. In the latter part of August, a plausible, good looking young man came in a team to their stores. He said he was from Toronto, and worked in the interests of a news company, the main offices of which were in New York. He offered dealers the agency for these publications, but it was necessary for them to pay a three months' subscription, for each of \$4.16. This was agreed upon by some of them, and the money paid over. He has not since been seen, but the game is an old one.

Mrs. Parvau patronizingly—"Were any of your ancestors men of note?"
Mr. Filippant—"Yes, madame, I should say so. One of them was the most famous admiral of his day, and commanded the allied forces of the world."
Mrs. Parvau, with altered tone of deep respect—"Is it possible, Mr. Filippant? And what was his name?"
Mr. Filippant—"Noah, madame."

GRAND FALLS.

**Rev. Father O'Keefe Present-
ed With Addresses and a
Purse at Farewell Ban-
quet.**

Grand Falls, Oct. 18.—The farewell banquet tendered by the citizens of Grand Falls to Rev. M. A. O'Keefe, on Monday evening, was a grand success. Over three hundred persons did justice to the elaborate menu provided for the occasion. Addresses in English and French were read and presented to Father O'Keefe by J. C. McCluskey, and Dr. Rouleau respectively. Two little girls on behalf of the Catholic congregation, presented the Reverend gentleman with a bouquet, and a purse containing three hundred and twenty-five dollars.

Rev. Mr. Maimon, Episcopal clergyman at Drummond, was toast master during the evening, and among the speakers were Rev. John Bradley, Presbyterian clergyman here, Hon. John Costigan, Dr. Puddington, Dr. Rouleau and Chas. McCluskey.

Father O'Keefe made a feeling reply to the address and expressed his complete surprise at the receipt of the purse.

Tuesday noon, the school children of Grand Falls, were banqueted and several hundred little ones enjoyed the feast.

Rev. Father Joyner arrived in town this afternoon. Father O'Keefe will depart tomorrow for Chatham, where he will assume his duties as Rector of the Cathedral.

J. J. Gallagher has removed his law-offices to the Wilson building on Broadway.

Fools Use Washes and Snuffs

Thinking perhaps they will cure Catarrh,—but no one ever heard of a genuine cure following such senseless treatments. There is just one prompt and thorough cure for Catarrh and it is fragrant healing Catarrhazone which goes right to the root of the trouble. It destroys the germs, heals the inflamed membranes and cures any case no matter how obstinate or long standing. "I experimented for years with Catarrh remedies but found Catarrhazone the most rational and satisfactory," writes W. I. MacEachern of Waterville. "It cured me for all time." For a sure cure use only Catarrhazone. Complete outfit, \$1.00; trial size 25c.

A PAYING PROPERTY.

The New York Tribune says:—"In Canadian Pacific consider merely these two brief paragraphs from the annual address of the President, Sir Thomas Shaughnessy:

"In three years your gross revenue from traffic has grown from \$30,855,000 in 1901 to \$46,469,000 in 1904, or about 51 per cent. Your land grant bonds outstanding at the end of 1901 amounted to \$17,831,000, while in 1904 only \$11,500,000 remained to be provided for, and in the intervening period deferred payments on land sold increased from \$3,652,869 to \$15,252,303."

There is a property where intelligence and integrity vie for the production of lasting prosperity."

Summer Places Wanted

MORE and more each year summer sojourners from the States are seeking out the cool spots in Canada, and patronizing well-managed hotels and pleasantly located boarding places.

Each season thousands from all over the United States turn to the advertising columns of the Boston Evening Transcript, where so many announcements of summer places are published.

If you desire to reach the well-to-do people and attract them to your place, insert a well-worded advertisement in the Boston Transcript. Full information, rates, sample copies and advice cheerfully given on request.
