

THE RIOTS AT INNSBRUCK

Result in Bad Blood Between Austrians and Italians--Inflammatory Addresses Made--Five Hundred Students at Milan Shout "Down With Austria"--The Austrian Premier is Firm.

Innsbruck, Nov. 6.--Disorders were renewed late this evening. A mob paraded the streets whistling and catcalling and throwing fireworks under the feet of the horses of the Gendarmes who were attempting to disperse them.

Innsbruck, Nov. 6.--The body of the artist Prezzy, who was stabbed through the heart with a bayonet during the rioting here the night of Nov. 3, was buried this afternoon in the Innsbruck cemetery, in the presence of a great crowd and with imposing ceremonies. Perfect order was maintained.

After the funeral crowds promenaded the streets singing German patriotic songs, and three thousand people assembled in Maria Teresa street where Deputies Berger and Stein delivered inflammatory addresses. The police interposed and the two deputies fled to the station, where they

took a train for Vienna to avoid arrest.

Vienna, Nov. 6.--Prime Minister Von Koerber this afternoon had a stormy interview with Herr Erler, Vice Burgomaster of Innsbruck, and Herr Denschatte, leader of the people's party. The premier firmly declined to close the Italian faculty of the University of Innsbruck.

Milan, Nov. 6.--About five hundred students today gathered in the center of the city crying "Down with Austria", and called to the balcony of his hotel the Innsbruck correspondent of 11 Corriere Della Sera, who had just arrived from that place after having been severely maltreated by Germans. Subsequently four Germans who were sitting in a cafe began singing "The Watch on the Rhine". Requests that they cease were met with further insults and declarations that the Italians were towards A light, in which sticks were used, then ensued and a number of persons were injured. The police, however, restored order.

SUIT WAS DENIED.

Judgment Given Today in the Exchequer Court.

Ottawa, Nov. 7.--(Special)--In the case of Theodore Bouchard v. the King, judgment was given in the exchequer court today dismissing the petition.

The suppliant claimed \$1,766 as seizure officer and informer out of sale of the schooner Florida and her cargo seized for infraction of the custom laws.

Bouchard took passage on the schooner at St. Pierre, Miquelon, having learned that she had a cargo of liquor, which she intended smuggling into Canada and attempted to seize her upon reaching Canadian waters. The cutter Constance, came along and seized the Florida in the usual way.

The department declined to admit Bouchard's claim.

An application is said to be in circulation among conservatives in Carleton county, asking Mr. Kydd to resign in favor of Mr. Borden.

A DEPLORABLE CONDITION.

A terrible menace to Great Britain exists in the immense number of feeble minded children among the population. According to the late estimate there are 50,000 epileptic children in the United Kingdom, and one child in every hundred is feeble minded. Of late years special provision has been made for these unfortunate in schools in which no other children are received. There the feeble-minded are trained until they are sixteen years old, and then they are turned out on the world. There is no power to restrain them, and they bring about sad misery for themselves and others.

At a meeting of the National Association for the Feeble-Minded recently held in London to discuss the pathetic subject one of the speakers said that the Magdalene homes are filled with girls in their teens, and out of 97 cases he investigated he found 37 per cent. were mentally deficient. The majority, it is said, drift into imbecility, and flood the workhouses and prisons.

HON MR. FITZPATRICK MAY TAKE MR. BLAIR'S PLACE.

Report in Ottawa that He Will be Made Chairman of the Railway Commission and Mr. Aylesworth Will be Minister of Justice--Sir Wilfrid Going South.

Ottawa, Nov. 7.--(Special)--Sir Wilfrid Laurier was all forenoon in his office in Eastern block. Asked if Mr. Aylesworth was to be provided with a seat Sir Wilfrid replied that he could have anyone of two in the province of Quebec. One of these was Gaspé where he could be elected by acclamation. If Mr. Aylesworth is allowed his election by acclamation by the conservatives, then the liberals will not op-

DRY GOODS TRADE.

Prices of Dress Goods and Men's Wear Advancing.

Toronto, Nov. 6.--A prominent feature of the dress goods situation is the advancing tendency that is noticeable on all lines. One of the most important advances has been on broadcloths, and while in certain directions this has restricted the sale, in colors that are in demand the advance is being paid readily. The marked advance in raw material has caused some uneasiness among manufacturers of knitted goods. Raw wool has advanced to such an extent that an advance on the manufactured goods is claimed to be absolutely imperative if a profit is to be secured. Wool is still going up in price, and supplies are short. The European market although not depleted to such an extent as the American market is, is nevertheless overstocked, and the tendency there is for prices to harden. Reports from the west are to the effect that there are far more buyers than sellers. Supplies of carpet wool are low, and the importing season is now opening. If the demand keeps up the prospects are that prices will harden. Advances from South America and South Africa are to the effect that values are quoted substantially higher than last season's prices. For the South African product the advance is put at about 20 per cent and for South African material 10 per cent. The raw material situation would seem to indicate the most radical change in piece goods for another season that has been seen in the men's wear industry in years. In the first place comparatively few manufacturers are in a comfortable position in regard to wool, while with respect to yarn the situation is even more intense. Manufacturers claiming they seldom if ever saw such independence on the part of spinners of worsted yarns. Because of the outlook it is expected the advance, especially on worsted will, in many cases, be from 15 to 20 per cent.

CROUCHING FOR A SPRING.

THE GREATEST BATTLE OF THE WAR IS IMMINENT.

Japanese and Russian Armies Within 400 Yards of Each Other at One Point on the Shakhe River--Operations Near the Korean Border.

Mukden, Nov. 7.--The Russian and Japanese armies extending from Bensiaputze East to the Liao River, at places are almost within a stone's throw of each other. At Bensiaputze not more than four hundred yards separate the advance parties. At Husangshantse the Russian centre has thrown advance posts across the Shakhe river. Both armies are still strengthening their operations all along the line. The slightest movement on either side is the sign for firing which occasionally lasts all night. The Russians are using six inch guns on the railway which must greatly harass the Japanese. Undoubtedly the most decisive, if not the greatest battle of the year will be fought in the vicinity of the Shakhe river. The Russians are confident of their ability to hold their positions. The soldiers are building mud houses for winter head quarters. The nights continue cold but the days are bright and crisp.

Montreal, Nov. 7.--(Special)--That the fall of Port Arthur would bring about the end of the war through the intervention of the powers was the opinion expressed by Hon. T. Nosse of Ottawa, Consul General of Japan at the Windsor hotel, today. Discussing the Dogger Bank outrage of the Baltic fleet, Mr. Nosse said that it was undoubtedly inspired with the object of bringing about the intervention of England and the holding back of the Baltic fleet.

Affairs in Korea.

New York, Nov. 7.--A Seoul, Korea despatch to the Herald, dated Oct 28, via Che Foo, Nov. 6, says: The efforts of the engineers to raise the Variak, at which they have been working for six months, have ended in a complete failure. At extreme

low tide, powerful pumps were started in the presence of naval officers of all nations, but the pumps were quickly choked by mud, which rendered the attempt abortive. The officer in charge asserts that a new method will be used and another attempt made to raise the Russian warship within a month. He expressed determination to achieve success in spite of all obstacles. Acting on Japanese advices, the Korean finance department has decided to abolish the government mints, depending upon the Japanese mints to coin the new currency. This decision, while it secures more strongly Japanese control over Korean finances, can result only in great benefit to trade conditions, and meets general approval. The recently appointed bureau for investigation of the finances of the imperial Korean household discovered a shortage of ten million yen, whereupon the bureau was immediately abolished by imperial edict. It is evident that a closer investigation was undesired, the disclosures probably implicating those higher in authority.

Hamheung and Kyungsung.

New York, Nov. 7.--A despatch to the Herald from Wonsong, Korea, via Che Foo, Nov. 6, says that 15,000 Russian troops are south of the Tumen river with 32 guns. Of this number, 6,000 of the main body are quartered at Kyungsung, 2,000 along the coast in town garrisons and 4,000 cavalry are throwing out westward in small bodies, menacing the Japanese lines of communication and railway construction between Pin Yang and Wiju by frequent cross country raids. In St. John.

This is declaration day in connection with the recent federal election and as a result considerable interest is being manifested.

For St. John city and county Sheriff Ritchie opened court at 10 o'clock this morning and the attendance was limited, those present being confined to the candidates Daniel and O'Brien, newspaper representatives and the officers of the court.

Sheriff Ritchie submitted the individual polling booth returns and after a general tallying declared Dr. Daniel and Dr. Stockton, the two opposition candidates elected as representatives from St. John in the Dominion house.

For the city Dr. Daniel's total vote was 4881 and Mr. O'Brien's 3670, or a majority of 1211.

For the city and county Dr. Stockton's vote was 5601 and Hon. H. A. McKewen's 4965. Dr. Stockton's majority was 636.

After the declaration by the sheriff, R. O'Brien moved a vote of thanks to the sheriff, deputy sheriff, and deputy returning officers expressive of appreciation of the impartial manner in which they discharged their duties. They have all by their faithful work proved very useful in conducting the official work of the campaign.

Dr. Daniel in ascending the vote of thanks paid a tribute to the efficient work of the officials referred to. The sheriff on behalf of himself and his deputies returned thanks for the kindly references made and assured the mover and seconder that the kind words were duly appreciated.

Montreal, Nov. 7.--In a manifesto issued tonight by Hon. E. J. Lynn, leader of the conservative party in this province, the public is informed the conservatives will take no part in the coming elections, for the reason that it is claimed an unfair advantage has been taken by the provincial government in calling the elections so soon after the federal contest. The cause of this decision is that the day after the federal vote, it was announced that provincial nominations would take place on the 18, and election on the 25th.

The conservative leaders held a caucus here today and decided to issue explanation and put no candidates in the field. The manifesto also affirms that the course adopted in Quebec by the government, is unconstitutional and that the only thing left them was to protest. However they do not abdicate their right to hold the government accountable for its acts, at the proper time, but for the present they drop out of the fight with their weapons in their hands.

The manifesto has caused a commotion in the political world. The present conservative representation in the Quebec legislature is only seven votes but even these will not be available according to the determination of the Conservative party leaders.
