

**BOTH ARE CONFIDENT OF VICTORY TOMORROW.**

**Republicans and Democrats Line Up for Battle—In Massachusetts Reciprocity With Canada is One of the Issues—Certelyou Claims 314 Votes for Roosevelt.**

New York, Nov. 6.—Geo. B. Cortelyou, chairman of the republican national committee, made a brief statement tonight, reiterating his forecast of the previous night on the result of the election. He said: "As a final forecast I see no reason to change my previous statement and I adhere to that after receiving full reports from all over the United States, in the last 48 hours. I am satisfied that the republican candidate will carry every northern state, with the possible exception of Maryland and Nevada, and will have not less than 314 of the 476 votes in the electoral college."

There was no extreme activity about political headquarters today, but the campaign managers were alert and watching the close of the campaign with great interest. The democrat national committee issued a statement claiming with confidence the election of Judge Parker, and also making assertions about the campaign fund of the republican party. Chairman Cortelyou, although shown a copy of the statement, would make no comment further than to repeat the claim made last night that Mr. Roosevelt would have 314 votes in the electoral college. The democrats claim 270 votes.

About the hotels where politicians usually gather and where great interest is shown on the eve of an election, there was the same quiet that has marked the progress of the canvass. A few groups in the cafes discussed the situation and expressed opinions on the result, but there was no excitement nor offers to wager any large sums, which has been a feature of previous elections.

Some opinions were expressed by members of the different committees, their views being that the election would be a landslide for the candidate they supported. The wide difference in the estimates of the two committees and the confidence which the managers of both parties expressed, caused no little comment.

There was also discussion upon the newspaper polls and they were endorsed or discredited according to the party bias of the person who gave an opinion.

Both committees received reports during the day from lieutenants in the field and both claimed that the reports bore out their predictions of success and caused their respective partisans to declare with increased confidence their belief in the election of the candidate they supported.

**EVA BOOTH'S SUCCESSOR. Commissioner Coombs Well Known in Canada.**

Thomas Bales Coombs, Commissioner of the Salvation Army in England, has been appointed by General Booth to the command of the Canadian forces in succession to Miss Evangeline Booth. The announcement was a great surprise for Commissioner Coombs was the first territorial officer in command of the Dominion, after it became an independent charge, and commissioners are very seldom sent twice to take charge of the same territory. But the appointment will be hailed with delight by the soldiers of the Dominion everywhere, for no leader that Canada has ever had, except, possibly, Miss Booth, has been so beloved and revered as Commissioner Coombs.

Commissioner Coombs was only about 30 years of age when, in 1884, he was commissioned by General Booth to take charge of Canada. It was his first territorial command and the work was new. There were less than a score of corps in the whole of the Dominion and those that had been organized were under the jurisdiction of the New York commissioner and were officered by captains sent over from the United States. Montreal I. Corps were not formed until some time after Commissioner Coombs took charge. When he left, five years after, every city, town and village of importance had been invaded and corps or outposts had been established in them.

From Canada, Commissioner Coombs was sent to Australia, where great success accompanied his ministrations. After about five years in the Antipodes he was transferred to England, where he has been ever since, succeeding Miss Booth as commissioner for the English field. There are few if any more spiritual leaders or more capable administrators in the Salvation Army than Commissioner Coombs.

**OOM PAUL'S FUNERAL.**

Mr. Botha has issued the programme to be observed at the funeral of Paul Kruger.

The remains will lie in state at Cape Town for a week, and will then be conveyed by special train to Pretoria, the final interment taking place on Dec. 16.

The government has promised to facilitate the attendance of Afrikaners from all parts of the country by relaxing the stringency of the permit regulations.

In Pretoria the ceremony will be of a semi-military character, and funeral orations will be delivered by Mr. Botha and other Boer leaders.

IS THERE A MATTER TO WHICH YOU THINK PUBLIC ATTENTION SHOULD BE CALLED? TELL THE TIMES ABOUT IT.

Judge Parker, who closed his tour of speeches at Brooklyn last evening, remained in New York until 6 o'clock when he left for Esopus.

Boston, Nov. 5.—One of the most active canvasses ever held in the state of Massachusetts, practically was brought to a close tonight with the republican leaders expecting a decided victory for all their candidates, and with the democrats confident that the republican plurality of recent years will be notably reduced, if not wiped out altogether and a democratic success achieved. It seems to be generally predicted that President Roosevelt will carry Massachusetts; the interesting question is whether William L. Douglas, the democratic nominee for governor, will be elected over the present governor, and nominee for re-election John L. Bates. Last year Governor Bates carried Massachusetts by a plurality of 55,984 over Col. William A. Gaston, who was the democratic candidate. The democrats have conducted an earnest campaign and have relied to a great extent upon the personality and record of their gubernatorial candidate, Mr. Douglas, assuming that the latter's position as a considerable employer of labor would be of great influence on the voter.

Both the republican and the democrat parties conducted a campaign whirlwind series of rallies today and tonight, and more will be held on Monday.

The chief democrat arguments for a defeat of the republicans have been charges of excessive increase in the public debt, and the refusal of the republicans to obtain reciprocity with Canada. Governor Bates personally has been attacked for vetoing legislative measures designed to prevent overtime work in mills. The answers to these charges have included declarations that the debt increase was necessary, that conditional reciprocity has been sought, and that the governors veto of the so-called "overtime" bills, was the best procedure both for employer and employee.

Next to the questions of the choice of governor and the character of the voting for president, interest in next Tuesday's election centers in the various contests for Congress. The most notable of these is in the 11th district, one of the three in Boston, where Congressman John A. Sullivan, is seeking re-election as a democrat, being opposed by Eugene N. Foss, republican, who has chiefly been prominent in the state as a supporter of Canadian reciprocity.

**GARBAGE IN TORONTO.**

**City Authorities Wrestling With Question of its Disposal.**

Street Commissioner Jones, of Toronto, has forwarded to the works committee of that city a full report on the proposal that city garbage should be removed by trolley. The document is summarized as follows: "The cost of establishing the necessary plant would be, approximately, \$65,000."

"Garbage proper cannot advantageously be moved by trolley system, because it is not possible to concentrate it at loading points without creating a nuisance. Ashes and street sweepings can be advantageously moved by trolley system, the saving per load being approximately, 52 cents."

"As a comprehensive scheme for the disposal of the city's refuse the following recommendations are submitted: (a) The erection of three additional destructors—one in the northwest, one in the northeast and one at Ashbridge's Bay, at a cost for the three, approximately, of \$40,000. (b) The establishment of a trolley loading point at or near Tannery Hollow, and another on the waterfront. The approximate cost would be \$48,000. (c) Estimated saving by erection

of destructors would be sufficient in between two and three years to pay for all three, exclusive of cost of sites. If something is not done by next spring, when the annual cleaning is undertaken, it will be necessary to increase the scavenging appropriation by at least one-third.

(d) The establishment of the proposed trolley loading points, two, if possible, would yield a saving of several thousands dollars per annum. "The city, for scavenging and kindred services, will be reorganized into three divisions instead of two. "It is recommended that authority be given the department to equip the street sweeping machines with gasoline motors in lieu of horse power."

**1,800,000 People**

**Have Asked Us to Buy Them a 50c. Bottle of Liquezone.**

We offer to buy the first bottle of Liquezone, and give it free to each sick one who asks it. And we have an excess of oxygen—is deadly to vegetative matter. There lies the great value of Liquezone. It is the only way known to kill germs in the body without killing the tissues, too. Any drug that kills germs is a poison, and it cannot be taken internally. Medicine is almost helpless in any germ disease. It is this fact that gives Liquezone its worth to humanity. And that worth is so great that, after testing the product for two years, through physicians and hospitals, we paid \$100,000 for the American rights.

not kill. The reason is that germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetative matter.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone attacks the germs, wherever they are. And when the germs which cause a disease are destroyed, the disease must end, and forever. That is inevitable.

**Germ Diseases.**

Liquezone is not made by compounding drugs, nor is there alcohol in it. Its virtues are derived solely from gas—largely oxygen gas—by a process requiring immense apparatus and 14 days' time. This process has, for more than 20 years, been the constant subject of scientific and chemical research.

The result is a liquid that does what oxygen does. It is a nerve food and blood food—the most helpful thing in the world to you. Its effects are exhilarating, vitalizing, purifying. Yet it is a germicide so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

Fever—Gall Stones, Typhoid, Cholera, Malaria, Rheumatism, Gout, Gravel, Neuritis, Sciatica, All diseases that begin with fever—all inflammations—all catarrhs—all contagious diseases—all the ranks of nature or poisonous blood. In nervous debility Liquezone acts as a vitalizer, accomplishing what no drug can do.

Tumors—Eczema, Varicose Veins, Wounds, Ulcers, All diseases that begin with fever—all inflammations—all catarrhs—all contagious diseases—all the ranks of nature or poisonous blood. In nervous debility Liquezone acts as a vitalizer, accomplishing what no drug can do.

**50c. Bottle Free.**

If you need Liquezone, and have never tried it, please send us this coupon. We will then mail you an order on a local druggist for a full-size bottle, and we will pay the druggist ourselves for it.
