The mammal expedition into the Fort

markabe Discover= ies in New Mexico.

## New York, Nov. 5.—Three expeditions under Prof. Henry Fairfield Osborn returned to the American museum of natural history Wednesday from the Rocky mountains. They brought back two carboads of skeletons of many animals heretufore undiscovered, besides complete skeletons of monsters of which there were the track against a museums previously only IN CHURCH.

fragment.

Most remarkable was the discovery of a cave in New Mexico containing thousbands of complete and fragmentary skeletons of a whole menagerie of extinct animals. Prof. Osborn gave the following account of the expeditions and their results:

Mragment.

The Rule Adopted in Wesley Metho=

in Uesley Metho=

dist, Toronto. dist, Toronto.

The mammal expedition into the Fort Bridget region, Wyoming, was in charge of Dr. W.D. Matthew and Mr. Walter Granger. This is a classic locality. Special search was made for complete remains of the great horned quadruped which inhabited this region in the eccene period. As a result portions of two skeletons of intatherium were obtained also a fine told his flock that the demand made Toronto, Nov. 7.-By an unanitower law.

'One of these skeletons was found in such a position that the animal must have mired in what was formerly a soft tenacious mud but is now an olive green covered, that need present no difficulty.

La Presse, of Montreal, in its tenacious mud but is now an olive green covered, that need present no difficulty.

and limb bones.

"The party continued down into Arkansas, and in a crevasse in a cavern of the pleistocene age were found ten complete and many fragmentary skulls of rodents and carnivores, about 1,000 jaws thousands of limb bones and vertebrae, representing nearly 40 species of animals.

'Materials were brought back for the preparation of a section of this remarkable cave which have disappeared since this remarkable cave collection was deposited.
