Year 1904=05 Was One of Most Success= ful in History of the Institution === The Deficit is But \$500 === Sir William Macdonald's Benefaction for Student Union Biggest Item of the Year.

(Montreal Gazette.) mors, principal, and fellows of McGill University for the year 19031904, which is the seventy-fifth year of the teaching work of the university. 1904, which is the seventy-fifth year of the teaching work of the university, has just been published, and shows that the past year was marked by advances in every way. The student attendance in most of the faculties was greater than any previous year in the history of the university, while the record of original research and investigation undertaken, as well as the output of published work, continued to add to the reputation and prestige of the professorial body. Even in the department of finance there was ground for encouragement and satisfaction. In an institution with constantly increasing needs as must necessarily characterize the work of a modern and progressive university it speaks well to have to report that the deficit for the year amounted to little over \$500.

The most important thing in the bistory of the session had been the little over the profession had been the little over the profession had been the little over the profession had been the little over the little over the profession had been the little over the little over

The most important thing in the history of the session had been the gift to the university by Sir William Macdonald, chairman of the board of governors, of the sum of \$125,000, along with a site on which was to be erected a building to be called the McGill Students' Union, "for the purpose of relaxation, amusement and social intercourse among the undergraduates of the university." Regret had often been expressed that many of the students who came up year after year to the city should have no better social basis than what nouse and the restaurant. Moreov-er, the cost of living had increased cient scheme of school examination by nearly twenty-five per cent due conducted by the Fatriculation by nearly twenty-five per cent. during the past ten or twelve years.

Thus the need for doing something to render Montreal from this point

Council of Public Instruction. of view a more attractive centre, and this union was expected to obviate BODIES ARE

It was a fortunate coincidence, also, that some much-needed resident-ial accommodation was at the same time being provided by the committee in charge of the Y. M. C. A. The new building, which the liberality of the Chancellor, Lord Strathcona and other friends had enabled them to e-rect, did not become the property of the university, but it might be welcomed as the first of what may grow to be many dormitories or halls or residence. The Y. M. C. A. building now being erected on the south

ture of Dr. Tait McKenzie, who had done so much for gymnasium work.

Among the salient features of edu-Regret was expressed at the deparcational progress during the past session were mentioned the contin-nance of the closest possible connection between the faculty of arts and the McGill Normal School. In order to encourage teachers-in-training to go forward to the university three bursaries had been instituted, ten-able by the best students of the Normal School. It was fortunate that concurrently with this step something was being done by the Protestant Board of School Commissioners of Montreal to increase salaries of their teachers.

In regard to the summer session at was added to the course, namely the French Summer School, which had Castro, of Venezuela, had issued an or- (C. B.) A distressing case of Fibroid Tumor, which baffled the skill of Boston doctors. \$3.40 Hayes, of Boston, Mass., in the following letter tells how she was cured, after everything else failed, by Lydia E. I kham's Vegetable Compound.

Mrs. Hayes' First Letter Appealing to Mrs. Pinkham for Help:

"DEAR MRS. PINKHAM: - I have been under Boston doctors' treatment for a long time without any relief. They tell me I have a fibroid tumor. I cannot sit down without great pain, and the soreness extends up my spine. I have bearing-down pains both back and front. My abdomen is swollen, and I have had flowing spells for three years. My appetite is not good. I cannot walk or be on my feet for any length of time.

"The symptoms of Fibroid Tumor given in your little book accurately describe my case, so I write to you for advice."—(Signed) Mrs.

E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass. Note the result of Mrs. Pinkham's advice-although she advised Mrs. Hayes, of Boston, to take her medicine—which she knew would help her—

her letter contained a mass of additional instructions as to treatment, all of which helped to bring about the happy result.

"Dear Mrs. Pinkham: — Sometime ago I wrote to you describing my symptoms and asked your advice. You replied, and I followed all your directions carefully, and to-day I am a well woman.

"The use of Lydia E. Pinkham's Vegetable Compound entirely

expelled the tumor and strengthened my whole system. I can walk "Lydia E. Pinkham's Vegetable Compound is worth five dol-

lars a drop. I advise all women who are afflicted with tumors or female trouble of any kind to give it a faithful trial."—(Signed) Mrs. E. F. HAYES, 252 Dudley St., (Roxbury) Boston, Mass.

Mountains of gold could not purchase such test any—or take the place of the health and happiness which Lydia E. Pinkham's Vegetable Compound brought to Mrs. Hayes.

Such testimony should be accepted by all women as convincing evidence that Lydia E. Pinkham's Vegetable Compound stands without a peer as a remedy for all the distressing ills of women; all ovarian troubles; tumors; inflammations; ulceration, falling and displacements of the womb; backache; irregular, suppressed or painful menstruation. Surely the volume and character of the testimonial letters are delivered in the process of the control ters we are daily printing in the newspapers can leave no room for doubt

Mrs. Hayes at her above address will gladly answer any letters which sick women may write for fuller information about her illness. Her gratitude to Mrs. Pinkham and Lydia E. Pinkham's Vegetable ompound is so genuine and heartfelt that she thinks no trouble is too eat for her to take in return for her health and happiness Truly is it said that it is Lydia E. Pinkham's Vegetable Com-

pound that is curing so many women, and no other medicine; don't for- convinced. get this when some druggist wants to sell you something else.

\$5000 FORFEIT if we cannot forthwith produce the original letters and signatures of above testimonials, which will prove their absolute genuineness.

Lydia E. Pinkham Medicine Co., Lynn, Mass.
