The first will be held to-night, and all members are requested to attend in view of the early date of the harvest festival services, which will take place this year on Sunday, October 16.

There was a quick lunch in the "lunch" composing room on Saturday. The compositors had much to eat, and time was valuable. But White's King street, met the difficulty, and in a very short time after the call over the telephone a score of steaming lunches with coffee were in the composing room, and the work went on.

Pilot Doherty, of the pilot boat Howard D. Troop, which reached this port on Saturday, reports having encountered heavy weather off Briar Island on Friday morning, in which he lost his small boat, with the oars and boat hook. The boat was swept clear of the deck by a heavy sea, and only the stern left, held fast by the lashings.

The election of officers of St. Peter's Y. M. A. took place yesterday afternoon and resulted as follows: Alfred Dower, president; Thomas Phillips, vice-president; Maurice Coll, secretary; Arthur Delaney, assistant secretary; James Burke, treasurer; John Hurley, assistant treasurer; Wm. McMahon, Chairman of Literary Committee; Wm. Harrington—chairman of sporting committee; Frank De Grass—Sergeant-at-arms.

HON. ELIHU ROOT IN TOWN.

This morning ex-secretary Root of V. S. Navy, and party, arrived in St. John from Halifax on the early express. The party consisted of about 17, among which were Mr. and Mrs. Rollins, and Mr. Ditson, a New York millionaire. They have been shooting in Newfoundland and have a large quantity of caribou with them. They hired a special train from Sydney to make connection at Halifax, but missed making connection and staid in Halifax over Sunday. From there the party hired a special pullman car in charge of Conductor Ward, and proceeded to St. John, transferring at the Cantleaver Bridge for Boston.

POLICE REPORTS.

Since May last the police have reported 203 cases of violation of the Board of Health rules, and there are more to follow.

Daniel Millock and Thos. Daggert of schooner Bessie May were reported for fishing in the harbor without licenses.

TONIGHT'S THE NIGHT.

Beginning tonight the Currie Business University, Limited, will open five days per week, during winter—Four dollars for one month—Ten dollars for three months—night or day.

CITY COUNCIL HAS MUCH TO CONSIDER.

Requests of Various Kinds for the Committees to Deal with—Civic Employes ask for More Pay—Temperance Societies and Cigarettes.

The City Council is holding its regular monthly meeting this afternoon and the order paper contains considerable business of varying importance which will come up for consideration. The following communications were referred to the respective boards:

Residents of Gullford street between Watson and Lancaster asked to have a sewer laid. The board of school trustees complained of the dangerous condition of the dump on the land adjoining the Aberdeen school which they claimed is a menace to the health of something like 350 children. A request is made that the matter be given immediate attention.

The deck hands of the ferry steamers claimed that in view of the fact that the cost of living has considerably increased during the past few years that the wage they now receive \$1.29 per day is not sufficient to enable them to support their families and they ask for an increase to \$1.40.

A large number of residents of the neighborhood of corner Sydney and King Square complain of annoyance caused by the manufacturing of asphalt in a lot on the south side of King Square. They claim that the smoke and odor are most offensive.

The board of health reported that as the result of a public sewer draining portions of Rodney, Watson, Winslow and Lancaster Sts., there is a most offensive odor in the neighborhood of the vacant land between Watson and Rodney streets. Wm. Thomson & Co. representing the Furness and Head Line steamers request that a wharf be set aside for the use of these lines during the coming winter season. The C. P. R. berths allotted to them last year would be satisfactory.

Messrs. Thomson also applied for berth No. 2 for the steamers of the Allan Line. These boats carry the mails and would like No. 2 berth as during the past winters, on behalf of the Manchester Line they apply for berth No. 1 which berth was occupied by these steamers the past two years.

The Salvage Corps and Fire Department drivers ask that their salaries be increased from \$45.00 to

\$50.00 per month owing to the increased living expenses.

Hazen B. Brown makes application for the position of engineer of the his chemical engine.

The joint executive committee of the Sons of Temperance of New Brunswick, the Independent Order of Good Templars of New Brunswick and Nova Scotia, the Woman's Christian Temperance Union of Nova Scotia and the Royal Templars of Temperance sent a resolution passed during their recent session at Wentworth Centre, N. S. The resolution asked the council to enforce the law in regard to the sale of cigarettes.

Similar resolutions were sent to mayors and councils of all the incorporated towns of New Brunswick and Nova Scotia.

Residents and property owners of Gooderich street complained of the state of the sewer on that street. An old water course has been stoned over and left to act as a drain. It is now giving way and causing considerable damage. They desire a proper sewer to be laid at once.

Mr. Downie general superintendent of the C. P. R. has made an application for two berths for the railway's steamers line if this cannot be arranged would like berth No. 3 and the use of any of the other berths when they are not occupied by the respective lines to which they will be allotted.

During the whole season the C. P. R. will have five times only one steam or in port at a time, four times they will have three, and the balance of the winter two. The railway would like to accommodate the Head and Furness line steamers at their wharf which has not sufficient water for their own boats and this will relieve berth No. 1 of the Furness steamers. From present appearance the C. P. R. believes the shipping at St. John this season will be fully as good if not better than last.

They also suggest that during the continuance of the winter port business vessels should not be allowed to occupy berths at the wharf while taking deals from scows, to the exclusion of vessels that require to land, to deliver to, and receive cargo from railway.

CITY MAY SUCCEED IN PULP MILL PURCHASE.

No Other Tenders Received, so the City's Proposal Will Probably Be Accepted What Mayor White and the Liquidators Say.

The city's tender for the purchase of the Mispec Pulp mill was the only tender received by the liquidators and will likely be accepted.

With the plans for the extension of the water system to Loch Lomond as outlined by Engineer Harbour and the acquisition of the Mispec Pulp mill carried into effect the city will be in an entirely different position as regards its water supply. It may also bring about a reduction in the rates of insurance.

When seen this morning in reference to the tenders for the pulp mill property the liquidators, Messrs. E. B. Ketchum and J. A. Likely, declined to give any report for publication. The matter is yet to be discussed by the Liquidators and Common Council, and until that time the liquidators do not consider it would be courteous to the city to discuss it in the press. His Worship the Mayor also declined to be interviewed until official action is taken. He believes, however, that

if the city is able to purchase the lands at the figure at which they have tendered, it will be an excellent investment and will avoid the possibility of heavy damages to the present owners of the pulp mill, which might result from alleged interference with their supply of water.

The mill and land has cost the company upwards of \$350,000, and in addition to that sum would no doubt be figured the prospective profits to the company, which could be made to show several hundred thousand dollars additional. In the city's past experiences with arbitrations suits for damages have cost a much larger sum than would have settled the claims by purchase at the outset, and it is held by the mayor that by the purchase of the Mispec Pulp mill the city would secure a good property, could utilize part of the land and let or sell the mill, and be able to supply sufficient water for its needs without any difficulty.

PERSONAL INTELLIGENCE.

Mr. and Mrs. Coppler left this morning for Boston, where they will visit relatives.

MINING OFFICIAL ARRIVES IN TOWN.

Will Make a Study of New Brunswick Mineral Deposits for Dominion Government.

E. Nyström, of the Department of Mines, arrived today from Ottawa and is registered at the Royal.

At the request of a St. John syndicate, Mr. Nyström will inspect an iron deposit in this section of the Province after which he will be a position to give the public some further information on the subject. For the present he can only say that, if the property is as rich in ore as represented, it will mean a valuable addition to the discovered mineral wealth of New Brunswick.

The Department of Mines is now preparing an exhaustive publication on the mineral resources of Canada.

POLICE COURT.

These were twelve prisoners on the docket this morning, seven of whom were common drunks. Four of these forfeited \$8.00 each, and the remaining three were fined \$8.00 or a term of thirty days each.

Harry McDonald who was given in charge by William Dunham, clerk of the county market, for drunkenness and disorderly conduct in the market building, was fined \$8.00 or two months hard labor.

Carl O. Neilson, arrested for carrying a loaded revolver and discharging it on the South Wharf, forfeited \$16.

James Scott, charged with drunkenness, and using profane and obscene language, forfeited \$8.00.

Isaac James Logan, was charged with drunkenness and using profane and obscene language.

When questioned by the Magistrate as to where he had obtained the liquor, he replied "at Carson's on Main street." "At what time?" asked the Magistrate. "About seven o'clock Saturday night," was the reply.

His honor remarked that it was against the law to sell liquor after seven o'clock on Saturday night. Logan was remanded.
