

SWING OF VICTORY ALL ALONG THE LINE.

Mr. Tarte Says That Borden Will Carry 20 to 25 Seats in Quebec---Liberal Cheers for Borden---Reports From Westmorland and Kings-Albert--- Will Defeat Logan.

(Daily Telegraph.)
The expected has happened. The report spread last night that followers of Mr. McKewon and Mr. O'Brien in certain quarters had openly accused one another of intended treachery on election day, and that, as a result of this discovery, the government campaign here was developing into a bad case of every candidate for himself and "devil take the hindmost."
Great pressure has been brought to bear upon both sides of the O'Brien-McKewon combination for some weeks past to persuade or drive the two companies into united action, at least on election day, but it now appears that a split has developed in the rank and file, each side fearing that it is to be "thrown down" by the other. The only sure way to get even is, of course, to be beforehand, and it was the talk in many places last night, that many friends of each candidate had decided to carry their men at the expense of the other if such a thing were possible.
The effect of such a feeling upon the already panic-stricken workers in the Grand Trunk party can be imagined.
Stories have been going the rounds for some days that the combination was near a split, and that all jealousies resulting from the by-election of Mr. O'Brien's failure to secure the nomination then had caused remarks which were met by other remarks to the effect that Mr. McKewon might have been elected last winter if Mr. O'Brien's following had stood by him.
That knives were out after the by-election was no secret, and it is now clear enough that if they were sheathed at all it was only until a good opportunity arrived to even matters up. That opportunity is here. It might have passed unused but for the persistent reports from one side or the other, that certain followers were not to be depended upon and that in spite of fair promises they would swap votes with Stockton or Daniel men in an effort to save their own particular candidate at the expense of his running mate.
Party men who stand to gain some thing by the election of the Grand Trunk candidates have been busy for days trying to keep matters hushed up, feeling that once the stampepe started it would ruin the government's chances in St. John city and county beyond hope of repair even by the "wad."
All sorts of wild stories were afloat last night as a result of the conditions referred to, and statements questioning the good faith of many of the government campaign workers were freely discussed. In some words the report was, the O'Brien or McKewon men had prepared in advance statements to be read for election to explain away discrepancies between the vote received by Mr. O'Brien and that received by Mr. McKewon. It was town talk that while the leaders continued to exchange pledges, the split had started and was assuming great proportions.

Mr. Tarte's View.

Montreal, Nov. 1.—Some days ago the Toronto News made a forecast of the result of the coming election, in which Quebec was put down for 12 seats for the conservatives, Nova Scotia 11 for the liberals, and Ontario evenly divided. The part applying to Quebec was shown to Mr. Tarte and he was asked:
"Do you really think that the News has any ground to say that the opposition will take only 12 seats in this province?"
"Of course you know that those figures are absurd. I think that our liberal friends themselves grant fifteen seats to the opposition."
"Have you any objections to giving your own opinion?"
"I am publishing in La Patrie today an article in which I say that the opposition might take 20 seats and even a few more. I would not be surprised if 25 opponents of Sir Wilfrid Laurier's cabinet were elected in this province. Of course I do not say that it is a certainty. You know what an election is."
"Has the prime minister still a large influence in this province?"
"Undoubtedly he has, as he has in other parts of Canada. Without him the ministerial party would be smashed to pieces. I think that our liberal friends know it as well as I do. Sir Wilfrid Laurier is making a very active campaign."
"Then you believe that the opposition will capture at least 20 seats in Quebec?"
"I really believe they will."

Powell for Westmorland.

"Probably a conservative's opinion as to the outlook in Westmorland would be looked upon as frivolous by the liberal press, but from the present outlook I can assure you that Powell will make it hotter for Emmerman than he ever had it in his life," remarked a well known conservative from Westmorland to a Times reporter.
"Emmerman, during the past few days, has begun to recognize and realize the re-acton that has taken place throughout the county, and particularly in the city of Moncton, which Emmerman depends upon and has pointed out as his stronghold. The I. C. R. employees have the right franchise and they are not the class of men that will be bulldozed by Emmerman or his servant John T. Hawke. In the Transcript. In past elections, the latter proved himself most obnoxious by his attitude, in hanging around the I. C. R. polling booth. In the past, it is well known that intimidation has been practiced. But in the approaching contest a

Will Elect Fowler.

"Fowler is a sure winner," said an Albert Co. gentleman, to a Times reporter this morning. "There is not the shadow of a doubt but that White will meet with a most decisive defeat."
"I'll be frank with you in stating that I have always voted in support of the liberal government, but I can't conscientiously do so this time. This G. T. P. problem has set me, and many others thinking, and I don't see how I can support such a scheme. Fowler is very popular throughout the two counties, and in Albert particularly. White is comparatively unknown in my county and you watch how he will be snowed under."

Grits Cheer For Borden.

A liberal meeting was held last evening in the I.O.O.F. hall, M. H. Mooney presided, and the speakers were R. O'Brien, Geo. Robertson and Col. H. M. Leach.
Mr. O'Brien stated that the liberal government had been the friend of the city of St. John, while the conservatives had been its enemy.
Mr. Robertson dealt with the preference given to Great Britain. He also dealt with the G. T. P.
Col. McLean, while telling what Mr. Emmerman had promised concerning the new bridge, was asked to give the audience something new, and soon he branched off.
At the close of the meeting three cheers were called for O'Brien, but some parties before the finish called for three cheers for Borden, and the hall re-echoed with three hearty cheers for the conservative leader.

Borden at Sydney.

Sydney, N. S., Nov. 1.—The demonstration here last night in honor of R. L. Borden, was the greatest ever seen in Eastern Nova Scotia. The five thousand people who filled Rosslyn Kink where the meeting was held, rose en masse and cheered wildly for several minutes, when the leader of the opposition entered. Dr. W. J. Egan, of Sydney, was chairman, and over fifty representative people of Cape Breton, occupied seats on the platform.
The first speaker was Dr. Wm. McKay, conservative candidate for the South Riding of Cape Breton, who presented the issues of the campaign from a local standpoint.
The main interest centered in Mr. Borden who spoke for over two hours and made a decided impression. He closed amidst a thrilling and inspiring ovation. Tonight he speaks in Springhill.

Will Defeat Logan.

"Logan is not in it," said a Cumberland Co., independent liberal, who is visiting in the city, to a Times reporter.
"When I make this prediction watch it and if Logan is not defeated by 200 majority or over, I will buy you the best box of cigars I can find."
"Some people will think that this is mere talk. I voted for Logan in the last election. I am independent, politically, and have always been so, although I inclined a little to Logan in the last election because of personal friendship."
"The manner in which he has ignored his friends, the way in which he has disregarded his political pledges, his attitude on the G. T. P. scheme, all have combined against him, not only in the minds of his political opponents, but even among his friends."
"The general opinion throughout Cumberland is that Logan will be defeated and that Cumberland will declare its opposition to the G. T. P."

HIGH CLASS COMEDY.

Dramatic critics in Canada and the United States have had nothing but words of praise for the Mummy and the Humming Bird which will be seen at the Opera House on Friday evening and Saturday afternoon next. The Norwich Conn. Bulletin and Courier in the course of a lengthy criticism has this to say:
"Although local theatregoers did not see John Drew, Lionel Barrymore and other last season's stars in 'The Mummy and the Humming Bird,' they did witness at the Broadway theater Monday evening the same production, well staged and supported by an evenly balanced, capable band of players. The play is in four acts, the story is most original and does not drag."
W. A. Whitcar as Lord Lumley is constantly in the foreground and the part suits him. The work of Henry Carl Lewis as Giuseppe, the Italian organ grinder, valet and member of the vendetta, is especially noteworthy and made a hit. Ethel Brooke Ferguson as Lady Lumley and Frances Markham, playing the part of Mrs. Ruth Thornton, were well received in their respective roles, also that of Charles Kenyon as Senator D'Orelli."

THE RAW END OF BUSINESS.

The Essential Thing is to Master All the Details Thoroughly.

(New York Commercial.)
"The essential thing to success in any line of business is to master thoroughly the details of the business in which one is engaged. What is often called the 'financial end' of a business is of comparatively small importance. It takes very little gumption or experience to understand the importance of collecting or meeting bills as they fall due, and no person with an ounce of gray matter under his hat is going to sell goods to an individual, firm or corporation without first ascertaining the status of his or its credit."
The speaker was a merchant who lives in a thriving manufacturing town not three hundred miles from New York City, and he is just now on a visit to the metropolis for the purpose of replenishing stock.
"I have in mind," he continued, in reply to a query by a representative of the Commercial, "three young men in my town who embarked a few years ago in the rug manufacturing business. For a number of years each of them had been a superintendent or 'boss' in a big carpet-factory. They were frugal and industrious and in their respective departments were skilled men of the highest efficiency. One, if I remember correctly, was a designer of patterns, another was a color mixer and the other an expert judge of wools, cotton and similar primary materials. About the office end of a business, however, they knew practically nothing, except perhaps as to what wages a subordinate was capable of earning. I doubt if, at that time, they had been shown an ordinary ledger, they could have told which was the debit and which the credit side of an account."
"By dint of hard work and economy, these three young men had managed each to save a few hundred dollars, and something like twelve or fifteen years ago, they were offered the chance of being a small rug factory that had passed into the hands of the sheriff. It was a case of 'nothing risked, nothing gained,' and they resolved to undertake the risk. They bought in the property, gave up their former positions and set out in business for themselves. For a time it was uphill work for them. The plant was small, the firm had no standing in the rug trade, and all that it had to depend upon for its success was the merits of its products. To this end the young partners bent all their energies. Each was an expert in his special line of work, and the three together combined all of the qualifications essential to turning out products that would appeal to popular taste and fashion and at the same time that could be produced at the smallest cost. They not only studied closely the wants of the public in their line but they kept a watchful eye on the minutest details of manufacture."
"Presently the demand for their goods began to grow apace and it was not long before they had accumulated enough capital to double the capacity of their plant. With this enlargement of facilities came greater opportunities for meeting the requirements of the trade, and later on they again increased the productive capacity of their mills."
"Some four or five years ago this firm had established such a reputation for itself that one of the biggest carpet and rug houses in New York City found it to its profit to enter into co-partnership with the concern and today the little rug factory of a dozen or so years ago is one of the largest and most prosperous industries of its kind in the entire country, and the three partners who started the business are all of them rich men."

DOG CIRCUS MADE A HIT.

York Theatre Presents a High
Class Vaudeville Bill This
Week.

A bumper house greeted the vaudeville performers at the York Theatre, last night. The audience was very enthusiastic, and the performers were frequently encored.
Burden and Roban's singing and dancing act was entirely new to St. John theatre goers. Their work was excellent, and the audience showed their appreciation, by frequent applause.
George Kane is among the best German comedians in vaudeville. His songs were good, and he described his woes in a manner that delighted everyone.
Hey and Burke, the character changed artists, did some very clever work which was much appreciated. They are the best team of the kind that Mr. Hyde ever brought to St. John.
Turto, the comedy juggler, played at once. He performs in "Rube" costume and his work is excellent.
No better triple bar performers ever came to St. John than George and Harrington, and their work combined with their comedy was excellent.

WEST END NOTES.
