"The Head Line will have monthly sailings to Belfast and Dublin. The Furness Line, St. John to London have advertised a weekly service. There will also be a joint service of the Furness and Elder Dempster steamers monthly to South Africa."

"My opinion," is that the shipping business from the port of St. John this year will be as large if not larger than last year."

Schofield & Co.

Schofield & Co., expressed similar views as to the outlook for a satisfactory shipping business during the winter season. Mr. Schofield said that the reference in the article, above published, to Montreal and the United States Atlantic ports was practically correct. These ports had an unusually bad summer, probably the worst on record.

So far as the port of St. John was concerned, the C. P. R. have advertised to London and Antwerp a steamer every three weeks; to Liverpool every two weeks; and to Bristol every three weeks. The Donaldson Line are going to give a weekly service.

The arrangements of the lines for their sailings this winter are about the same as last winter. Of course the maintenance of these sailings will depend upon the quantity of cargo obtainable. Everything pointed to a successful season's business.

LA TOUR SCHOOL CLOSED BECAUSE OF DIPHTHERIA.

Board of Health Reports Considerable Number of Cases Mostly in West End School Shut Down For Disinfection.

Up to the present time twenty-one cases of infectious diseases, mostly diphtheria, have been reported to the board of health for the year, as against eighteen cases last year.

The disease is confined entirely to the western section of the city, there having been fourteen reported on this side the cases are scattered. Judge Trueman informed the Times to-day that he was not aware of any cases of diphtheria in the public schools, other than those already reported to the board of health; and that La Tour school is the only one that has been disinfected.

Regular precautions have been observed by the board of health. All

houses wherein is a case of the disease have been placarded, as in this way it will probably be kept in check.

The work of disinfecting La Tour school, in the west end, will have been finished tonight; and unless something unforeseen happens the students will resume their studies to-morrow morning.

It was found necessary to disinfect the school, as one of the children in attendance came from a home where-in was a case of diphtheria.

Other cases of diphtheria have been reported in the west end, in which the patients have either been pupils at La Tour school or connected with pupils.

ROLAND LOBB HOME AGAIN

After a Varied Experience in South and Central Africa.

On the Quebec express, yesterday morning, among the passengers was a young man, Roland Lobb, of St. David St., who has just returned from South Africa.

Mr. Lobb, who is well known throughout the city, left with the S. A. C. for South Africa in 1901, and has been there ever since.

After serving for two years and a half in his corps, he severed connection with it and since that time, has visited some of the principle places in Southern and Central Africa, residing for a considerable time in the world-known coal region in Rhodesia, his place of location being at Victoria Falls, Central Africa.

Mr. Lobb is a metal ceiling fitter. After his discharge he spent some time at Kimberley and Bulawayo, remaining but a short time in both places, proceeding to the coal district, where for twelve months he resided at Salisbury.

He did not like the country which he says "is no good and is about played out," and he is greatly pleased to be back in his old Canadian home. He left Bulawayo on Aug. 30 and sailed from Cape Town Sept. 6th, arriving at Southampton on Sept. 28th.

While in England he spent some days in London and sailed from Liverpool on Oct. 7, on the Tunisian, arriving at Quebec.

SARDINE BUYERS.

The American sardine buyers, which left this port on account of the price being put up to \$5 per hoghead, are getting large quantities of the fish at West Bay, Charlotte county, at \$2, the same price as was formerly paid here. This money might have been expended here, as the fish are yet very plentiful. The market at Eastport is gutted, hence the low price.
