### GENERAL NEWS.

Trip to South America—Going to Edinburgh—Remarkable Apple Growth—Wild Cattle—Bishop Worrell and President Hannah.

Kentville, Nov. 26.—A remarkable growth of apples occurred in the orchard of Dr. R. V. Jones, Wolfville, last season. An apple tree had been grafted in the spring with scions from a Northern Spy tree, and in the fall Dr. Jones picked over a peck of fine fruit from the grafts. The story sounds rather large, but its truth is vouched for.

Fred Forsythe, the well known and popular station agent at Port Williams, has been given leave of absence for the winter, and has gone for a trip to South America. Mr. Forsythe has been connected with the D. A. R. ever since the road was opened in 1869, and has spent thirty years in his present position. In appreciation of his efforts to oblige the public who have had occasion to ask his services, he was presented on the eve of his departure with a purse of \$130.

A number of the farmers of the county, who have had their cattle at pasture on the mountain during the past season, have in many instances found it difficult to secure them this fall. The wild nature of the creatures seems to have developed during the summer and they refuse to return to civilized habits. In some cases dogs have been used to capture them. It is said that a steer belonging to Frank McConnell of Wolford, being found near Morden, swam out into the Bay of Fundy before he was captured and brought to land by aid of boats and ropes.

The tank wagon of the Imperial Oil Co., went through the bridge at Auburn last week, and still lies in the place it fell. The oil has been oozing from its sides, though a portion of it has been saved. It is understood that a claim for damages will be made.

Mrs. Coleman and Miss Edith, with Miss Nora Webster of Kentville, leave on Monday for Edinburgh, where they will remain for the winter as guests of Dr. Webster.

Bishop Worrell has this week made a tour of Kings county. He arrived on Monday on the evening train, at Wolfville and held a short service in the church, after which a reception was held at the rectory. On Tuesday he was driven through Cornwallis, and visited parishes in Church street, Kingsport and Canning. On Wednesday evening he preached an excellent sermon in Kentville, after which a reception was held in the church.

President Hannah, of Kings college delivered a lecture on Japan in Kentville on Friday evening. The lecture was a most interesting one, and the speaker was listened to with much appreciation, as he gave a brief description of Japan as a country, the social customs, religious and court life of the plucky little brown men who occupy such a large position today in the minds of men. President Hannah is a pleasing speaker and made a good impression on his first appearance among the people of Kentville.

The marriage of Navini, daughter of Sydney Borden, Port Williams, to S. J. Farrell, M. D., of Rat Portage, Ont., is expected to take place at Port Williams on December 7th.

H. H. Wickwire, M. P. P., Kentville, was in Halifax on Tuesday and Wednesday of this week.

## TOOK A SEVERE COLD.

It Settled In The Kidneys. Pain In The Back The Result.

Catching cold and having it settle in the back is often the cause of Backache—the primary cause of kidney trouble. When the back aches it is a warning that the kidneys are liable to become affected.

Head the warning; check the Backache, and dispose of any chance of further trouble.

If you don't, serious complications are very apt to arise. Mrs. E. Williams, Hamilton, Ont., caught cold, and it settled in her kidneys. She used

DOAN'S KIDNEY PILLS, and is thankful for the immediate relief they gave her. She writes us as follows:

"It is with pleasure that I add my testimony in favor of Doan's Kidney Pills. Some time ago, I took a severe cold, which settled in my kidneys. The soreness and pain in the small of my back bothered me greatly. After suffering for some months, and finding numerous remedies fail, I procured a box of Doan's Kidney Pills, and received immediate relief from my sufferings.

Doan's Kidneys Pills may be procured at all dealers, or will be sent direct by mail on receipt of price—50 cents per box, or 3 for \$1.25.

## A BRIDGE PROJECT.

The C. P. R. Said to be Considering the Building of One Across the Harbor.

The Telegraph today says that it is possible and perhaps probable that the C. P. R. will build a bridge across the St. John harbor from a position near the Union depot to the company's new yard near Rodney wharf, Carleton. A two span bridge, resting on Navy Island, is projected. That is the story told and there is some confirmation in the fact that surveys have been made, but the C. P. R. local heads will not discuss the matter.

As to the causes which make the bridge a probability, rumor gives two. The first has its source in the story that the C. P. R. has found it expensive doing business over the Cantilever bridge, which is the property of the St. John Bridge & Railway Company and which corporation exacts toll upon all cars, and passengers taken over the bridge. As, except what goes from or comes to Sand Point, the C. P. R. business here is done over the Cantilever bridge, the toll bill in a year is large. The story goes that the bridge such as projected could be built and operated by the C. P. R. and money saved.

While it is said the Navy Island bridge would not give the company much advantage over the present route in the matter of distance still it would very materially reduce the working expenses as they are at present and also use such a bridge as they desire for all branches of their work can be erected if they decide definitely to build.

Superintendent Downie, when asked whether there was anything in the report declined to discuss the matter, although the Telegraph has learned that there is something moving along the lines indicated.

## BACK FROM OLD WORLD.

Rev. Canon Beaulands of Victoria, B. C. Returns From a Visit to England

The Rev. Canon Beaulands, of Victoria, B. C., accompanied by his son and three daughters, were in the city Saturday. They arrived on the Allan liner "Bavarian", from England, and left for their home in Victoria on the evening train.

Rev. Canon Beaulands is the rector of Christ church Cathedral in Victoria, (B. C.), and has been visiting friends in England for the past year. The reverend gentleman, in conversation with a "Times" reporter, said he had not been in England for 12 years, and consequently he had noticed many changes. He said there has been a depression in agriculture on account of the Boer war, but this is being gradually overcome. The farmers are waking up to the fact that there are new fields of labor open to them, and there has been a great development in the raising of small fruits and flowers.

Speaking of the voyage he said they had a delightful but uneventful passage. He enjoyed the run from Halifax to St. John immensely, and never saw finer weather in the Bay of Fundy.
