RAILROAD TRAINMEN.

Meeting in Moncton
to Adjust Some
Differences.

A KNOTTY QUESTION

Promotion and Other
Things Involved—Will
Meet Again—Interest-
ing Rumor from Shed-
iac—A Slight Accident.

Moncton, Nov. 29.—Deputations of I. C. R. men representing the Order of Railroad conductors and Brotherhood of Railroad trainmen met here last evening to discuss the difficulty on the Eastern Division of the I. C. R. between Truro and Pictou.

Some months ago there was an agitation among the railway men whose homes were along the Eastern division to have drivers and firemen from points along the main line in Nova Scotia and New Brunswick sent back to their former homes in order that promotion among the natives might be more rapid.

That agitation was partially successful. At a meeting of the Drivers and firemen and others interested, a compromise was effected whereby some of the drivers who had been sent from the main line to Stellarton, New Glasgow, Sydney and other points were sent back home.

No sooner was the agitation among the drivers and firemen settled than a similar one was made by the conductors and trainmen of the same division to have the Nova Scotia men from the main line transferred. An effort has been made to have the parties affected settle the matter among themselves, but this has been found impossible. Consequently the question has been referred to the Boards of adjustment representing the O. R. C. and B. Y. R. T. to settle.

The committee which met here last night was composed of the following:—Jas. Millican, St. John; W. J. Dickson, J. J. Daley, Halifax; J. R. Fisher, Truro; Rod. McDonald, Pictou; W. A. Mitchell, Lewis; W. Crockett, Moncton; of the O. R. C. and Arthur Bernier, St. Flavia; J. E. Rioux, Trois Pistoles; F. J. Denham, Halifax; John R. Demar, Stellarton; Arch. McDonald, Sydney; J. A. Bernier, Ste. Flavia; Andrew Crookshank, A. R. Fisher, Truro; Elias White, and N. H. Morton, Moncton of the B. of R. T.

The joint Board at their meeting was unable to reach an understanding, and it was decided to adjourn until next Tuesday, to meet again at Moncton. The question, it is feared, will involve considerable difficulty, before being finally settled. If the Eastern Division men carry their point many Truro conductors and trainmen will be affected and will be sent back while the Branch men will receive more rapid promotions.

It is reported there that a well known Shediac man has quietly stepped out leaving many confiding friends behind to mourn his departure.

The local minstrel troops which performed in the opera house a week or two ago, have decided to show at Amherst Friday night.

A slight accident occurred on the I. C. R. about two miles out of Moncton on the northern division last night. The engine on Sweeney's special broke down and was sent into Moncton light. The engine sent up to bring in the train ran into the cars and smashed up one car and blocked the line for two or three hours. The Maritime express was detained here about three hours on account of the accident.

A Sydney despatch says:—"It has just been discovered that the ballot boxes used at a polling booth at Grand Narrows, a district in the north riding of Cape Breton, where D. D. MacKenzie, Liberal, and John MacCormack, Conservative, were candidates, was an illegal one. The illegality arises in there not being a slot in which to deposit the ballots as required by law. To overcome the difficulty the lid which swung on small hinges had to be kept open, the returning officer slipping the ballots in through the opening."

HE TALKS
OF TIMBER.
C. T. Tyrer, English
Wood Broker, Has
Interesting Views.

C. T. Tyrer, of Smith and Tyrer, wood brokers, of Liverpool, England, is making his annual visit to Canada and is now at the Royal hotel. Talking of English matters, he said that spruce was at the lowest mark it had reached in England for twenty-five years. Latterly, the price has rallied five shillings to seven and six pence a standard, but a heavy round sent it down again.

As heavy stocks of wood are on hand on both sides of the Atlantic, the curtailed cut this year will not have much effect till August of next year. Canadian spruce is a cheaper wood than the continental variety but has some qualities which make it superior. It has superior toughness and larger grain, thus being less liable to rot, but making it harder to work. The softer wood comes from Russia and Bosnia.

Mr. Tyrer spoke of the protection movement in England and is strongly opposed to it. He thinks Canada has a great future before her, but sounded a warning note to the farmers. In their spruce forest he believes they have a mine of inexhaustible wealth if properly treated. He thinks no tree under six inches of the butt should be allowed by law to be cut.

A war with Russia would raise the prices of timber. Manchuria according to Col. Younghusband has fine forests and the first pretension of Russia rose from a timber concession granted by the Chinese to a Russian firm.

Provincial.

Two fine deer were shot last Friday by Leonard Floyd, at Central Norton. He and his brother, were out cruising a road but had guns along. Leonard heard the animals approaching and hid behind a bush. Out came a handsome doe and he killed it. Then two bucks came in view; one he shot, and the other got away.

A few days ago William Carvill, of William's Wharf, had two pigs stolen from him. The robber, it seems, approached the place at night, and took his plunder away in a boat. About the same time Ellsworth Belyea's store at Belyea's Point was entered and robbed. Suspicion pointed to an old man who lives in the vicinity, and his home was visited, and a quantity of groceries, corresponding with the goods stolen was found, also a couple of hogs—one salted away and the other in a fresh state. On the strength of these discoveries, it was thought advisable to put him in restraint. An investigation will probably be held today.

Another new temple will be organized in a few days among the business men of the city. The charter list is already open and it is expected organization will be effected with a good number of members.

An Asthmatic's Story Told.

Sleepless nights, suffocating sensations, difficult to even breathe. "I can scarcely describe all I suffered from asthma," writes Mrs. E. P. Cavannah of Colborne. "Spasms of coughing would come on that made me weak. Nothing did me any good until I used the fragrant, healing catarrhazone. I am delighted to recommend this remedy which cured me of chronic asthma after scores of good physicians had given me up. Catarrhazone is better for asthma, gives quicker relief than any remedy I know of. My cure is a perfect one." Try Catarrhazone, it never fails to cure asthma. Complete outfit \$1.00; trial size 25c.

NOT FOR BEST FARM

In this State

"I saw so much in the papers about the wonderful cures effected by Pyramid Pile Cure, I determined to give it a trial. I bought from my druggist one fifty cent box and used it as directed, and by the time I had used the last 'pyramid' I was entirely cured in four days after I began to use the 'pyramid' all inflammation was gone. I was perfectly easy all the time, the excessive discharge stopped at once, and stools became easy and gentle."

"I was unable to get my own firewood for four months, and half the time when I could walk at all I had to walk half bent. I used many pile remedies, salves and ointments, all to no effect until I used one fifty cent box of Pyramid Pile Cure and was cured."

"I would not be afflicted as I was four months ago for the best farm in the state of Arkansas. I can give proof and reference of the wonderful cure to all who are afflicted as I was. Please publish my letter that I may advise the afflicted." W. E. Wallis, Piggot, Ark., Box 26.

The experience of Mr. Wallis is that of thousands of others who suffer from hemorrhoids, or piles, and after trying everything they hear of, give up all hope of a cure and look for temporary relief only. To all such a little book published by Pyramid Drug Co., at Marshall, Mich., brings glad tidings, as it tells all about the cause and cure of piles, and is sent free for the asking.
