

TRINITY DOWN BEFORE CARLETON'S SUPERIOR TEAM

**Saturday's Football Match in the Intermediate League Was a Good One—
Jimmy Britt and Joe Gans to Battle
for Lightweight Honors Tonight.**

Carleton and Trinity played on the Shamrock grounds, on Saturday afternoon and the match resulted in a win for Carleton by 11 points to three.

Carleton won the toss, decided to defend the upper goal and play with the wind. Trinity kicked off, having only 14 men to start with, Titus leaving the forward line to fill the position of full back, for the first fifteen minutes. Carleton were the first to attack, and soon scored a try, from a scrum on their opponents 5-yard line but the place-kick was unsuccessful, although an easy one. From the drop-out from the twenty-five, Carleton again returned to the attack, and scored wide out, through Burpee, the place kick again proving unsuccessful. Carleton continued to do most of the pressing till half-time managing to add one more try to their score which was converted into a goal, thus leaving them at half-time with the substantial lead of 11 points. On the resumption of play, Trinity with wind in their favor and placing downhill, put up a much better game, and managed to get over their opponents' line once, the place-kick being unsuccessful. They had one or two excellent chances of scoring during this half, but owing to the weakness of their half-backs, missed golden opportunities, and when the whistle blew for no-side, Carleton were left winners by 1 goal two tries, 11 points, to Trinity's 1 try, 3 points.

Carleton were much the stronger side forward.

The Trinity quarters, were quicker and smarter than their opposing quarters, but playing behind beaten forwards and with a poor half back line had no chance to shine.

The Carleton half-backs, were far and away ahead of the Trinity quartette but were poorly fed by their quarters.

Of the full backs, Trinity's man tackled well, but he should learn to pick up the ball and kick and not take flying kicks. Carleton's full back had little to do, and in what little he had, seemed to be playing below his usual form.

A very noticeable feature, of all the games played on the Shamrock grounds this season, has been the extremely poor place-kicking of all the teams, chiefly through carelessness on the part of the players. If the player taking the place-kick, would make a good hole in the ground, with his heel sufficient for the place when he places the ball on the ground, to allow the ball, to remain in an upright position, the much desired extra two points could often be gained.

It would be as well, in the future, if the Captains, of the different teams, selected one or two men, as the regular place-kickers of their respective teams, and made them practice, this most important method of adding points to the score-sheet.

The results of Saturday's game leaves the championship of the Intermediate League in a most interesting position.

Fairville	4	0	3	5	3
The standing is as follows:					
Played	Won	Lost	Tied	Pts	
Carleton	5	3	0	2	24
Neptunes	4	3	0	1	21
Trinity	5	1	3	1	9
Fairville	4	0	3	1	3

Foot Ball.

Cambridge, Mass., Oct. 29.—The third surprise of the football season occurred at Soldiers' Field today, when the Harvard eleven was not only defeated and prevented from scoring, but was completely outplayed in every department of the game by the Pennsylvania football team. The final score was Pennsylvania, 11; Harvard, 0.

New York, Oct. 29.—Outclassed in every department of the game, Colunbias football eleven was defeated by Yale at American League Park this afternoon by the score of 34 to 0.

Chicago, Oct. 29.—A tied score, six to six was the result of the football struggle at Marshall Field to-day between the Uvy, of Illinois and the Chicago University. The game was played in the presence of 15,000 people. While the score was a tie, Chicago was of the defensive almost all the time and seemed to be barely able to prevent a defeat. Popular opinion held the result to be a victory for Illinois. Neither team was able to score during the first half.

Football Rules.

(Concluded)

Player Hurt.

If a player be hurt, the referee should not blow his whistle till the ball be dead, unless such hurt player is in a position that continuance of play might entail further danger.

While speaking of the referee, the Board would like to point out that once a referee has ordered a player off the ground, he cannot allow him again to take part in the game, and must report him and further, if a player with the ball touch the referee in his opponents' in-goal, a try shall be allowed at the spot where he so touched him.

Referee Touch-Judges.

A referee, once he has given a decision, cannot alter it, and his decision alone is final; he may, however, consult the touch-judges in case of touch and touch-in-goal play, and may ask them to assist him at kicks at goals. Under all circumstances, the referee's whistle must stop the game, even if blown inadvertently, and the referee's decision as to time must be final, even if he has kept it inaccurate.

On no account must a referee consult with any outsider, except in the case of a failure of his watch, when he should in the first instance consult the touch-judges.

Law 8.

The Board desire that referees should more strictly enforce these penalties, and would point out that a referee should award a free kick if he thinks a fair-catch, would have been made had not an off-side player, through his proximity and not retreating beyond the 5 yards' limit, have rendered such catch more difficult.

It is the opinion of this Board that referees too often give offending players the benefit of unintentional off-side, instead of inflicting the free kick penalty.

Laws 9 and 10.

In cases of tries and free-kicks, any player may place or kick the ball; in cases of fair-catches, the catcher only may place the ball, drop, or punt it.

In cases of players waiting to charge when a kick after a try, fair-catch, or free-kick is about to be taken, they must remain behind the goal line or behind the mark with both feet, and any standing over the goal line or over the mark with one foot shall be considered to have charged, and the referee shall blow his whistle and award no charge; the referee shall also be particular that any side waiting behind a mark do not gradually creep up beyond the mark, such shall be considered as a charge. When a player is placing the ball he shall not willfully do anything which may lead his opponents to think he has put the ball down when he has not; if he does, the charge shall not be disallowed. Even when a charge has been disallowed, the would-be charger may, provided they remain behind the mark, jump up and attempt to stop or touch the ball; if they so touch it, no goal can be scored.

If a referee whistles to allow a no-charge just as the kicker takes his kick, such kicker shall have the option of another kick—that is, if he has kicked a goal, he can allow it to stand; if he has not, he can take a second kick. After a charge has been disallowed, any player except the kicker may place or replace the ball, and he may alter the spot for the place kick. Sub-section (1) Lifting of food in a scrum has been deleted.

New subsection (1) has been added, which gives a free kick penalty for willfully holding an opponent who has not got the ball.

New sub-section (g) and (i) have also been added giving penalties of free kicks for (g) willfully hacking or tripping up (although a penalty of a free kick is now given, the referee should still caution a player, or even order him off the ground, if such hacking or tripping up constituted rough play), and (i) shouting on-side when he has not yet placed his side on-side—a most unfair practice.

In the Board's circular of 1897 it

was pointed out in relation to sub-section (k) (then lettered j) that "this prohibits the habit of three-quarters and half-backs standing in front of the ball, so as to mark the opposing backs, and should be strictly enforced." The Board, whilst now wishing to emphasize this, would also point out that it is not intended thereby to penalize a half-back who unintentionally over-runs the ball in a scrum.

The wording of the last paragraph has been altered so as to give the opposite side the right to bring the ball out, if not originally thrown out straight.

If the ball has not been fairly bounded into play, or not bounded or thrown at the right place, the referee shall order that the same side shall bound or throw in at the proper place.

A player may be in touch and yet play the ball, if the ball be not in touch.

A ball kicked over the touch line and blown back shall be considered as in touch.

A ball from a kick-off having reached 10 yards and then be blown back shall be considered as in play, as also a ball having reached the 25 yards line from a drop out. Also a goal is scored if the ball has crossed the bar, although it may be blown back afterwards.

Heeling back over own goal-line shall be considered as willfully kicking back. If, when a ball is passed back, the would-be receiver fumbles it so that it goes over his own goal-line, the referee shall decide whether such fumble were intentional or not, and decide accordingly. A kicker and a player must be distinct persons, and the kicker may not under any circumstances touch the place ball when on the ground, even though the charge has been disallowed.

In case of any dispute relative to a try, where it is possible an appeal may be made to this Board. Referees are recommended to allow a kick at goal, so that if this Board afterwards allows the try, the goal points may be added if the kick was successful.

Big Fight Tonight.

Out in San Francisco tonight two of the greatest fighters of their class will meet for the lightweight championship. They are Jimmy Britt of California and Joe Gans of Baltimore, the acknowledged lightweight champion.

To those who have studied the form charts of the fighters there seems to be little to choose between the two men and the fight looks like an even-money bet.

In his preparatory work on the coast with his sparring partner, Frank Rafael, Britt has shown amazing speed. From the camp of Gans comes the same advice; that the negro is faster than at any time of his pugilistic career.

It would be hard to find a man who is more clever with his fists than Gans. He has mastered every feature of the fighting game. He can punch hard and protect himself from punishment and is as fast if not faster than any man of his class today. There is only one fault to be found in the makeup of Gans, and that one fault may be his undoing. It blows come his way too fast he is apt to lose courage and quit hard fighting. If he does that in his battle with Britt he will get the losing end of the purse.

For those who know Jimmy Britt—there is not a gamier boy in the ring than the self same Jimmy. He has the same skill at his command as has Gans. His punch is perhaps a little more powerful than that of the negro, but it has been an open question as to which of the two masters is the fastest.

Young Corbett in 'Frisco.

Young Corbett, who is matched to fight Battling Nelson at San Francisco next month, has arrived in that city. The Denver man is looking well. The first thing he did after reaching the Pacific coast was to ask a change of date of the mill with Nelson from Oct. 29 to Nov. 30. The request was granted and Corbett will have five weeks of solid work in order to get into excellent trim.

Corbett denied that he said that the mill between Jimmy Britt and Joe Gans at San Francisco next Monday night would be a fake. "I look for it to be a grand battle," said Corbett, "and I would not care to pick a winner. On form, Gans ought to win, but form in fighting, as well as in racing, does not always count." Corbett is located at Sheehan's Tavern, just outside of San Francisco, and will do his work there for the combat.

Dan Patch's Mile.

The mile by Dan Patch in 1.56 at Memphis astounded the spectators. Two months ago he was at the point of death. Wednesday he travelled faster than any harness horse ever went. It is true that he was paced by a runner in front with a dust shield, but even at that the performance was a great one.

Shortly before sunset Savage's pacer came out for his trial against time. He was down on the programme only to beat 2.004, his best time, this year.

Three pacemakers were used in the performance. One runner, driven by Scott Hudson, went in front all the way, and on Hudson's sulky was a dust shield. The shield was made of a light piece of canvas, and it extended from wheel to wheel and from the seat of the sulky down nearly to the ground.

Driver Hersey, who handled the pacer in his record breaking mile, was weighed in after the trial and tipped the scales at more than the required 150 pounds. In speaking of the work of the horse, which had been under his care this summer, he said: "I believe that he could have done even better. I put it up to Scott Hudson, who was handling the pacer, and he used his own judgment."

M. W. Savage, the owner of the horse, said: "I do not believe any one could realize what a great exhibition this was unless he had seen

Dan Patch when he was at the point of death only a few weeks ago. A man could not carry the money to buy that horse to-day. He is the greatest animal that ever lived, and he can do better later on. He almost ran over the pacemaker two or three times during the mile." Dan Patch and Lou Dillon will go against their record again at Memphis next week.

Golf.

In the best match ever played on the links of the New Haven Country Club, Miss Pauline Mackay of the Oakley Club, Boston, last Friday morning defeated Miss Georgianna Bishop of Bridgeport, the national champion, by 1 up, 19 holes.

Motor Boat Race.

New York, Oct. 29.—The longest race ever run by motor boats in American waters was finished tonight when Frank Croker's X. P. D. N. C. crossed the finish line opposite the Columbia Yacht Club's house on the Hudson River at 86th street, having covered 136.4 statute miles in five hours, 11 minutes and 5 seconds. The course was from the club house here around a stake boat at Poughkeepsie and return.

The Oar.

Charlie Towns had a tough job to win the Uimarra handicap, says "Rex" of the Sydney Referee. Mitchell, who pressed him hard all the way, is a good bit of stuff, and showed even better at Grafton. The day before the Grafton regatta Geo. Towns, Charlie Towns, J. Andreoli, and two others rowed from Uimarra to Grafton, nine miles, against the tide, in about an hour.

J. Searle, who is matched to row Day on November 8, is 6 feet 2 inches, and weighs 172 pounds. He is a brother of the late champion, Harry.

Day is using the boat in which Dick Tresidder rowed against Towns. He is 5 feet 9 inches, and 11 stone 8 pounds stripped.

LOVING CUP FOR LIPTON.

London, Oct. 20.—A delegation representing the crew of the United States cruiser Olympia this afternoon presented Sir Thomas Lipton with a loving cup subscribed for by the entire crew.

La Grippe Coming Again.

The doctors believe another epidemic of Grippe is here, and already many are suffering. The medical men are not afraid of Grippe since Catarrhazone was introduced, and claim that no one will ever catch this disease who inhales the fragrant healing vapor of Catarrhazone a few times daily. Catarrhazone kills the Grippe germ and prevents it spreading through the system. "Last winter I had an attack of La Grippe," writes C. P. Mackinnon of St. John's. "I bought Catarrhazone and got relief in short time. I found Catarrhazone better than anything else and was cured by using it." Catarrhazone prevents and cures Grippe, colds and catarrh. Two month's treatment \$1.00; trial size 25c.
