NEPTUNES AND MOHAWKS WERE DOWNED LAST NIGHT.

Sackville Apparently Clinched First Place by Effectively Trimming the Mohawks--Neptune-Moncton Game a Close Contest--St. Andrews and Thistle Curlers.

HOCKEY.

Last Night's Games.

The people of this city who are interested in hockey turned out in force last night, and the Queen's rink was crowded with about 1,200 spectators. The St. John teams, however, went down before the teams from the "Smoky" and "College" towns. In the first game the Neptunes lost to Moncton by the same score as on Saturday last, viz 2 to 1.

The Neptunes excited their opponents in combination and only weakness in shooting prevented them from tallying more often. Failure on the part of their defence to clear away quickly and effectively was also responsible for one at least of the goals scored against them. Crockett, whose reinstatement came in time to allow him to play in this match, was the star among the Moncton forwards, though "Short" Trites and Emmerson gave him good support. Wortman in goal again played a splendid game, and Moncton's body of rooters had many opportunities to cheer him for his stops.

On the Neptunes' side Townsend easily shone above all. Whether rushing, checking or in a combination, he could be counted upon to use good judgment, and his dashes were the features of the game. Brown as centre was out of his position, but played an effective game and knew how to use his body. McNeil figured in several rushes, but shot as a rule too far from the Moncton goal. However, he bagged Neptunes' single tally, and did it neatly. Barnaby played for the first time this season in senior hockey and bids well to hold his place if he wishes it. He seemed a little too considerate of his opponent early in the game, but soon settled down to fast work. Only quick work on his part prevented Crockett from scoring for Moncton in the second half.

Neptune 1, Moncton 2.

The line up was as follows:
Neptunes. Goal. Moncton.
Crockett Wortman
Coombs G. Trites
Howes Cover.
Brown (Capt.) Way
McNeil Crockett
Barnaby Trites
Townsend Emmerson
Timers, A. E. Holstead and H. B. Clark.

The game started with a rush by Moncton; the Neptunes took the puck to Moncton's end, and after considerable individual work, Crockett secured the rubber and made a fine dash down the ice and scored in three minutes. The Neptunes forced play, kept the Moncton defence busy. A diversion was caused by Crockett's skate becoming loose and a delay of five minutes ensued. Play

IS YOUR CATARRH REMEDY CURING YOU

If You Are Unconsciously Using An Alcoholic Liquid Remedy Stop At Once.

People soon learn that the true test of a catarrh remedy is whether it cures to stay cured. Have you ever inquired why a liquid catarrh remedy makes you feel better for a time? It is because the alcohol in the liquid remedy makes the mucous membranes drunk. It deprives them of sensation, it inspires false hopes and always leads to alcoholic excess. A permanent cure by any liquid dyspepsia or catarrh remedy is simply impossible. The alcohol used in liquid preparations makes it almost a travesty to call them remedies. They induce the worst forms of catarrhal trouble rather than cure such troubles. Can a physician be found who will truthfully say that any liquid catarrh remedy is worthy of use? Every physician knows that it is an absurdity for anyone to claim that catarrh, dyspepsia or any form of blood disease can be cured by a so-called liquid catarrh cure. In this connection it is wise to consider carefully the best means for relief. Smith's Triple Cure, that grand old remedy, consisting of four separate preparations, three of which are in tablet form, and used internally and another in the form of a cathartic cream, contains no alcohol and never leads to false hopes. It makes you feel better the first day, and each day following is but a repetition of the first day's experience. It restores the mucous membranes in every part of the body. It positively cures catarrh, dyspepsia and all blood diseases. If you have long been a slave to a liquid catarrh remedy, break away from the habit. Use Smith's Triple Cure, and health, abundant, full and complete, will be yours. Four separate preparations, lasting a full two weeks for 60 cents, the greatest value for the money ever offered. If your druggist won't supply you, send us 25 two-cent stamps by mail today and we will send it postpaid and guarantee safe delivery. Address W. F. Smith Co., 135 St. James St., Montreal.

Was Not Able To Walk For Three Months.

Was Given Up to Die. The Doctor Said So.

Burdock Blood Bitters Saved Her Life.

Read what Mrs. Wm. Castillous, Newport, Quebec, has to say about Burdock Blood Bitters: "Last December I fell very sick after confinement, I was not able to walk for three months, and was given up to die by the doctor. My husband read of the many wonderful cures made by Burdock Blood Bitters, so procured me two bottles. After using it for about ten days, I was able to get around, and could mind my baby without help from anyone, and am now well, and able to do my own work. I told a lady friend of mine who was troubled in the same way, and she used it with equal success. I cannot too highly recommend your medicine, for I know just how good it is, and hope and wish that anyone suffering as I did will give it a trial."

Second Half.

Townsend rushed but could not connect with McNeil; Crockett went down the ice, but Carlisle was there and delivered the goods. Wortman was again called upon to stop a hot one from McNeil, who had worked past Moncton's defence. Way took to the press bench for a minute, owing to a little scarp he indulged in the corner; and while he was off, Neptunes kept Moncton busy. McNeil soon trotted over to the side for 60 seconds rest on account of slashing, and Howes' tripping was detected by the referee, and he also grazed the fence.

Mohawks 1, Sackville 9.

The first game was fast, but it was not to be compared with the second. This was the hardest, swiftest and in some senses the roughest hockey seen in St. John for some time. The speed and vim which the players put into their work could not help but make it rough, though no intentional work of that kind was done on either side.

There is no denying the fact that the Mohawks were beaten; the score shows that, but it does not show the game fight they made, nor does it represent a fair comparison of the playing. The Mohawks went on the ice with an almost entirely new line-up, and their work promises better things in the future. They played a game that might have given them the victory over any other team in the league but Sackville. They defended well, they rushed singly and in combination; but they were weak in shooting. And most of the story lies in that fact. If they were right on the goal they could not seem to bang the rubber in. Sackville, on the other hand, scored several from long wing or centre shots. These went not on account of poor stopping by Tufts or E. Inches, but because of the speed and accuracy behind the puck, and the quickness with which the Sackville men rained in their shots.

Sturdee and Murray showed up the best for the Mohawks, and "Tip" O'Neill's good work evoked lots of applause. The two Inches were hard men to get past, and they used good judgment in returning. Tufts had many stops to his credit, and they were of the hair-raising variety.

There is no disputing the fact that Sackville has a mighty swift septette. They are always on the puck, and have not a weak spot on the team.

Norman is an ideal rover, and is the star on the team, if there is any. Laidlaw, looks too slow for the fast work of a cover, but his general defence work stamps him as the best cover point seen here this year.

J. M. Robinson blew the whistle for this game, and the teams faced each other as follows: Sackville. Goal. Hill Point.

TuftsHill Point.	Rainie
E. A. Inches.....	

they carried the puck down the ice, only to fall miserably when it came to shooting. More attention should be paid to practicing in this development. As a number of people remarked, "their poor shooting practically lost them the game."

N. S. League.

CURLING.

Magee Cup Second Round.

At the Carleton Rink last night, the second round of the Magee Cup match was commenced. The following rinks played--

Chas. Ruddock, C. F. Brown,	F. K. Morrison, J. Christopher,
J. M. Belyea, J. R. C. Wilson	A. R. Clark, John Donohue,
Skip.....19	Skip.....4
W. H. Arnold, Fred Belyea,	Geo. Baillie, W. S. Jewett,
Chas. Coster, E. R. Taylor	J. M. Wilson, Dr. Ellis
Skip.....19	Skip.....4

Jones Cup Game.

At the St. Andrew's rink last night the second round of the Jones Cup match was continued by skips A. Watson and J. W. Thomas. A great fight was put up by both men, resulting in a victory for Thomas. The following composed the rinks, with score.

Win. Downie, Geo. McAvity,	H. B. Johnson, B. M. Caldwell,	
W. E. O. Jones, F. Jones,	E. A. Schofield, C. M. Troop,	
A. Watson, J. W. Thomas,	Skip.....9	Skip.....12

Tea Shots.

Four rinks leave for Halifax tonight. This afternoon at each rink will be continued with a like number of rinks. The Thistle club won one game.

THE RING.

Young Kenny Won.

Haverhill Mass., Jan. 20--After a warmly contested bout lasting 15 rounds "Young" Kenney of Lawrence was awarded the decision over Jimmy Burke, also of Lawrence, before the Haverhill Athletic Club tonight. This is the fourth contest between these boxers, two being draws, and the other won by Burke.

Points in Boxing.

Britt did not beat Nelson by the Margin of points, says a Philadelphia critic. His analysis, given below, is interesting. "What are points in boxing? Referee Roche's decision in the recent Britt-Nelson contest, in which he awarded the verdict to the Californian on "points," has aroused the question. Those who have made a study of the sport unhesitatingly allow a full point for the man who does the leading and lands the blow and a half point to his opponent if the latter is clever enough to counter and reach the intended mark. This disparity of credit to the man who counters is explained by the fact that the man in boxing who leads takes all the chances. He usually throws his vulnerable spots open to an opponent, and does so to force the contest.

"Why should he not be given double credit? And why should the man who is wary to set the pace be penalized for his temerity? Americans like plenty of action. That is the reason the Marquis of Queensberry rules were so quickly adopted in this country. They put a premium on speed and generalship, and contests thus fought suit the tastes of the average ring followers.

Parrying and blocking vicious leads side-stepping, ducking and slipping are all legitimate, evasive tactics, and should be given credit for in the final summary of points gained by

contestants in the ring. The man, however, who "tin cans," to use the ring vernacular, should be condemned and punished when a referee is fitting his mind's gauge for a winner or loser. It is neither a legitimate nor plucky way of avoiding an opponent--under the Marquis of Queensberry rules at least.

"It did very well and was counter-acted under the old London prize ring rules; when tricky and dishonest motives and acts were always applauded. The ring has been elevated since those days and the devotees of the sport have not time or use for the "tin can boxer." Had

Referee Roche kept a memorandum of the winner at the end of each round, he would have had no difficulty in declaring the bout a draw.

Nelson forced the contest in the greater number of rounds, his blocking equalled that of Britt, he lost in comparison on left hand work with the Californian, and he was not half as good a runner. These conclusions are reached not by the contradictory telegraphic reports of the contest, but by mail advices from men high in club life in Frisco, who were at the ringside and who know a righthand cross-counter from a left-arm uppercut.

Scientists and physicians are appalled at the enormous increase in deaths from this source, and the people are becoming aroused to the danger of allowing the system to become run down and neglecting to cure colds.

By the timely use of Dr. Chase's Syrup of Linseed and Turpentine coughs and colds are readily cured and danger from more serious developments entirely avoided.

Most people know about the exceptional merits of Dr. Chase's Syrup of Linseed and Turpentine as a cure for croup, bronchitis, whooping cough and asthma, but there is a tendency to neglect a cold or cough until it is beyond control.

The whole trouble with the Mohawks last night was that they could not shoot. Time after time

ST. JOHN'S OLDEST CURLING CLUB.

The Braw Lads of St. Andrew's Have Been Organized Nearly Half a Century --- Their History, Practically the History of the Game in This City.

(Continued.) 1894-1895.

At the annual meeting held on November 12th the officers were elected as follows:-- A. O. Skinner, pres., G. A. Kimball, vice pres., C. H. Ferguson, sec. treas., Rev. L. G. Macneil, chaplain.

The club points medal was won by John White, and the Milligan medal was won by A. O. Skinner. In the Jones cup competition skip A. O. Skinner carried off the cup for the year.

The married men defeated the single men and skip Gregory won the cup. In the Jones medal match, a new competition, skip W. A. Stewart's rink were winners and each man of the team--A. Watson, C. H. Ferguson, G. S. McLeod and the skip became the possessors of a watch charm in the shape of a curling stone. These handsome trophies having been donated by the president.

In the contests with foreign clubs, they were defeated twice by the Thistles and won once. In a match with Fredericton, they downed the "Celestials" by one point 58 to 57, and in the return at the capital the score was a tie 66 to 66. Stephen was beaten by a score of 72 to 60, but in the return match the border town the tables were turned by 50 to 83.

With the Hampton's there was the same result, a game each. The Truro club defeated them by a score of 75 to 55. In the play between St. Andrews and Thistles in the Bouspiel competition Feb. 2nd the Thistles won by 17 points.

1895-1896.

The club medal this year was won by F. S. White, he also won the Milligan medal at points. In the Jones cup competition, skip F. P. C. Gregory's rink won the cup for the year. In the married vs. single contest, the latter were victorious by a score of 59 to 49, and in playing off for the Ferguson medal, skip Harrison's rink won it, and it was captured by the skip at points, for the season. A medal donated by J. R. Ferguson, (to be played for by new-comers), was won by F. W. Daniels rink.

In the Skinner-Kimball series, also a new competition, much interest was manifested by the members, this match taking the place of the rink medal match. Skip A. Watson's rink won, and each member of the rink became the owner of a handsome trophy in the shape of a gold curling stone. These were donated by the president A. O. Skinner, and the vice-president, G. A. Kimball.

In the series of three games with the Thistles they were defeated in every one by a total of 99 points. In two games with Fredericton they were beaten both times, and in the games with Hampton each took one. Only one game was played with St. Stephen and the result was another defeat for St. Andrew's. It was in this year that the famous Willis

703-1898.

In this year the club points medal, the Milligan medal and the Ferguson medal, (new-comers match), were not competed for. The Jones' cup was won by F. L. Harrison's rink. In married vs. single contest, the bachelors were downed by 3 points, score 62 to 50. In the play off skip J. M. Magee's rink won the Ferguson medal. Skip A. Watson's rink were the winners of the Forbes' medal. In the "13 points knockout", a new game, for which a medal was donated by J. M. Magee, Mr. A. H. Baillie won the prize, he having won every game played.

In the foreign matches, the Thistles downed the St. Andrew's in the two games played, winning by 87 points. The St. Stephen team won the game played there by 7 points. With the Fredericton club, St. Andrew's were victors by 14 points. The Hampton's were defeated 55 to 51.

In two games with the Carleton players the St. Andrew's were again victorious. The most exciting match of the season was with the Truro curlers, they being defeated by 4 points. Four rinks went up to Moncton in February but owing to poor ice the match was not finished. A resume of the season's play, shows that out of 8 foreign games, 5 were victories and 3 defeats. The officers elected were; A. Watson, pres. J. U. Thomas, vice pres., C. H. Ferguson, sec. treas., Rev. P. Owen-Jones, chaplain.

(Continued next Saturday.)

ARCH ENEMY OF MANKIND.

Who it is and How to Escape His Clutches. Save Yourself Today.

The arch enemy of human life is not Satan, but Pneumonia. Consumption may number its thousands; and, besides, it's much quicker in doing its deadly work. A person may catch cold, get Pneumonia and die in two or three days.

The only safeguard is Stuart's Catarrh Tablets. They will, if taken in time, prevent Pneumonia from developing. But, of course, if you wait too late, from a really bad attack nothing can save you. That's why we lay so much stress on the fact that a common cold is such a dangerous thing to neglect. You never know what may come of it.

And nowadays, when we have at hand, in Stuart's Catarrh Tablets, such a safe, certain and perfect cure for a cold, there is no excuse whatever for letting it run along.

Stuart's Catarrh Tablets act directly upon the mucous membranes of the body, the inflammation of which is generally called "Catarrh", which inflammation is nearly always caused, in the first place, by a cold.

As soon as you begin to sneeze, and your eyes and nose begin to run, for relief to Stuart's Catarrh Tablets. They will not fail you.

Cases of chronic, long-standing catarrh trouble, accompanied by discharge from nose and throat, coughing, hawking, spitting, offensive breath, indigestion, irritation of the stomach or bowels, are also easily cured by Stuart's Catarrh Tablets.

In cases of long standing, however a cure cannot be expected in a day, as it will take some time to build up the weakened, inflamed and flabby membranes to their original tonic state of health.

It will take time, but perseverance will win the day if assisted by Stuart's Catarrh Tablets. It is important, however, to remember to use Stuart's.

No others are genuine. No other tablets, or any other medicine, will give you the real, positive, permanently curative results that Stuart's will. Try them.

All druggists sell them at 50 cents a box.

THE TIME OF A HEN.

New York Tribune. "You've all heard my story of the drummer who was trying to sell a farmer an incubator," said Burgess Johnson, the humorist, at an uptown club the other night.

"I never heard it," declared one of the group about him.

"Nor I," piped up another.

"Well, I'll tell the story and then the experience I had telling it to a country audience in a little Connecticut town not long ago.

"An energetic incubator drummer had talked for ten full minutes with an old farmer, trying to persuade him to purchase.

"Just think of the time it'll save," said the drummer.

"How do you calculate that?" demanded the farmer.

"Why, your hens won't lose any time hatching eggs," the drummer continued. "The incubator will do the work, and they can go on laying eggs."

"That reminds me," began the farmer, "of what I said to the folks about here when they asked me why I let my wife waste her time with club meetings, and suffragist doings when she might be at home working."

"What did you say?" asked the drummer.

"Do I give a darn for the time of a hen?" That what I said.

"I told this story in this little Connecticut town, though I had been warned that there was a prominent woman suffragist in the audience. I noticed that one woman did not laugh at all and that a man nearly pulled off his chair. I had no trouble placing the woman, she was the suffragist. 'But who was the man?'" I asked my friend.

"Oh, he's the woman's husband," was the answer.

One-third the Deaths Due to Pneumonia.

La Grippe and Kindred Diseases of the Respiratory Organs--Alarming Report of the New York Board of Health--Dreadful Results of Neglected Colds.

The Report of the New York Board of Health for the first six months of 1904 places the number of deaths from pneumonia and other respiratory diseases, such as la grippe and severe chest colds, at 14,091, or one-third the total number of deaths during that time.

Scientists and physicians are appalled at the enormous increase in deaths from this source, and the people are becoming aroused to the danger of allowing the system to become run down and neglecting to cure colds.

By the timely use of Dr. Chase's Syrup of Linseed and Turpentine coughs and colds are readily cured and danger from more serious developments entirely avoided.

Most people know about the exceptional merits of Dr. Chase's Syrup of Linseed and Turpentine as a cure for croup, bronchitis, whooping cough and asthma, but there is a tendency to neglect a cold or cough until it is beyond control.

CURES

Croup. Whooping Cough. Severe Chest Colds. Bronchitis. Asthma. Pneumonia. La Grippe. Throat Irritation. Tickling in the Throat. Soreness and Dryness in the Throat. Irritation and Inflammation of the Bronchial Tubes and Lungs.

Another danger is found in allowing the vitality to run low, for pneumonia is almost invariably caused by taking cold when the system is in a run down condition.

As a means of building up the system to prevent disease, and as a convalescent food to restore strength to the body after such wasting diseases as pneumonia and la grippe, there is no treatment comparable to Dr. Chase's Nerve Food.

With Dr. Chase's Nerve Food to enrich the blood and increase the vitality of the system, and Dr. Chase's Syrup of Linseed and Turpentine to loosen the cough, allay the inflammation and heal and soothe the ulcerated linings of the throat and bronchial tubes, you have the strongest combined treatment known to the medical profession.

In the great majority of homes Dr. Chase's Syrup of Linseed and Turpentine is kept constantly at hand as a cure for coughs and colds, and preventive of such serious diseases as pneumonia and consumption.

Dr. Chases Syrup of Linseed and Turpentine

15 cents a bottle; family size, three times as much, 60 cents, at all dealers, or Edmanson, Bates & Co., Toronto. To protect you against imitations the portrait and signature of Dr. A. W. Chase, the famous receipt-book author, are on every box.
