## THE INDUS IS HARD ASHORE.

### Sugar Laden Tramp Steamer Struck Fire Island Bar in Dense Fog.

New York, Jan. 12.—While feeling her way through the dense fog early today in an effort to reach this port, the sugar laden steamer Indus from West Indian ports struck Fire Island Bar and is now stuck hard and fast. Just how serious is her position has not been determined, although the Fire Island life savers reported after a visit to the stranded vessel that she was in no immediate danger. She was lying in an easy position and the sea was smooth. There was a dense fog hanging over the ocean and the wind showed a tendency to increase in force. A strong wind and high sea would make the situation extremely serious the life savers said.

The Indus had no passengers. She is a tramp steamer, owned by James Nourse, Ltd., of London. On this trip she was bound from Havana for New York with a cargo of sugar. A wrecking tug was started for the scene by the Merritt and Chapman wrecking company soon after the news of the Indus predicament reached this city. She was expected to reach Fire Island about noon.

## THERE CAN BE NO PEACE NOW.

### Baron Kaneko Gives Expression to Pronounced Views—Kuropatkin's Vain Boast—Russian Cruiser Badly Damaged—Shelves Arbitration Treaty.

New York, Jan. 12.—Baron Kaneko, returned yesterday to this city from Washington. In an interview he stated that he does not look for peace, says the Tribune. "Surely no proposal would come from us and the Russians declared some time ago, that they would dictate the terms," he said "when after the Chinese-Japanese war, we took possession of Port Arthur it was said that Japan must evacuate Manchuria to preserve the peace of Asia. We did so because we were anxious to preserve the peace of Asia. But now it has become necessary to again occupy Port Arthur for the same reason that caused us to leave it.

"The capture of Port Arthur was a great achievement for my country and the civilized world generally benefits by it. Time without number, the Russians have at Port Arthur disregarded the sign of the Red Cross which in all civilized countries has always been regarded with sacred reverence. They have persistently fired on Red Cross burying parties and have retarded whenever possible the proper care of the wounded. This matter will probably be brought before the Geneva Red Cross Convention, when the war is ended.

"I recall now, a remark made by Gen. Kuropatkin on the occasion of his visit to Tokio a year ago. Last May. He had been most hospitably received, and feted. Every possible attention was shown him. Just before he was presented to one of the heroes of the war with China, you will pardon me if I refuse to give his name. "Well," said Gen. Kuropatkin, "you captured Port Arthur at that time but you could not do so again, for we have fortified it too strongly."

The Japanese who were more polite than the Russian officer made no reply. What a satisfaction it must have been for our hero when, despite the boast, the Japanese took what Kuropatkin thought was an impossible fortification. "We are now absolute masters of the sea in the East, Port Arthur, Vladivostok, Dalny and New Chwang are all shut to Russia and the only means left for her forces to obtain supplies is by land by way of the trans-Siberian railroad. But the facilities which this road offers are far too inadequate to supply properly 100,000 soldiers with food and clothing. Because of the terribly severe cold weather at present, prevailing in Manchuria it is not possible to carry on the land hostilities. They will probably be resumed in March, with the exception perhaps of slight skirmishes. The cold is so intense that the soldiers are compelled to wear thick gloves which prevent them from handling their guns as they would otherwise. They take shelter in roofed trenches. The Japanese line extends over twenty miles front with Marshal Oyama in the centre, General Oku on the left and General Kuropatkin on the right. Marshal Oyama is on the Shakhe river in the north and when the fighting resumes, the Russians will try to prevent his advance to Mukden where the decisive battle might be fought. It seems to me that the moral effect of the victory of the Japanese forces at Port Arthur will be a great factor in the future land operations. It will tend to inspire the Japanese to a greater effort, while on the other hand the news of their defeat will probably greatly discourage the Russians."

## More Submarines.

Libau, Jan. 11.—Four Lake submarine boats have arrived here from the United States. They will be sent to Vladivostok by rail.

## Skyrdloff Speaks.

Vladivostok, Jan. 9. (Delayed in transmission)—Admiral Skyrdloff and his staff left today for St. Petersburg. The Admiral was given an enthusiastic send-off by the garrison, sailors and officers of the municipality. Addressing his men, Admiral Skyrdloff said there were likely to be important developments soon in the region of Vladivostok and he hoped that in case the town should be called upon to stand a siege, the garrison would emulate the devotion and heroism of Port Arthur. The men responded with cheers.

## A Remarkable Speech.

London, Jan. 12.—The Daily Mail's correspondent at Tokio gives a report of a remarkable speech made by the Russian Colonel Heliakoff at Inasa. The Colonel declared that such a welcome as he and his fellow prisoners of war had received from the enemy was entirely unexpected. He felt as if he had returned to his own country. He said he trusted hostilities would soon cease and would be followed by the former amicable relations. In that case, he said, their present fate would be more useful to

## Russian Cruiser Damaged.

Berlin, Jan. 12.—The Lokal Anzeiger's St. Petersburg correspondent says that the Russian cruiser Izumrud is returning to Port Said on the way to Cwonstadt in a badly damaged condition. "The cruiser Izumrud which is one of the vessels of Admiral Botrovsky's contingent of the Russian second Pacific squadron, with the other ships of the fleet, was, according to a dispatch from Suez tonight, expected to reach that place at three o'clock Thursday morning. This is the first intimation that any vessel belonging to Admiral Botrovsky's squadron had been damaged.

## Cannot Consider Treaty.

St. Petersburg, Jan. 12.—Russia has been informally notified by the United States government that owing to the limited time at the disposal of the short session of the American congress, further negotiations on the subject proposed Russian-American arbitration treaty will be postponed. Only those treaties which are of uniform model can be laid before the senate this session.

## Buying Cars Abroad.

St. Petersburg, Jan. 12.—It is stated that the Chinese Eastern railway is about to invite tenders for several thousand freight cars of extra large dimensions, the order totaling several million dollars. Dissatisfaction is expressed at the prospect of such a large foreign order and it is urged that the cars should be such as could be turned out of Russian workshops.

## Will Welcome Americans.

Tokio, Jan. 12.—The Japanese war office has notified American Minister Gristumb that it will be pleased to permit General MacArthur and one aide de camp to accompany the army of Japan in Manchuria. At present two British generals are accompanying the troops and satisfaction is expressed at America's action in also sending an officer of such high rank.

## THE TIMES' NEW REPORTER.

Editorial note.—The Times has engaged the services of a new reporter. He is a young man of great and varied talents, but a remarkably vivid imagination, as will be seen from the following items which he handed to the news editor.

The attending physician states that the large red boil on the neck of our popular fellow citizen Mr. Jamesy Jones is not yet ready to be lanced. Mr. Jones bears his affliction with much fortitude, and is quite cheerful today.

More sand was discovered on the King street sidewalk yesterday. How it came there is a mystery. Director Cushing has ordered an investigation.

Mr. Geo. Robertson M. P. P., and Mr. Edward Spars had an interesting discussion last evening on St. John mayors. They agreed that the city has had some excellent chief magistrates.

The high water and the low water got mixed on the road to Loch Lomond yesterday, and Supt. Murdoch has decided to let them stay mixed more or less until spring.

It is reported that Tufts were torn from the scalps of the Mohawks at Fredericton on Tuesday night, and

## CANADA IS ADVANCING.

### This is the Keynote of Earl Grey's Speech from the Throne

Ottawa, Jan. 12.—(Special)—The official opening of the parliament took place today. The weather was anything but pleasant, there was a cold biting wind, with drifting snow and the public works department had a hard time of it in cleaning the walks on parliament hill, before the vice regal party arrived.

Earl Grey delivered the following speech from the throne: "Hon. gentlemen of the house of commons and senate, I am sensible of the great honor conferred upon me by the king by appointing me to the distinguished position of governor general. My pleasure in being called upon to represent his majesty in the dominion has been heightened by the cordial welcome I have received on all sides and from all classes.

This favored land with its vast resources and improving facilities for transportation is attracting people on an ever ascending scale not only from the United Kingdom but also from many other countries.

As the opportunities for settlement, under the advantageous conditions which exist, are better known, this dominion will become the home of an increasing number of happy and contented people, whose character and prosperity will add strength to the great empire of which you are so important a part.

It is gratifying to note that the trade of the dominion, which in recent years has so steadily increased, is not diminishing, the aggregate trade for the last fiscal year being the largest on record. The revenue for the past six months is also greater than for the corresponding period of the preceding year.

On the invitation of the president of the United States my government has joined in the formation of an international commission composed of three representatives from each country to investigate and report upon the conditions and uses of the waters adjacent to the boundary line between the United States and Canada, and to make such recommendations for improvements and regulations as shall best subserve the interest of navigation in said waters. The rapid growth of the population of the north west territories during the past two years, justifies the wisdom of conferring on these territories provincial autonomy.

A bill for that purpose was submitted for your consideration. The surveys necessary for the location of the line of the national transcontinental Canadian railway are being vigorously prosecuted, and it is confidently believed that tenders for the construction of several sections may be invited during the coming season.

The display of the Canadian products at last year's St. Louis exhibition proved such a marked success in attracting immigrants to the western prairies, that it is proposed to accept the invitation of the government of Belgium to send samples of our products and manufactures to the exhibition to be shortly held at Liege.

Gentlemen of the house of commons: the accounts of the last year will be laid before you. It will be satisfactory to you to learn that the expenditure has been less than the revenue, leaving a surplus over all charges. The estimates for the coming year will be submitted at an early date. They have been prepared with a due regard for the economy, consistent with the development of the resources of the dominion. Hon. gentlemen of the senate: gentlemen of the house of commons I invite your best attention to the subjects I have mentioned and invoke the Divine blessing on your deliberations.

Steamer Manchester Trader will leave Halifax tomorrow for St. John. The Mount Temple sails from Halifax to-day.

## RUSSIA BADLY RENT AND TORN.

### Czar's Empire Scene of Industrial Disturbances—Council of Ministers Considering Press Laws—Prince Mirsky Still in Office—A Crisis at Hand.

St. Petersburg, Jan. 12.—The committee of ministers resumed their consideration of the press laws today. One of the things already decided is the unification of the laws, in order to make them applicable alike to provincial and metropolitan papers. It is understood that the committee decided to consider the question of responsibility of ministers before the courts, ministers being now responsible for their acts only to the Emperor.

## Not Settled Yet.

St. Petersburg, Jan. 12.—The grievances of the St. Petersburg workmen have not yet been settled. It develops that a priest named Agathon is really at the head of the movement.

## Is Still in Office.

St. Petersburg, Jan. 11.—2.15 a. m.—The Associated Press is in a position to state positively that Emperor Nicholas has not yet accepted Prince Sviatopolk-Mirsky's resignation of the Ministry of the Interior. The Minister has informed His Majesty of his desire to be relieved of the office, because the Imperial reform programme did not go far

## RUN ON BANK NOT OVER YET.

### New York Hebrews Continue to Make Things Lively for East Side Institution.

New York, Jan. 12.—Throughout the freezing rain last night and a chilly fog early to-day, a score of depositors waited at the doors of the State Bank on Grand street to head the line when the run on that bank was resumed to-day. For two days the frightened Hebrews of the East side have been engaged in a frenzied rush to get their money for no other apparent reason than that they saw a rush of depositors to place their money in the bank. Long before the bank was opened for business to-day the number of those waiting to withdraw their deposits had increased to 200, of which four fifths were women. Apparently it is the women who are keeping up the run and in the big crush yesterday, they predominated. A detail of policemen was on duty at the bank all night and twenty fresh men were sent there early to-day.

Cashier A. Vorhaiski said to-day that the bank paid out \$75,000 yesterday and that he believed the excitable Hebrews would begin to "come to their senses to-day and see the foolishness of the run, realizing that the bank is financially strong and will meet every demand promptly, no matter how prolonged the rush."

The Neptune Hockey team will go to Moncton on Saturday, the 14th inst, where they will play the Moncton team in the fourth game of the provincial league. It is expected that a large number of the friends of the team will accompany them.

## Enough to meet his views at the Emperor so far has persuaded him to remain in the ministry.

Prince Sviatopolk-Mirsky's retirement soon, however, is regarded as certain and M. Witte apparently is equally certain of becoming the Bismarck of Russia despite the fact that he is cordially hated as well as feared at court.

St. Petersburg, Jan. 11.—Interior Minister Sviatopolk-Mirsky today presented to Emperor Nicholas an address from the Agricultural society of Podgolevskoi, which assures His Majesty that in the moment of danger the whole of Orthodox Russia will rise to defend Autocratic rule, the "dearest heritage of Russia and the foundation of her power and prosperity." The emperor endorsed on the address: "I thank you sincerely for this friendly sentiment."

## The Baku Troubles.

Baku, Jan. 11.—A considerable number of men have returned to work in the oil fields and more are expected to resume tomorrow. The fires which have not yet been extinguished have done immense damage to wells, derricks, tanks and warehouses.

## THE WRIGHT TRIAL.

### Nothing New in the Evidence Today at Hampton.

In the trial of Oscar Wright at Hampton this morning Robert Coates was again on the stand. His evidence was practically a repetition of what had been given before. He was examined by Dr. Pugsley.

The witness was standing close to McKnight when he was knocked down and at the request of the attorney general took the club and illustrated how the blow was struck.

He was sharply cross-examined by Mr. Currey. The latter asked if there had not been ill feeling between the witness and the prisoner, and he replied that it was years ago. In reply to the question if he had not threatened to beat the prisoner, he replied that that was a very old affair. Mr. Currey sought to get from the witness a statement to the effect that Wright wanted to get McKnight to leave the locality, but the witness would not say so.

Mr. Alex Kingston, who lives near Wright's shop, was on the stand when court adjourned. Today's evidence brought out nothing new.

## KING WILL OPEN HOUSE IN PERSON.

London, Jan. 12.—King Edward, to to-day's meeting of the privy council, signed a proclamation convening parliament for Feb. 14th. The session will be opened by the King personally with full ceremony. The unusual lateness of the date of the opening is interpreted to mean that the government does not propose to press any redistribution bill, but to give to the aliens bill which Premier Balfour has definitely promised, the first place in its legislative programme. Recent speeches of ministers confirm the belief in an early dissolution of parliament and it seems likely that unless previously defeated possibly through the intentional abstention of the Chamberlains, the government will find a pretext for an early dissolving of parliament, probably towards the end of March and so hand over to the opposition the seemingly thankless task of formulating the budget.

## MR. HARDING TALKS.

"I sold no liquor after ten o'clock on Tuesday night," said Matthew A. Harding to a Times representative last evening. "When Inspector Jones called, at my place he found the bar locked, and only the restaurant open. Nobody can get liquor in my shop after ten o'clock on Monday to Friday nights, or after seven o'clock Saturday nights. It is very often necessary to keep the restaurant open after the bar has been closed, as it enables passengers who come on the late trains to procure a hot meal, which they cannot get at the hotels. A number of note proprietors have expressed their approval of the idea, and have on several occasions sent me passengers who came in on late trains.

"Several years ago I placed the matter before the liquor license commissioners; and it was suggested that the bar be separated from the restaurant, which I did, and they expressed themselves as satisfied. I do not see why I should be reported for keeping my restaurant open after ten o'clock at night as long as liquor is not served there."

Wm. Martin, junior of the Lorne Club House, Halifax, is dead aged 104 years and 10 months.

### Well Known Fredericton Woman Suddenly Stricken in the Street—Death of James Turner.

Fredericton, Jan. 12.—(Special)—Mrs. Catherine Covert, widow of the late John S. Covert who once represented Sunbury in the house of Assembly died very suddenly here last evening. She was out in the afternoon attending a meeting of church workers and when passing the Peoples' Bank on her way home fell unconscious to the sidewalk. She was removed to her home and three doctors were soon in attendance but were unable to restore her to consciousness. She passed away three hours later. She was sixty-eight and is survived by one sister, Mrs. A. W. Sterling of this city and two unmarried daughters. She was a daughter of the late John Haws of St. John and resided here since the death of her husband about twenty years ago.

The members of Court Millicent L. O. F. last evening presented Alexander Burchill the retiring secretary with a gold headed cane and address, "James" Turner, better known as "Ginger" Turner died at the almshouse this morning aged seventy five. He came to Fredericton in the sixties with the twenty second regiment and was one of the standard characters of the city.

## THE GERMAN COAL STRIKE.

Berlin, Jan. 12.—The government railway management as a caution against coal exhaustion, in the event of a prolonged strike, is diverting coal destined for private companies to the government yards. The police interfered in rioting between unions and non-unions at the Felicitas mine, near Bochum, Westphalia last night. Several persons were wounded and five arrests were made.

## EXTENSIVE IMPROVEMENTS.

Washington, Jan. 12.—Secretary of War Taft, has transmitted to the house a report of the survey of the water way connections to Lakes Huron and Superior which estimates the total cost of improving the waterway at \$10,000,000. On this sum of \$4,000,000 has already been appropriated. Secretary Taft makes a recommendation.
