Mr. Kidd Will Resign Tomorrow---Opposition Leader May be in House in Three Weeks.

Ottawa, Jan. 17.—(Special)—Edward Kidd, M. P., for Carleton county, will tender his resignation tomorrow at a mass meeting of the electors to be held at Stittsville. Every effort will be made after the resignation is accepted by the electors and the candidature of Mr. Borden endorsed by the government to have the writ issued, and in about three weeks, the leader of the opposition to purpose of forcing shorts to cover, and enticing the public into this market, or it is the beginning of the bull campaign which we all looked for later on? Do the big men calculate to fool any one? These are questions which are to be answered. There can be no material decline if the public buy stocks. The big men also have stocks to sell, and parade increased railroad earning as a big bull card. But why should not earnings increase? There is nothing whatever to warrant the present high market level of prices except manipulation. It is a market that fools both commor who has waited, for the occasion can make a big strike with very ittle capital; but the present is not such a time. Gates people say this market will advance up to March 1st, but there are always bulls at the bottom.

The Northern Securities Case

Amalg Copper Anaconda

Said to be Settled at Last.

(New York Commercial.) The general advance in prices and the intensified activity of Friday's market was due to one cause only—half suspended by the many; positively known by the very few. An amicable settlement has been arrived at between Messrs. Hill and Harriman. The long fought legal battle between these master strategists concerning the proper method of distributing the share holdings of the Northern Securities Co., has resulted, as all such wasteful contests should result, in the contending parties meeting upon neutral ground and adjusting their disagreement amicably by mutual compromise. The legal captains will still have their day in court, for the preliminary steps in an appeal were taken yesterday; but the ultimate aim of this is merely to secure a ratification in legal shape of the pact concluded by the generals. The real fighting is over.

Officially nothing was announced, and nothing will be announced officially, probably for several days to come. The precise proportion in which the shares of Great Northern and Northern Pacific, the two component roads of the Northern Securities Co., will be distributed, has as yet not been revealed, but this much may be definitely said, that the plan as originally outlined, by Mr. Hill, to the stockholders, with certain modifications will be pretty closely followed. The special bone of contention on Mr. Harriman has contended that Mr. Hill's idea of \$1 at the valuation placed by Hill on the iron mines owned and controlled by the Great Northern. For months Mr. Harriman has contended that Mr. Hill's idea of \$1 at the valuation placed by Mr. Hill scheme of stock distribution has been based wholly upon what he deemed the disproportionate valuation placed by Mr. Hill scheme of stock distribution has been based wholly upon what he deemed the disproportionate valuation placed by Mr. Hill scheme of stock distribution has been based wholly upon what he deemed the disproportionate valuation placed by Mr. Hill scheme of stock distribution has been based wholly upon what he deemed the disproportion The general advance in prices and the

THE MAKING OF ALE.

THE INGREDIENTS-

The formula for the making of ale is exceedingly simple. Barley malt, hops, and water are the only necessary materials, and they alone should be found in good ales.

There are many grades of malt, many varieties of hops, and water differs widely in its adaptability to brewing purposes. The very best of all three, brewed by experts in a perfectly equipped brewery, go to make up Carling's Ales and Porter.
