RAISE MORE PARSNIPS .- The value of parsnips for feeding purposes has heretofore, by many farmers, been under-estimated. By referring to Schenk's "Gardeners' Text-Book" we see it stated that the parsnip has many yield of milk, having a richer color and inches high, respectively, they are and as yet we look in vain for those public weeded and hoed. The leaves are cut works which were to follow the inauguration in the month of September, and allow- fact that some small grants have been made ed to fade for twenty-four hours before towards the imprevement of the navigation drowned on Saturday night at the mouth given to the cattle. The roots can be of the upper St. John, an expenditure which of Bathurst harbor. He had been visiting taken up during the winter as required; in the light of subsequent events appears of frost does them no harm. The ration little value, although at the time it seemed is sixteen pounds, three times a day, important, and that the Dredge has deepened from its groove and precipitated him into the and the roots are cut. When given to pigs, they ought to be cooked. In the west of France the parsnip replaces the oats for horses, and being electors will hardly rest satisfied with such a nutritive, all animals quickly put up state of affairs much longer. flesh when fed on this root. Vick, in one of his annual catalogues, says that for feeding cattle no root is superior to the parsnip. In the Island of Guernsey a few years ago-and per- well informed on the premises. BREEDING FROM UNSOUND HORSES .-A. A. says, in the Country Gentleman, in answer to an inquiry: Several years ago a neighbor of mine owned a stallion that had the stringhalt, and many of his colts had the stringhalt while following the mare; many more of them would be troubled with it after they had been used a short time, and I think the colts, when kept to breed from, were more liable to have the stringhalt than those bred from a sound herse.

Correspondence.

For the Colonial Farmer, BALL THROWING.

WITNESS.

Mr. EDITOR,-It has become a daily nuisance to witness young men and boys who are clerks in stores, throwing balls to each other on the sidewalk of Queen street te the annovance of passers by, especially to ladies and children. Will the policemen look to it or not? It is time a stop was put to it by somebody in authority.

F'ton, Sept. 9, 1876.

The Colonial Farmer,

FREDERICTON, N. B., SEPTEMBER 11, 1876.

THE ST. HYACINTHE FIRE.

WHOLE BUSINESS COMMUNITY DESTROYED [From the Montreal Gazette.]

ST. HYACINTHE, Sept. 3. Our town, which so far has been exempt rom fire, was to-day totally destroyed-so far as the business portion of the community business place left, and not a single bakery, and now the authorities have to telegraph necessaries of life. The fire began at 1.45 p. m. in a shed

rapidly spread to the adjoining buildings.

So inflammable was the material, and

numerous the houses, that within one hour The primitive fire apparatus of the town, demand. A capital book it is, brimful repeated. The fire leapt from one street to compelled to acknowledge the fact that the graphed to your city for aid. As usual the H. A. Cropley. response was prompt, and the action of your brigade was noble, as it always is. The steam fire-engine arrived with the Guardians was destroyed before their arrival that people began to wonder what was left to be saved. The little that was left was well saved, and Suffice it is to say that a large number of our inhabitants are wandering about for shelter. The insurance companies suffer heavily, but what companies it is hard to say, so great is the confusion and excitement at present. You can imagine a whole town burnt, and the people gazing on the glowing embers of which a few hours before were their comfortable homes. The principal places destroyed are the Merchants' Bank, the Town Hall, the St. Hyacinthe's Bank, the Montreal Telegraph Office, the Cote & Co. boot and large. shoe factory, Victor Cote & Son's tannery whole business community Over three hun- races.
