

IMPORTANT NOTICE.

The death of the late Mr. CHARLES S. LUGGIN renders the immediate settlement of all accounts due to the FARMER Office, either for subscription or otherwise, absolutely imperative.

The Colonial Farmer.

No county in the Province is contributing more young men to the professions and business circles than the county of King's.

log cabin may be ill-clothed and tired and worn with labor, but if the history of the Province teaches one thing more than another it is, that if that family is honest, temperate, and industrious, if intellectual culture receives what attention it can among its members, before one generation has passed away prosperity will crown their lives.

Our remarks relative to the Consolidated Laws called forth a reply from the Telegraph which is worthy of notice only as indicating the flimsy defence that the Government make to the charges of mal-administration in respect to their self-imposed task of consolidating the Statutes.

The third point urged by the Telegraph that the Dominion Statutes are not published in the Canada Gazette, is open to two objections, but one of them is sufficient for our present purposes.

It comes to one's mind in a moment on reading an article such as the Telegraph gave its readers on the Statutes, when a man will deliberately pen such perfect nonsense, and regardless of his own reputation for intelligence, endeavor to palm it off as argument, he must be very "hungry."

THE ST. STEPHEN FIRE.

We are requested to state that the Mayor is in receipt of a communication from St. Stephen, asking the assistance of Fredericton for sufferers from the late calamitous fire, by which many poor families lost all that they possessed.

ABOUT TOWN.

County Court of York sits on Tuesday next. It is proposed to have horse races on July 1st.

A small lot of logs sold at Spring Hill last week for \$5.90. This price is exceptional. Very good lots bring about \$5.75, but the ordinary price ranges all the way down to \$5.00.

The press on our advertising columns continues, and we are endeavoring to devise means to prevent its interference with the reading department. Our subscribers really get more news than ever, for every important dispatch to the New Brunswick press appears in our columns, though in a condensed form.

The Police Magistrate, not to be outdone by our friend Richards, who insures people's houses, sells them coal, railroad tickets and "rich," has had a very decided improvement made in his private office; that is he has a private office now. By the way, if any one wishes to see a "stat" thing in the way of an office they should drop into Mr. Richards'. He has the snugest establishment we know of anywhere.

Sheppard's Jubilee Singers give performances in the City Hall on Wednesday and Thursday evenings. They are a troupe of colored singers. The New York Times says "they give negro melody in real camp meeting style."

In conversation the other day with some residents along the line of the New Brunswick Railway, a suggestion was made to us that the establishment of regular excursion trains over the Railway, say once a week, would lead to a great increase in travel over the road by inducing persons residing in the vicinity to come to Fredericton and make purchases of articles for domestic use.

The Concert by the Barnabes Loups was not very well attended, the price of admission being too high. Barnabes is the same as ever. He cannot be described. The others of the troupe except Howard Dow, were strangers here. Mrs. Carter, Soprano, was a very sweet, clear voiced singer in well under control and especially adapted for pathetic ballads.

This is the Government defence to the worst administrative Act which the annals of any Colony record. Every word of it is false, and even if it were true it affords no excuse. To argue that because the Acts of a single session are in many cases in force a short time before they are published, therefore all the Statute law of a country may be repealed and new Statutes substituted which shall be in force not only before they are published, but even before their provisions are finally settled, is to prove oneself worse than a fool.

It comes to one's mind in a moment on reading an article such as the Telegraph gave its readers on the Statutes, when a man will deliberately pen such perfect nonsense, and regardless of his own reputation for intelligence, endeavor to palm it off as argument, he must be very "hungry."

THE ST. STEPHEN FIRE.—We are requested to state that the Mayor is in receipt of a communication from St. Stephen, asking the assistance of Fredericton for sufferers from the late calamitous fire, by which many poor families lost all that they possessed.

A prominent Russian Diplomat says that Russia intends to redeem her pledge as far as the aggression of territory went, but should she prove victorious she would insist upon the independence of Bulgaria, Herzegovina, Romania, Servia, and Bosnia, and guarantee these provinces their independence, no matter against what power. The terms of peace, in the event of the Russians gaining decisive victories, would perhaps include the surrender on the part of Turkey of a portion of her fleet and the consummation of a treaty placing the city of Constantinople under the joint control of all the foreign powers.
