disease, Syphilitic and Mercurial diseases, Dropsy, Dyspepsia, Emaciation, General Debility, and for Purifying the This Sarsaparilla is a combination of regetable alteratives — Stillingia, Man-Jrake, Yellow Dock - with the Iodides f Potassium and Iron, and is the most flicacious medicine yet known for he diseases it is intended to cure.

Its ingredients are so skilfully com-bined, that the full alterative effect of each is assured, and while it is so mild as to be harmless even to child ren, it is still so effectual as to purge o at from the ystem those impurities ar d corruptions thich develop into loaths ome disease. The reputation it enjoys is derived from its cures, and the confidence which prominent physicians all over the country repose in it, rove their experience its usefulness.

Certificates, attesting its virtues have cumulated, and are constantly being publicly known, they furnish convincing ridence of the superiority of this Saraparilla over every other alterative ridicine. So generally is its superiority to any other medicine known, that e need do no more than to assure the sublic that the best qualities it has ever ossessed are strictly maintained.
