Universally adapted by the whole world. 500 of our manufacture sold and in use; i every instance (no exception) attesting to their grand superiority over all other Mowers, in their simplicity of mechanical principle, great durability, ease of draught, wonderful adaption to all surfaces and manner of leaving cut grass.

Read the following, to which could be added a multiplicity of others in our possession: PRINCE WILLIAM, May 10, 1876. Messrs. McFarlane, Thompson & Anderson, Gentlemen,—In reply to your enquiry about your Mowing Machines in this place, we would say that last year when we received your Mowers we gave them a fair trial with others, before we offered them for sale. We, and others who where present, were convinced that your Mower would do as good work and was not so liable to get out of order as other Machines that are running here. We have had some experience in repairing Mowers for the last five years; we have always found that the Wood Mower runs with always found that the Wood Mower runs with the least expense; there are not so many bolts and nuts to get out of order. Your machine has and nuts to get out of order. Your machine has got the best boxing—ALL BRASS; the journals are well fitted and run very smooth; the strains are met with straight lines, and these are features worthy of notice in machinery. In fact we think you have the plainest, simplest, and most substantial Mower running. They are not only the best but the lowest in price of any of the same quality. We do not hesitate in saying to parties wanting to buy a good machine to try one before purchasing, and be convinced that you make at wanting to buy a good machine to try one before purchasing, and be convinced that you make at home in our own country as good a Mower as can be got in the market. They are not surpassed by any, and should you accidentally break a piece you have no difficulty in getting it replaced at the Foundry; you are not humbugged by agents, and lose the use of the machine nearly all haying time hunting them up and then not find them. The Machines we sold last year gave good satisfaction, and the farmers' wish you every success so long as you put, up first-class every success so long as you put up first-class machinery.

Yours Respectfully,

THOS. W. HOYT.
