which it ought to from the lumber cut even at the present rates of stump age, that is that much lumber is cut without a dollar being paid for it into the Department-that timber lands are not properly protected from waste, and that there is no inducement to the licensers to improve the streams and make such other investments of money as will facilitate the getting of lumber. Of the first objection very little need

be said. It ought not to be difficult for the Crown Land Department to learn just what operators were doing

with the same accuracy as private Complaints are made that the Ferries have proprietors do; but many instances have been reported to us where large the New Brunswick Railway, or if they have, lots of lumber have escaped without paying stumpage. The second objection is one to meet which much care carry passengers to the train would be very is necessary. On private lands if tree is cut and it contains one good

On Thursday morning John Ryan, Peter log and one poor one, both have to be Malloy and Jos. Curran were arrested by the taken away and stumpage is paid police, charged with stealing a gold watch upon both. On Government lands the and pair of spectacles from Mr. Warren C. reverse is the rule. No reasoning is Perrigo. They were examined before the necessary to prove that where the Police Magistrate on Friday. Malloy and former rule is enforced much greater Curran were discharged, there being no care will be taken in the selection of evidence to show that they were implicated in the affair, but Ryan was found guilty and trees to be cut than where the latter sentenced to three months imprisonment in is in operation. In the last fifty years

this Province has lost millions of dollars of property by the careless waste of lumber, and so the source of supply is year by year diminishing. week. so it becomes every day more and more necessary that a most careful oversight should be maintained over the forests, so that this important source of wealth and revenue to the country should be husbanded as long rapidly rebuilt. as possible. When the English market for lumber is brisk a revenue of nearly stook on the 12th inst. \$200,000 ought to be derived from stumpage under a careful and prudent Why not? system, and the supply so protected that it would continue to afford all the 30th inst. trade of the Province would require for years to come. To meet the third come in objection, we favor long leases upon such conditions as are best calculated to serve the interests of the Province and the operators. The advantage of long leases to the operators is that they thereby become proprietors for

the time being and can regulate their your little ones business accordingly. Of course they are as much proprietors, strictl speaking, under a yearly lease as under a ten years lease : but it means a vast difference to the holder of any description how long he is to retain it Take the improvement of streams which are the highways of a great portion of the business of the Province. If an operator holds a lease of lands for any long period he has some profor \$36,000. tection if he lays out money in cleaning out the streams, and what is to his advantage is a benefit to the whole Grant Wednesday night and sunk. The country. It seven years leases were granted and the Province would under take the work of improvement, the operators would cheerfully consent to an increase of stumpage more than sufficient to repay all outlay. Many things have to be considered in connection with this subject. Th fact that in four Counties the will lands have nearly all passed out of the Crown; that along the North Shore and in other parts of the Province much capital has been invested in mills under the existing regulations and it is of course desirable that good faith should be kept with the owners. A demand will probably be made before long for an exchange of land for one year. between the Province and the New Brunswick Railway Company, We do not say that the Company will make the demand. We have no reason to say so, but it is plain that the Halifax on Friday, the 13th inst. In his interests of the river Counties will make an exchange or a purchase im perative, and the Province cannot afford to purchase. Whatever may be which resulted in the complete triumph of the opinion of our readers relative to the relief Committee and their vindication the advisability of giving away timber lands to secure a railway, none can has been so little complaint.
