remain a question, unless the Hon. gentleman will give liberty for the parties who have them regard them as advortisements tendered for Bridges, and other Government and are for that reason at the expense work, to answer for him.

Speaking of Green River Bridge, it is a simple structure, and if the contractor, who ever he was, actually received \$6,600 for that Bridge, there is no doubt in my mind b it he had \$5,000 clear of all expense.

But the question is this, are those large sums not divided among the contractors and members of the Government? Mr. Editor, these things look dark, and there are hundreds and I might say thousands, getting their eves opened so that they can see into these things.

The Railway Bridge which is being built at Green River is a Howe truss Bridge, two spans 671 feet each, and is under contract by the man that was defeated on the repairs of manufacturing establishments so far the Woodstock Bridge Piers because he knew that to-day the farmers who desires what it was worth to make the repairs. This was a job that Mr. Kelly had nothing to do with. The gentlemen who let this job were the Hon. J. J. Fraser, Stevenson and Perlev. They, instead of accepting a tender of \$2.775 00, stepped away above and gave the contract to another party for \$3,990.00, simply because of people out of the Province, but to one of the Bridge Ring was connected. Now, interfere, by false warnings, with the Mr. Editor, the repairs of that Bridge never legitimate business of our people .cost over \$2,000, and I will give you my This is unquestionably the crowning reasons for thinking so. There are stone abutments built on the N. B. Railway that cost \$9.00 per cubic yd, and it looks unreasonable to me that wood put into piers and filled with round beachstone should cost \$7.50 per cubic vd. The most that ever I knew the N. B. Railway Co. to pay was \$2.50 per cubic priated to them by the Legislature vd. for the same kind of work.

And then to make matters worse, when the turing houses in Ontario, and cattle contractor was paid for the repairs of the and herd breeders in the United piers, instead of being paid the contract price, States. We also think that the he was paid \$4,300.00, making a bad matter worse. Thanking yon for your space, Mr. Editor, and hoping you may get an answer to your question, I remain.

Yours very truly, FAIR PLAY.

Woodstock, Feb. 1st, 1878.

Lucy's Stock has arrived.

The Colonial Farmer,

FREDERICTON, N. B., MARCH 11, 1878.

We have been favored with a copy P., for St. John. of the annual report of the Secretary for Agriculture for 1877. It is a book of about 230 pages with a varied table of contents, and is quite profusely illustrated. The first article is a review of the agriculture of the Province by the Secretary, and occupies about twenty pages. We may have occasion to refer to this again. Then follow twelve pages devoted to some observations on " the great Smithfield Club show, held last December in London," which is called "high farming." Of the propriety of publishing this in a report on the agriculture of New Brunswick we shall iovernment." say nothing more at present than it appears scarcely within the pro vince of a public department to assume the role of a newspaper. A description of the Centennial Exhibition or any other similar affair would no doubt furnish very interesting reading. equally so with the observations on the Smithfield Club show, and quite as much in keeping with a Government report; and it does seem rather extraordinary that the Department of Agriculture in its infancy finds subjects for discussion so scarce that it independent while receiving Governmust deal with such matters. A ment patronage and that is that they short paper is published on the farming lands of New Brunswick which would be more interesting if lengthier. It was, we imagine, contributed by Mr. E. Jack. The New Brunswick following cuts :--Herd Book is published. This is a good idea. The accounts of the Agricultural Societies are given with some a general goatish aspect declaiming crop statistics. These latter would on the proper way of keeping bank accounts so as to make -\$50,000 look be more valuable if the Secretary had collected them together and given a the same as \$232,000. Another of a comparative statement of 1877 with similar looking individual arguing ard, your M.
