

LOCALS.

—Yesterday we had the first snow storm of the season.

—Thursday the twenty-second inst. is proclaimed as Thanksgiving day.

—Two hundred and seventy tons of blueberries were canned at Tracadie this year.

—Mr. Floyd, of St. Martins, cut his foot badly while putting up a rotary mill for W. H. Duffy.

—The schr. Demoiselle, Tower, sailed from Moncton on Saturday with 4,000 railway ties for New York shipped by A. G. McKenzie.

—ONE'S REPAIRS—Persons having organs that need cleaning or repairing will profit by applying to B. Beaumont, Albert, who attends to this kind of work at low rates.

—If you want a reliable and accurate timepiece read K. Beaumont's "ad" in this issue. Mr. Beaumont is well known as dealer in only first-class and best quality goods, and you can depend on everything purchased from him as being exactly as represented. If you need a watch call on him or write him for prices.

—Peter McNaughton, proprietor of the Park Hotel, died on Thursday last from burns received in a fire in his bedroom. McNaughton retired about midnight, taking some papers with him. It is supposed he fell asleep while reading and the lamp on the table exploded setting fire to the room. The fire was discovered about two o'clock and McNaughton was rescued in a terribly burned and dying condition. His moustache was burned off, and his head and body terribly disfigured. Deceased was twenty-five years old and a native of Ireland.

—The Orangemen of Eastern Star Lodge, L. O. A., Albert Mines, assisted by brethren from Riverview, Albert, etc., celebrated the fifth of November by a procession, supper and speeches. In the afternoon a procession was formed, headed by the Riverview band, and marched through the village, after which a supper was served in the Orange hall. In the evening the Baptist church was occupied and speeches, interspersed with music by the band, were delivered by Martin Coleman, county lecturer, J. DeVeber Neales, grand secretary, P. E. Heine, county master for Westmorland, and H. G. Wadman of Moncton. A very amusing part of the ceremonies was the burning of Guy Fawkes' effigy.

Hopewell Cape.

Nov. 5.—Mr. Loughhead, of Colchester county, N. S., came over the ferry on Saturday on his way to Hopewell Hill to visit Alex. Rogers, Esq., his nephew.

The schr. Victory, arrived on Saturday evening, having been out in the heavy gale and suffered slight damage. A schooner had her main sail blown away and now lies off the breakwater. The gale was very heavy and ladders and high fences went by the board.

The funeral of the late Mrs. George Calhoun which took place on Tuesday last at the Calhoun's cemetery was largely attended. Among the relatives present from a distance were Mrs. N. C. Calhoun and son William of Amherst, Arthur Calhoun of St. John, T. B. Calhoun of Moncton and Dr. and Mrs. Bradley of Moncton. The services were conducted by Rev. Isaiah Wallace, a cousin of deceased and Rev. B. N. Hughes.

Miss Powell, of Halifax, spent a few days here last week, on her way to visit Mrs. R. C. Bacon at Hopewell Hill.

Messrs. W. O. Wright, E. W. Lynde and Warren Dixon visited Moncton on Saturday.

In the Probate Court, letters of administration cum testamento annexo in the estate of the late Patrick Carly, of Elgin were granted to his son Martin Carly. A. W. Bennett, proctor. Letters of administration were granted to Mrs. John C. Lauder on the estate of her late husband. Letters of administration cum testamento annexo of the estate of late Sarah King of Elgin, were granted to John H. Marr and wife of Elgin. C. A. Steeves, proctor.

Letters of administration of the late C. A. McLane was granted to his widow, C. A. Peck, proctor. In the application to sell the real estate in the estate of the late Josiah Tingley and Daniel Tingley, the evidence was heard before the judge on Thursday last. Judge reserved until 9th inst. Jos. H. Dickson, proctor for estate, M. G. Teed and C. A. Peck contra.

Alma.

Nov. 3.—Capt. Leonard Martin and bride arrived here last Saturday evening. They were warmly welcomed and a big bonfire sending its tongues off land skyward in honor of their return was an event of the evening.

The following are the officers of Alma Lodge, I. O. G. T. for the ensuing quarter: Messrs. D. C. Cleveland, C. T.; Rebecca Elliott, V. T.; D. A. McQuaid, C. S.; E. C. Phillips, Sec'y; Millie Shields, A. S.; Clara Foster, Fin.; D. S. Cleveland, Treas.; L. S. Foster, Mar.; P. A. McDonald, G.; Major Collins, P. C. T.

Schr. Amy J., Alexander, sailed for St. John, 1st inst., loaded with deals.

Schr. Clarine, Teare, arrived 2nd with a full load of freight from St. John. She is now being loaded with deals by the A. L. & S. B. Co.

The schr. Seattle, Wood, is also being loaded with deals.

The Orangemen intend celebrating 5th Nov. by having a goose supper and social entertainment in the hall at Point Wolfe.

Thos. Parker, a Nova Scotia fisherman, who has been living here the last eighteen months, skipped out unexpectedly a few days ago, he left unpaid bills amounting to over \$100.

Harvey.

Nov. 5.—It becomes our sad duty to chronicle the death of Winthrop Robinson, Esq., which occurred at his residence on Tuesday last, after a short illness of about a week. The deceased was eighty-seven years old, and had always lived in Harvey, being a son of the late Jonathan Robinson, one of the early settlers of this place. He was twice married, his first wife being a daughter of the late Council Turner, of Dorchester, and his second, a daughter of the late Elisha Peck, Esq., of Hopewell. Two sons and two daughters survive him, Jonathan, Elisha, Emma and Laura, and one aged sister, Mrs. W. J. Reid. He was known to be quiet and retiring in his disposition, and was much respected for his many excellent traits of character, being thoroughly honest and upright in all his dealings. The funeral took place on Friday and was largely attended. Rev. F. C. Wright officiating. The pallbearers were: Robert Smith, W. H. A. Casey, C. F. Dow, Andrew Bishop, Matthew Steeves and Gilbert Brewster. The remains were interred in the H. B. V. Cemetery.

The funeral of Jonathan R. Stevens, whose death occurred on Friday, at Riverview, took place on Monday. It will be remembered that Mr. Stevens was very seriously injured in his mill not long since, and although he partially recovered, it is no doubt that accident hastened his death. He was sixty-seven years old and was a son of the late Aaron Stevens. One brother, J. M. Stevens, the postmaster here, and one sister, Mrs. J. A. Turner, survive him. The burial took place at the H. B. V. Cemetery.

The Brazilian Earthquake.

BUENOS AYRES, Oct. 30.—Further particulars have been received from San Juan giving advice from the outlying districts affected by the earthquake. These confirm the reported magnitude of the disaster and the great misery that the population are suffering. Heavy rains are falling which are unusual, and add greatly to their sufferings. There were not so many persons killed and injured at San Juan as was at first supposed, but the sufferers are greatly in need of assistance. The reports from La Rioja are more serious. In the capital of the province the damage done by the shock is very great. The Governor reports that in the city of La Rioja 200 houses have been wrecked, or are very badly damaged. The only structure that remains uninjured is the church of San Domingo. On Sunday night several shocks were felt. Both at San Juan and La Rioja the ground opened in many places through which big streams of water burst forth, inundating houses and drowning live stock. Scientists claim the cause of the disaster is a subterranean river known to exist to the locality, due to the heavy rains of the past winter, coming in contact with internal fires in the Andean range.

She Poisoned Herself.

SHANGHAI, Oct. 31.—The young Empress of China has committed suicide. She was rebuked by the Emperor, who slapped her face whereupon she took poison. The married life of the young Empress of China has not been a happy one. The outside world knows little of what goes on inside the sacredly guarded Imperial palace at Peking, but enough has transpired to show that the Emperor, who is hot tempered and spirited, bitterly resented the manner in which his consort was thrust upon him against his inclinations by the imperious and self-willed Empress Dowager. The young Empress, Yo Ho Na La, has found the five years of married life to be filled with discord and unhappiness until at last, after a violent scene with her angry spouse, she has put an end to her earthly troubles by taking poison. It was in 1889 that the Emperor married. He was then a youth of 18. The selection of his bride was governed by the rules laid down in the book of rites and is a tedious and elaborate process. The unhappy young Empress was at the time of her marriage only thirteen years of age. She was the daughter of Gen. Kuie Hsiang, younger brother of the Empress Dowager.

Hopewell Hill.

Nov. 5.—The Rev. Geo. C. Lawson, of Hammond, occupied the pulpit in the Baptist church on Sunday last. He preached an elegant sermon from II Kings, V, 12.

Rev. B. N. Hughes, we are glad to learn, has so far recovered from his severe illness to be able to attend to his duties.

Miss Sarah Shaw, of Chemical Road, met with a very painful accident while driving to church. The horse ran away and threw her out of the wagon, her injuries proved very serious, one of her ankles being broken.

Mr. Allan Loughhead, of Truro, N. S., is visiting Mr. Alex. Rogers.

Mrs. William Rogers passed peacefully away on Monday evening, she leaves one son Alex. Rogers of Hopewell Hill.

Miss A. R. Peck, arrived home last Tuesday from St. John.

The Rev. Father Carson, has rented the house of Capt. P. R. Tingley of Hopewell.

Dress Goods.

Our trade in this line is growing fast. We are getting many of the best cash customers in the city. We are gaining the trade of those most competent to judge of the real values. We have received some of our Fall Stock and find them great value. We have a line of Blacks and Plain Colors in All Wool Foules, double, for 25c a yard, the like of which has never been shown and are not to be seen elsewhere. They sell on sight every time.

J. FLANAGAN,
Central Dry Goods, opposite Market.

Sketch of Perry, Maine.

TO THE EDITOR OF THE STAR:
Perry, I think, was what I meant to speak of the next time.

Well, Perry is a small town thirty-six miles north-east of Machias, twenty-two miles from Calais on the stage-line between Eastport and Calais, sold by Massachusetts to Gen. Lincoln in 1783, and was a small boy at that time. It has now a population of ten hundred and forty.

We listened to a most interesting address last Sunday evening, delivered by Mr. N. B. Nutt, in the Congregational Church upon its seventy-sixth anniversary, subject, "Reminiscences of Early Days," he very graphically described the ways and means of his boyhood days, his memory serving him as far back as sixty-four years ago, when he was a small boy of four years, at that time there being only one schoolhouse, the children came from all districts to attend that one school; their teacher at times was minister and doctor, he attended to their education, ministered to their bodies as well as their souls; also dwelt at considerable length upon the means of constructing the church or meeting house, as it was called then, it being no small undertaking, the only thing to be had was the cheap pine lumber which was taken from the forests here. Nails were twenty-five cents a pound, lime six dollars a cask, and labor quite scarce at that time, but they succeeded in building a commodious house with large gallery, capable of holding several hundred people, (and in those days every one went to meeting, little things did not deter them as now). After completed the pews were sold to pay for the church, going to show us what a sturdy, heroic, persevering set of people the early settlers were. Now Perry can boast of several churches, Congregational, Methodist, and North Perry a Baptist, each supporting its own parson, several school houses, town hall, we also have one of the largest sardine factories, known as the Gleason Cove Packing Co., situated at Gleason's Cove, a most desirable location. It gives employment to a large number of men women and children. There is also one large saw and grist mill owned and operated by Mr. James Leighton, that furnishes employment in the winter season for a number of men. Mr. Leighton is about putting in a Leffell Turbine water wheel in his mill that will do more work with less water. The Telephone Co., have finished running the mill that will connect the Perry Pumping station at Eastport, and with Gen. S. D. Leavett's office. The water company are determined to have all modern appliances for the use of their officers. Perry as a summer resort is most desirable, there is fishing, boating, with beautiful drives that delight the tourists who are many, coming from all parts of different states. Now for some of the social functions. Oct. 31st, Mrs. John Humphrey entertained thirty-six ladies at five o'clock tea in the evening. Miss L. Leighton invited a number of the young people to meet at her home, then they proceeded to the residence of Mrs. Freeman Battle, where they spent a most enjoyable evening, including charades and several Halloween games. The same evening Mrs. Crosby entertained a number of her friends at the Pumping Station. The rooms were decorated with plants of all kinds, conspicuous among them a beautiful oleander tree standing over ten feet high, of which twenty branches are budded and in bloom, some of the branches having as high as thirty blooms, it is a most handsome sight and the fragrance is lovely. Fear I have taken up much of your valuable space. Please accept thanks for copies of your spicy little paper, we enjoy it very much.

HILLSBORO' GIRL.

Perry, Me., Nov. 3, 1894.

The Bellinger German Remedy Co.

For some months past, the attention of a few of our prominent citizens has been drawn to the wonderful cures performed by the above company in New Brunswick, and a movement is now on foot to open an institute in this city, securing from the New Brunswick company the counties of Westmorland, Kent, Albert and Northumberland, a total population of one hundred thousand, making Moncton the centre of operations.

The undisputed claim of this company which has made such a record in the States, is a perfectly painless cure for the liquor and morphine habits—men and women taking treatment, suffering no inconvenience whatever, being allowed to attend to their daily avocations. It is the boast of the Bellinger company that they have the only genuine morphine cure endorsed by the medical profession.

The Moncton company will attractively fit up a suite of rooms in the central part of the city, where patients under treatment can spend a pleasant evening if they wish. The company will have its own local physician in charge, and Mr. C. S. Starratt, one of the Bellinger Co's first graduates in Canada, will have the business management.

Arrangements are being made for a mass meeting in the opera house, at which time our citizens will have an opportunity to learn through the company's lecturer, Mr. F. M. Adams of Harvard University, and a number of the St. John graduates, what the Bellinger company claims and actually performs.—Times.

The Origin of Scalping.

Scalping is not original in American aborigines. In Southall's "Recent Origin of Man," he quotes from Herodotus to show that the Scythians scalped their fallen enemies, and in modern times the scalping knife is used by the wild tribes of Northeastern Bengal.

THE EASTERN WAR.

The Japanese Will Attack Moukden and Port Arthur.

SHANGHAI, November 8.—The Japanese are reported to have taken Fong Fang Chen, and they are now expected to march to Kin Chow, at the head of the Liaotung Gulf.

From that point as a base, it will be easy to operate on the Chinese province of Chi Li.

It is believed the supposed march to Moukden was only a ruse resorted to with the intention of drawing the Chinese away from the coast.

A Chinese officer of high rank, who has just returned to this city from the Yalu river, expresses the opinion that Li Hung Chang is deliberately starving the army there, for the purpose of bringing about their easy defeat and of thus persuading the authorities at Peking of the futility of further resistance. He is anxious to do this, knowing as he does better than any one else, the uttermost of China's naval and military services. The soldiers have not been paid for seven months, and they simply will not fight, even if they could do so.

LONDON November 8.—The Japanese legation has this despatch from Tokio: "The army under the command of Marshal Yamagata has got possession of Fong Fang Chen and has defeated the Chinese, who are fleeing toward Naitien Ling."

The other army under Marshal Oyama is attacking Kinchow. Both Taitien Wan and Port Arthur are in a critical condition."

The capture of Fong Fang Chen leaves the road to Moukden clear for the Japanese. Marshal Yamagata is expected to be within striking distance of Moukden on November 10.

It is believed that they are held city by a very large and untrained and poorly-equipped force.

Fong Fang Chen lies about two hundred miles northwest of Tokuhan, which is on the Manchuria side of the Yalu River. Fong, etc., is between Wu Ji and Moukden.

A despatch to the Central News from Shanghai says that the report that the Japanese second army is on the eve of taking Port Arthur, is regarded as a ruse on the part of the Japanese.

It is thought probable that the Japanese second army in the end forming a junction with the main army and capturing the Chinese, who are retreating, after which the combined forces will proceed to Peking.

British Columbia Landslide.

NANAIMO, B. C., Nov. 2.—The steamer Princess Louise, just down from the North brings intelligence of a terrible disaster at Shushette Bay on the northwest end of Vancouver Island which completely wrecked the primitive settlement recently established there known as the Canadian Co-operative Commonwealth settlement consisting of six persons, five men and one woman. At six o'clock Monday morning last before the occupants of the commonwealth were up a landslide occurred. The great avalanche of earth and rocks tore down the mountain side, crushed in the log buildings and carried it and the ground on which it stood about one hundred feet into the bay, the cabin being buried several feet under the debris. It was fortunate for the occupants that the cabin was only a log structure, otherwise all would have perished. As it was, three escaped uninjured, two were badly hurt about the legs and arms, being squashed in the logs, and one man, Harry Kipling, of Victoria, lost his life, though death did not immediately ensue. He was buried up to the waist in the dirt, and jammed between two logs. Before he could be released the tide reached his mouth. Then, as a last resort, the others had to cut him out with axes, amputating both his legs. He died the following afternoon. All the Commonwealth property and buildings and improvements, were completely wrecked. The accident will cause ruin to that enterprise.—Montreal Star.

The other day Miss Ida Wheeler, of Massena, N. Y., underwent a peculiar operation, the result of which was that thirty-two pieces of needles were taken from her wrist. It appears that one evening about a week ago Miss Wheeler when about to retire took hold of the pillow and felt something like a needle prick her wrist. She did not mind it at the time, but during the night the pain grew worse and Dr. Taylor was sent for. He took thirty-two pieces of needles out of her wrist and these pieces measured eight inches in all. They range all the way from one-quarter to three-quarters of an inch in length and many of them badly bent. How so many could get into a little space on her wrist less than two inches square is a mystery. An examination of the pillow revealed an empty needle case among the feathers, and it is possible that while asleep Miss Wheeler's wrist came in contact with the bunch of needles, which worked out of the feathers and became embedded in her wrist.

One Big Snake Swallows its Companion.

All London has been much interested at this week in a tragedy at the Zoo. A box constrictor, nine feet long, inadvertently swallowed its mate, eight feet long. A pigeon had been given to each snake. The larger box swallowed his first, and then seized the bird which was in the jaws of its mate. As the teeth of both reptiles were securely fixed in the pigeon there was nothing for it but that one should swallow the other, and the smaller one suffered. The appearance of the survivor is sufficient proof of his guilt. He is swollen to nearly three times his normal girth. The attendant has detected in his eye a sinister, conscience-stricken expression.

FREE!!

A Life Size Air-Brush and Crayon Portrait.

As a compliment to our many patrons and the public generally, and with a view to still further increasing our immense retail trade in this town, we will for a short time give every purchaser of \$10 worth of goods a

Handsome Life Size Air-Brush and Crayon Portrait

There is not a family but possesses some picture of father, mother, brother, sister or child which they would like to have reproduced in a life-like and durable manner. Our work is done by one of the most reliable houses in Canada, is finished in the most artistic manner and of the same quality which commands at retail \$10. Should you prefer the work done in water color it can be done at a cost of \$1, which covers the extra cost of coloring.

FRAMES—In order to see that their portraits are suitably and properly framed the Portrait Co. furnish their own frames and have made it conditional upon us that with each portrait we sell a frame, an assortment of which we keep at \$3, \$3.50 and \$4, subject to your own selection as to style and quality.

We Give you the Portrait Free.

You Pay for the Frame Only.

PRICES—Please bear in mind that we sell for cash only and at one price to all and that you will secure your footwear at our usual low prices (fully 20 per cent. lower than same quality goods can be bought for elsewhere) in addition to portrait free.

OUR PLAN

Is to issue tickets on your first purchase of 25cts. or over and every additional purchase, large or small, is added thereto, and when the amount reaches \$10 we will take any photo you may bring us and have a life size portrait made from it which we will deliver to you free of cost.

An Electric Submarine Torpedo Boat.

Dr. Allen, a resident of Melbourne, has invented an electric submarine torpedo boat which, he claims, can be sunk to any depth and can be run as fast as a surface boat. It can be kept submerged, he says, for three days. A successful experiment with Allen's model was made last week in the presence of the Earl of Hopetoun and many naval and military officers. After seeing the experiments Rear Admiral Bowden-Smith gave the opinion that the boat was all that Mr. Allen claimed, and was destined to revolutionize naval warfare.

Personal.

R. A. Christie, of St. John, was in town yesterday.

Rev. W. Camp, returned on Saturday from his trip to Boston, etc.

Arthur DeForest, representing Geo. S. DeForest & Sons, St. John was here on Friday.

Mrs. N. C. Calhoun, of Amherst, was here on Thursday last visiting her sister Miss Emma Wallace.

A Letter of Condolence.

To Brother M. M. Tingley:
Whereas in the order of Providence it has pleased God to remove from our community and friendship, by the hand of death, after a lingering illness, your partner in life,

And whereas you and your family have sustained a very great loss and have met with great bereavement.

Therefore resolved that the members of the Division, of which you have been a member since boyhood, extend to you and your family our heartfelt sympathy, and trust you will look to the Great Patriarch above for comfort in this your great sorrow.

Signed in behalf of Golden Rule Division, No. 51, S. of T.
