## HOW IT STANDS.

During the last few weeks the Manitoba School Question has been the absorbing topic of conversation and many different opinions have been expressed as to the position of the matter from time to time. The question is asked, who is to decide whether Manitoba is to have separate schools or not? We answer, first the legislature of Manitoba; secondly, in case they refuse to adopt separate schools, then the Dominion parliament. The various steps in the case are as follows:

1st. The dissatisfied minority appeal to the Governor-General in Council. 2nd. The Governor in Council, after hearing counsel on either side has the power to decide whether the minority has been deprived of any right, and if it is decided that they have, can require Manitoba to amend its legislation, so as to remedy the wrong; or it can decide that there is no wrong and refuse to further interfere. In this case the Governor-in-Council has decided that there is a wrong and has requested Manitoba to right it. 3rd. The Manitobans can obey the request of the Governor-General in Council or can refuse to do so. 4th. If the Manitobans should refuse to amend their legislation as required, then the Governor-General shall, under section 22 of the Manitoba Act, lay the matter before parliament, and parliament may pass the required remedial legislation. Should parliament refuse to pass the legislation, that it would seem, ends the matter. Should parliament pass the remedial legislation, then the serious part of the whole business would arise, to compel the Manitobans to carry out the law so passed. If they should refuse to carry out the law and prevent it being done by force, this would constitute an act of rebellion. It is to be hoped that wise counsels will prevail and that there may be no resort to extreme measures.

## Hostilities Suspended.

TOKIO, March 29.—The Emperor of Japan has declared an unconditional armistice.

ST. PETERSBURG, March 29.—Admiral Rozhanski has received the decision of the Emperor of Japan, who declared an unconditional armistice, was greatly due to the extreme indignation aroused by the attempt on Viceroy Li Hung Chang's life.

WASHINGTON, March 29.—The news that an unconditional armistice had been declared by the Emperor of Japan was confirmed at the Japanese legation, and it was stated that a cablegram to this effect had been received from the home government.

China made the offer of the armistice and the peace plenipotentiary of Japan was empowered to accept without condition. This was done in view of the "unexpected event" that happened, viz., the attempted assassination of Li Hung Chang. The armistice, Minister Kurino of the Japanese legation said, would be effective until the peace negotiations are concluded. After a meeting of the peace ambassador had been decided on, China requested the declaration of an armistice, but this request had not been acted upon favorably by Japan. This government, Minister Kurino said, had not been inclined to stop warlike operations except on certain conditions. These conditions are not known, but it is suggested that probably the occupation of Taku might have been one, Japan wishing as a guarantee of the willingness and earnestness of the Chinese for an amicable settlement of the war. China evidently could not arrive at a conclusion to agree to the stipulation demanded by Japan, and the attempt on the life of the Chinese peace ambassador solved the problem for the time being and hostilities will be suspended. There will be no withdrawal of the Japanese troops from Chinese territories, however.

BANGOR, Me., March 29.—The people of this section were shocked last evening to learn of the suicide of Judge Elias J. Hale, of Foxcroft, who had been Judge of Probate for Piscataquis county for twenty years, and one of the most wealthy citizens of the county. The fatal deed was carried out under most unusual circumstances. Early in the afternoon Judge Hale went to the office and wrote a number of letters. After finishing his letter he handed one to his son, and directed him to go to the post office with it and to then go to the undertaker's establishment and bring the undertaker back to his office. The son did as directed and upon his return with the undertaker was shocked to find his father lying on the floor with blood oozing from his mouth and a revolver lying on the floor beside him. The judge was still alive but unconscious, and died in about an hour. He had evidently placed the revolver in his hand and fired a terrible wound being inflicted. He left a letter for his wife full of affectionate words, telling his reason for committing the deed. It appears he had completed some business matters before taking his life and sent off in the afternoon mail some letters on business matters, and seemed to have tried to leave his affairs as well fixed as possible. It is supposed temporary insanity was the cause of the suicide. He leaves a widow, a son and a daughter.

## SPEAKS OF MARITIME MINING PROSPECTS.

The Output of Coal Will Be Increased This Year More Than Last Gold Mining Prosperous—The Conservatives Are Solid.

Mr. R. T. A. Bell, of Ottawa, and secretary of the Canadian Mining association, was in Montreal the other day on his way home from Halifax, where he has been attending the meeting of the association. Mr. Bell was most enthusiastic over the mining and business outlook generally in the lower provinces. "Up here," he continued, "some people talk of hard times, and we must admit that things are slow in certain sections, but down by the sea there is nothing like depression. In fact, the four great industries of Nova Scotia, viz., coal, iron, gold and gypsum, are on the boom." Mr. Bell then went on to tell what a splendid effect the operations of the Dominion Coal company had upon the several towns outside of Halifax. The activity at Amherst was in fact found to be remarkable, and Mr. Bell instanced the establishment of Rhodes, Curry & Co., that it was little more than a planing mill a few years ago, but now employs nearly 300 men, and they have an order for 300 coal cars and 425 pit tubs besides passenger carriages, all destined for use of the Sydney and Louisbourg railway.

"A year the Dominion Coal company has produced one million dollars," added Mr. Bell, "and plant and equipment, and a very large expenditure will likewise be made this season, the towns of Amherst, Truro, New Glasgow and a good many manufacturing centres in Quebec and Ontario being largely thereby."

"Then you think the opposition to the Dominion Coal company which came from several Liberals and Conservatives in Nova Scotia has been ill-founded?"

"I am sure of it," was Mr. Bell's ready reply. "When they promised to extensively develop the coal industry of Cape Breton they were certainly acting in good faith, and their tremendous outlay of capital and output of coal justifies all that has been said in the company's behalf."

"Were you at the company's works?" asked the Gazette.

"No, but the details of the work have been all explained to me. Last year the output was almost a million tons, and they expect to exceed that figure this season. With all the improved cutting, mining and shipping facilities now at the company's disposition they have been able to greatly reduce the cost of production."

"Does this mean that the company will be able to ship largely to the States as well as increase the sales at the Lawrence ports?"

"That's it, exactly. The thin end of the wedge that was entered last year, when the strikes in American coal regions brought about a very large coal export to the States, is now being widened to the United States railway and manufacturers, I think we may look for the shipment of a great deal of coal to the Atlantic States of the Union this year."

"Did you hear of any new coal mining enterprises?" asked the reporter.

"Yes, I met W. Penn Hussy, of Massachusetts, who, as you know, is interested in the Broad Cove coal mines, and what I saw convinced me that active operations in the way of railway building and running will be pushed at that place this summer."

Mr. Bell here explained that Mr. Hussy had all the capital subscribed that he required, and was most hopeful of the result.

"But," suggested the reporter, "does not the success of the smaller towns of Nova Scotia militate against Halifax?"

"Not by any means. Although there are complainers in the old city she still remains the source of the heavy supplies for the mining districts, and cannot but share in the general prosperity of the province," Mr. Bell concluded by stating that he had never heard so much confidence expressed as to the gold mining prospects of Nova Scotia. Old methods have been discarded and new ones substituted, and everyone is of the opinion that a great deal of money is to be made out of the extensive development now going on in the gold mining centres of the province of Nova Scotia.

"Now for a word as to the political situation in the lower provinces," and Mr. Bell replied as follows: "I have nothing to do with politics, but the Conservatives are solid down there."

Hudson Bay fur sales in England this year are more valuable to sellers than in 1894. Several grades have shown enormous advances in price. Marten has doubled in value and white fox brought 150 per cent. more. The sale of marten is owing to the popularity of the collar made of a single skin. Nearly 105,300 of these skins were sold. The company must have netted \$40,000 by them alone.

Counsel representing Rev. Edward Owens and Mrs. Owens, in their now famous divorce suit at Halifax met Friday to discuss the matter of giving the custody of the youngest child to Mrs. Owens, on the ground that her mind is impaired. It was finally decided to have Mrs. Owens examined by two medical experts, and if they find Mrs. Owens is all right mentally, the child will be handed over to her and \$15 per month paid for the maintenance of her and the child.

A new morning paper to be known as the Boston Daily Standard was issued at Boston last week by the Boston Daily Publishing Company, of which Hon. Robert J. Long, editor of the American citizen, is president, and L. D. Dixon is treasurer. The Standard is under the management of Major Alfred S. Calhoun, and will consist of from eight to twelve pages, and will sell for two cents. It will be independent in politics and will receive the full news service of the associated press. The management announces the paper will start with a paid circulation of fifty thousand.

The Right Honourable Herbert Gardner, president of the British board of agriculture at London, received yesterday from Hon. A. R. Angers, Canadian minister of agriculture, his further report on the cattle question.

In the house of commons today John Long, member for Dundee, tried to draw Gardner out on the subject, but the hon. gentleman only promised to consider whether the report and the veterinary's statements of the suspicious case at Antwerp can fittingly be published. It is not believed that the board of agriculture intends to modify the embargo on Canadian cattle at present.
