An amusing incident happened the other evening at Springhill, in which Major Buchan, of the I. S. C. and Mr. W. A. Currie, the popular book agent, were the principals. The Major and Lieut. Mr. Currie drove up, put up his horse, and was entering the house when he was accosted by the Major and informed that he could not get in, as he (the Major) had the house for that evening. Mr. Currie immediately proceeded to enlighten the Major with regard to his authority or power for keeping him, or anybody else, from entering a public house, and requested him very politely to stand aside. TOPICS OF THE DAY.

What the Gossips have to Remark about

The Trend of Matters Political Parliamentary or Otherwise.

Some Touch-and-Go notices of all Mentionable Manner of Things.

Mr. Fred. Winters may well feel proud when he hears on all sides expressions of delight from those who have visited the Assembly room, and admired the decorating which has been done solely under his supervision.

* * * *

The storm which commenced Thursday morning and continued until Friday was the worst experienced this season, the light snow being whirled and carried in all directions by the heavy wind, leaving drifts in numerous places through our streets, seven and eight feet high.

* * * *

At last Tuesday's meeting of the city council the miscellaneous licence motion which has been agitated by Ald. Farrell was brought up and discussed at considerable length and resulted in the resolution being defeated by a vote of six to three.

* * * *

The water committee propose to charge the roads and street departments for water used this year. This has never been done before and consequently the result is an assessment for the water department this year of $2,200, or $1,300 less than last year.

* * * *

At Tuesday's meeting of the city council a resolution was passed expressing the regret felt by the council at the death of ex-Ald. Richey, who had, for many years occupied a seat at the board, and who had taken such a deep interest in the affairs of the city. The council's regret and sympathy for the bereaved family was entered on the minutes of the board and a copy forwarded to Mrs. Richey.

* * * *

At the council meeting the board had quite a warm discussion over a resolution made by Ald. Walker and seconded by Ald. Macpherson, with regard to the depositing of the Scott Act fines in the treasury for that purpose, and that the police be instructed to strictly enforce the act, also that any expenses caused by such enforcement be paid out of the monies collected from fines for the violation of the act. The resolution was carried by a majority of two.

* * * *

The estimated cost of the pumping engine, boiler and buildings required by the water committee is in the neighborhood of $5,000, and the cost of laying the proposed new mains will be about $1,000. The committee advised that a bill be prepared and submitted to the legislature immediately, asking authority to issue water debentures to the amount of $6,000, not exceeding 5 per cent. per annum, the proceeds to be used for the above purpose. The report was adopted by the council.

* * * *

The Indian Village and novelty exhibition which opened in the city hall last Monday night has been drawing full houses every night. The show itself is well worth seeing, while the medicine sold by Dr. Fry has been working wonders in the shape of relieving pain and curing—for a time at least—old men who have been cripples from rheumatism for years, who go there hardly able to hobble along with a cane and come away dancing, after being treated by the doctor.

* * * *

Quite a large number visited the C. P. R. exhibition car, which was here on Thursday last, although the heavy storm prevented many going. The car contained specimens of Manitoba grains of all kinds, both in the sheaf and threshed; also some magnificent specimens of wood, coal, gold, etc. The car was neatly decorated with the different specimens of game of that country, while all around were photographic views of points of interest on the plains and in the Rockies, making the car present an appearance that may well make the management feel proud of the exhibition.

* * * *

The water committee reported at the meeting of the city council this week that they deemed it necessary to provide an auxiliary pumping engine, boiler and building to meet any emergency that may be caused by the flooding of the engine house or the stoppage of the engines from any cause. They also reported that it has become necessary to lay a main from Charlotte street out the Bowery and up Victoria lane to connect with the main on Smyth street, the service pipe not being capable of supplying the number of houses lately erected there.

* * * *

In speaking of last year's crop, Mr. Geo. H. Ham, travelling passenger agent of the C. P. R., says that 19,000 farmers in Manitoba raised enough grain to buy out, lock, stock and barrel, the whole of Prince Edward Island. They averaged $1,000 a piece, and the earnings of every man, woman and child in Manitoba was over $200. He went on to say that 2,700 young men went out there last fall to help in the broad harvest fields and over one half remained. There was a steady stream of immigration pouring in, not a small portion coming from Dakota which was once supposed to be the great wheat country, but which sunk into insignificance beside the record of Manitoba and the Canadian Northwest.

Mr. Stevens, who has really never seen much fancy skating, was complimented on the excellent showing he made against Rubenstein, who has been skating for years in all parts of the world and had every chance to learn the most difficult movements. He is a graceful and easy skater. His specialties include flowers, fancy anvils, double anvils and spinning. Stevens was weak in the movements which required strength of limb. Rubenstein made 35 points and Stevens 25.

Our boys scored a victory from St. Stephen at curling on Monday. They came out two points ahead. J. R. Howie excelled himself, and there appears to be no doubt that he won the game.
