A Missionary Service.

The congregation of the Free Baptist church enjoyed a treat last Sabbath evening in the shape of a missionary service. Instead of the regular service the pastor read the reports from the missionaries sent out to India by the Free Baptist church of this city, after which the choir sang an appropriate hymn. The Rev. Mr. Hartley then gave a description of India, in which he was ably assisted by Master Allie Yerxa and Frank Vanwart, who had been called upon the platform and answered numerous questions relating to the population, demotions, etc. Miss Lottie Vandine then read an essay on mission work, being followed by a recitation from Lily McKenzie, assisted by the choir. Mr. Stanley Downing was then called upon and gave a reading, after which Mr. Hartley, in a short, plain and forcible manner addressed the congregation. In concluding he requested them to give as liberally as possible to support the grand work which was being done by the missionaries.

City Council.

The first regular meeting of the city council took place last Tuesday evening. The only business of importance transacted, outside of the regular routine business, was the appointment of assessors, over which there was a lively time. Ald. Macpherson nominated W. J. Crowdon for the position, the assessor, James Farrell, being nominated by Ald. Duffie, but the nomination was withdrawn by the request of Ald. Farrell, who spoke on behalf of his brother, and said that his brother would not accept the position at that reduced salary. Ald. Macneut then nominated A. S. Murray. The council divided evenly between Mr. Crowdon and Mr. Murray, the mayor giving the casting vote in favor of Mr. Crowdon. The assessor's salary was reduced from \$250 to \$225 on motion of Ald. Macpherson. Messrs. Geo. A. Cluff, David H. Barker and Michael Conney, were put in nomination, the two former (the older assessors) being elected.

In the goal at St. John on Monday Frederic Graf received twenty lashes while tied to the stair railing in the upper corridor. The turnkey held the cat and performed the work in 29½ seconds. The caretaker of the public building at Annapolis, N. S., a constable and prominent salaried man, was last week brought before the stipendiary magistrate there on complaint of the water commissioners, for selling water to a colored family from a tap in his barn, receiving pay therefor and pocketing the proceeds. He was convicted for the offence and fined. It is reported that there are several other charges of the same nature to be brought against him.

The firemen were called out about half past six o'clock Sunday morning and found the residence of C. S. Brannen, Carleton street, on fire. The fire, the origin of which is unknown, was promptly extinguished, but the damage to the interior of the building, which is owned by N. Vradenburg, was appraised at \$145. Mr. Brannen's furniture was considerably damaged. He had no insurance. The building was insured. One of the children was nearly suffocated before it was got out of the house.

A deadly type of diphtheria is prevalent at Murray river, Kings county, P. E. I. The Examiner says it first appeared in the family of Mr. Dunn, whose two children and wife died after a week's illness. Then two brothers of Mrs. Dunn, named Saunders, were attacked, and despite the unceasing efforts of Dr. Kier, both succumbed. It then attacked a young man named Hart, and notwithstanding all that Dr. Kier and McIntosh could do he too died. A daughter of Mr. Hart is now lying at the point of death, and the people in the vicinity are in dread anxiety. In every case the disease has proved fatal.

The pie social and entertainment held in the Temperance Hall, Oromocto, Friday evening last, for the benefit of a poor family at that place, netted some \$30. The entertainment proved a success in every particular. Miss E. Bridges sang a solo very acceptably. D. A. McSorley and Manzer Smith delivered a dialogue which was well received; Mr. and Mrs. Bridges, a solo, Chas. White a recitation and Dr. and Mrs. Bridges a duet. After the programme the pies were brought out and auctioned, part by Mr. Henry Mitchell and part by Mr. Alfred Treadwell. All left the hall feeling pleased with the entertainment and also that they had given the money to a most worthy object.

A Great Mistake.

It seems to us like a great error in the new city council in cutting down the salaries of the assessors from \$250 to \$100, on the part of the chief, and from \$50 to \$25 to each of the assistants. If there should be a well paid official it should be a chief assessor, for although his duties may appear to fall upon him heavily at only a particular season in the year in making up the lists, it is not so, for if he does his duty, he must be on the quiver all the year through in watching new comers, and bringing to light those who have hitherto escaped, and no man has been more faithful in the city's interests than the late incumbent, Mr. James Farrell; and it is to be hoped that his successor will be equally zealous, and we do not doubt it, but how can he give the same amount of time to the work that Mr. Farrell did, for \$100 a year, he best knows himself. When you have a good faithful servant hold on to him, for you have a prize—for the sake of saving, as you imagine you do, \$150, by this reduction, the great mistake is presented in the question are you not losing a thousand. Verily we believe so. The proper salary to a chief assessor in Fredericton is \$500—not a cent less. In St. John the chief assessor receives \$1600, and is a permanent officer; and he has two assistants at salaries amounting to \$1200 each, if we are correctly informed. Aldermen we think you have made a grave mistake!

A DETROIT MIRACLE.

A Great Triumph For Canadian Medical Science.

Particulars of the Most Remarkable Cures on Record Described by the Detroit News—A Story Worth a Careful Perusal.

DETROIT, Mich., Jan. 28th, 1882.—A case has just come to light here, the particulars of which are published in the Evening News, which will be read with considerable interest by all Canadians, as it records the remarkable achievement of a Canadian medical discovery, which has already, in its own country, won great and enduring fame. At this added triumph there is no doubt the patriotic countrymen of the proprietors will rejoice as it sheds lustre on Canadian science. The story is told by the News as follows:—

The following paragraph, which appeared in the News a short time ago, furnished the basis of this information—a case that was so wonderfully remarkable that it demanded further explanation. It is of sufficient importance to the News' readers to report it to them fully. It was so important that it attracted considerable attention at the time. The following is the paragraph in question:—

"C. B. Northrop, for 28 years one of the best known merchants on Woodward avenue, who was supposed to be dying last spring of locomotor ataxia, or creeping paralysis, has secured a new lease of life and returned to work at his store. The disease has always been supposed to be incurable, but Mr. Northrop's condition is greatly improved, and it looks now as if the grave would be cheated of its prey."

Since that time Mr. Northrop has steadily improved, not only in looks, but in condition, till he has regained his old-time strength. It had been hinted to the writer of this article, who was acquainted with Mr. Northrop, that this miraculous change had been wrought by a very simple remedy called Dr. Williams' Pink Pills for Pale People. When asked about it Mr. Northrop fully verified the statement, and not only so, but he had taken pains to inform any one who was suffering in a similar manner when he heard of any such case. Mr. Northrop was enthusiastic at the result in his own case of Dr. Williams' Pink Pills. It was a remedy that he had heard of after he had tried everything he could hope to give him relief. He had been in the care of the best physicians who did all they could to alleviate this terrible malady, but without any avail. He had given up hope, when a friend in Lockport, N. Y., wrote him of the case of a person there who had been cured in similar circumstances by Dr. Williams' Pink Pills for Pale People. The person cured at Lockport had obtained his information respecting Dr. Williams' Pink Pills from an article published in the Hamilton, Ont., Times. The case was called "The Hamilton Miracle" and told the story of a man in that city who, after almost incredible suffering, was pronounced by the most eminent physicians to be incurable and permanently disabled. He had spent hundreds of dollars in all sorts of treatment and appliances only to be told in the end that there was no hope for him, and that cure was impossible. The person alluded to (Mr. John Marshall, of 25 Little William St., Hamilton, Ont.) was a member of the Royal Templars of Temperance, and after having been pronounced permanently disabled and incurable by the physicians, was paid the \$1,000 disability insurance provided by the order for its members in such cases, for years Mr. Marshall had been utterly helpless, and was barely able to drag himself around his house with the aid of crutches. His agonies were almost unbearable and life was a burden to him, when at last relief came. Some months after he had been paid the disability claim he heard of Dr. Williams' Pink Pills and was induced to try them. The result was miraculous; almost from the outset an improvement was noticed, and in a few months the man whom medical experts had said was incurable, was going about the city healthier and stronger than before. Mr. Marshall was so well known in Hamilton that all the city newspapers wrote up his wonderful recovery in detail, and it was thus as before stated, that Mr. Northrop came into possession of the information that led to his equally marvelous recovery. One could scarcely conceive a case more hopeless than that of Mr. Northrop. His injury came about in this way: One day nearly four years ago, he stumbled and fell the complete length of a steep flight of stairs which were at the rear of his store. His head and spine were severely injured. He was picked up and taken to his home. Creeping paralysis very soon developed itself, and in spite of the most strenuous efforts of friends and physicians the terrible affliction fastened itself upon him. For nearly two years he was perfectly helpless. He could do nothing to support his strength in the least effort. He had to be wheeled about in an invalid's chair. He was weak, pale and fast sinking when his timely information came that verily snatched his life from the jaws of death. Those who at that time saw a feeble old man wheeled into his store on an invalid's chair, would not recognize the man now, so great is the change that Dr. Williams' Pink Pills have wrought. When Mr. Northrop

learned of the remedy that had cured Mr. Marshall in Hamilton, and the person in Lockport, he procured a supply of Dr. Williams' Pink Pills through Messrs. Basset & L'Hommedieu, 95 Woodward Avenue, and from the outset found an improvement. He faithfully adhered to the use of the remedy until now he is completely restored. Mr. Northrop declares that there can be no doubt as to Pink Pills being the cause of his restoration to health, as all other remedies and medical treatment left him in a condition rapidly going from bad to worse, until at last it was declared there was no hope for him, and he was pronounced incurable. He was in this terrible condition when he began to use Dr. Williams' Pink Pills, and they have restored him to health.

Mr. Northrop was asked what was claimed for this wonderful remedy, and replied that he understood the proprietors claim it to be a blood builder and nerve restorer; supplying in a condensed form all the elements necessary to enrich the blood, restore shattered nerves and drive out disease. It is claimed by the proprietors that Pink Pills will cure paralysis, rheumatism, sciatica, palpitation of the heart, headache, and all diseases peculiar to females, loss of appetite, dizziness, sleeplessness, loss of memory, and all diseases arising from overwork, mental worry, loss of vital force, etc.

"I want to say," said Mr. Northrop, "that I don't have much faith in patent medicines, but I cannot say too much in praise of Dr. Williams' Pink Pills. The proprietors, however, claim that they are not a patent medicine in the sense in which the term is used, but a highly scientific preparation, the result of years of careful study and experiment on the part of the proprietors, and the pills were successfully used in private practice for years before being placed for general sale. Mr. Northrop declares that he is a living example that there is nothing to equal these pills as a cure for nerve diseases. On inquiry the writer found that these pills were manufactured by Dr. Williams' Medicine Co., Brockville, Ont., and Morristown, N. Y., and the pills are sold in boxes (never in bulk by the hundred) at 50 cents a box, and may be had of all druggists or direct by mail from Dr. Williams' Medicine Co., from either above addresses. The price at which these pills are sold makes a course of treatment with them comparatively inexpensive as compared with other remedies, or medical treatment. This case is one of the most remarkable on record, and as it is one right here in Detroit and not a thousand miles away, it can be easily verified. Mr. Northrop is very well known to the people of Detroit, and he says he is only too glad to testify of the marvelous good wrought in his case. He says he considers it his duty to help all who are similarly afflicted by any word he can say in behalf of the wonderful efficacy of Dr. Williams' Pink Pills. If any of the News readers want any further information, we feel sure Mr. Northrop would willingly oblige them, as he has the writer in relating these facts to him.

AND THE MINISTER FLED.

Serious Charges Against a New Jersey Clergyman Cause His Disappearance.

CAPE MAY, N. J., Feb. 1. Friday night, Lidie Church, aged 19 years, a domestic in the house of Rev. E. F. Mr. Sherman is pastor of the tabernacle Methodist church and teacher of the public school there. He is the father of five children. The pastor has been shepherd of the fold for two years. The pastor dropped a hint that the grandfather of the boys in Kansas had sent for them. Whether he has gone there is not known. The children left with the grief-stricken mother are less than four years of age.

At the special meeting of the City Council, the following resolution was unanimously passed, on motion of Ald. Farrell, seconded by Ald. Gilman.

Whereas, questions have been raised as to the legality of the city leasing any portions of the alms house ground, or using the same for other purposes than alms purposes, and it is deemed advisable to avoid any litigation by resuming possession of the lands now leased and hereafter devoting them to the purposes solely for which they are held by the city and Alms House Commissioner;

Therefore Resolved, that the lease from the city to the late John Edgcombe of the Alms House lot fronting on York street, terminate at the expiration of this present term, and possession then handed over to the Alms House Commissioner for alms purposes, and for that purpose, that a notice to quit on the first day of May next, directed to the proper representative of the estate of the late John Edgcombe, be made out and executed under the city seal, signed by His Worship the Mayor and city clerk, and forthwith served on said representative of said estate.

Spurgeon Dead.

The famous preacher, Mr. Spurgeon, died at Mentone shortly after 11 o'clock on Sunday evening last. His end was painless, and he remained unconscious to the last.

Charles H. Spurgeon was born at Kelvedon, Essex, Eng., June 19th 1834, was educated at Colchester, Maidstone, and elsewhere, and became usher in a school at Newmarket. Having adopted Baptist views he joined the congregation which had been presided over by the late Robert Hall at Cambridge. He subsequently became pastor at Waterbeach, and his fame as a preacher reaching London, he was offered the pastorate of the church meeting in New York street chapel, in South-west. Mr. Spurgeon first preached before a London congregation in 1853, with so much success that, ere two years had elapsed, it was considered necessary to enlarge the building, pending which alteration he officiated for four months in Exeter hall. The enlargement of the chapel in Park street, however, proved insufficient and hearers multiplied with such rapidity that it became expedient to engage Surrey music hall, and Mr. Spurgeon's followers determined to build a suitable edifice for their services. The Metropolitan Tabernacle was opened in 1861. Mr. Spurgeon continued in charge of the Tabernacle up to quite recently when he was taken down with the disease from which he died.
