A COMPLAINT.—The people on the upper part of Main street are complaining that the watering cart does not visit them with the frequency that it visits other sections of the town. They don't care so much for the sprinkling part of it as they do for a sight of the cart in its new suit of blue.

BICYCLE CLUB.—At the meeting of the W. B. C. on Wednesday evening a constitution and by laws were enacted. Seventeen men signed the roll and a large number of them paid their fees. Guy Balloch, Centreville, and Wallace Gibson, Benton, were elected members. The club is in a thriving condition.

DEATH OF DR. OSBOEN.—A recent dispatch from Santi Fe, Mex., states the death of Dr. W. H. Osborn. Dr. Osborn was a son of Mr. Henry Osborn, for many years manager of the New Brunswick and Canada Railway. The deceased had suffered from delicate health for some time past, and had gone to Mexico to recruit. He was several years ago in the office of Superintendent Stewart, at this town. He had many friends here who will be sorry to learn of his death.

The two mills erected last season have an enlivening influence on the place, and there will be considerable building there the present season.—Beacon Fort Fairfield.

Every attempt was made by the drive who were working at this point to rescue the young man, but unsuccessfully. He was between 15 and 16 years old.

FIRST OF JULY CELEBRATION.—There is a disposition among the young men of the town to have something of a celebration on the first of July. Whenever the citizens have put themselves out for something of this kind they have made a success of it. THE WOODSTOCK CRICKET CLUB met on Thursday evening last in THE DISPATCH office. Fred Hay, F. S. Wilbur, Albert Fields and Arthur Hay, were elected new members. The club decided to have their grounds put into condition at once. It was thought not advisable to send a challenge to the St. Andrews club for the 24th, of May as the time was too short. The cricket crease in the Woodstock driving park has been leased for the season from J. R. Murphy. The club will go into practice as soon as the grounds are ready. The club would like to have all the young men in town who are interested in this delightful sport, join them.

In connection with the deanery, at a meeting of clergy and delegates to the Synod, held on Monday afternoon last in the parish hall, Rev. E. W. Simonson, was elected to the position of governor of King's College, Windsor.

THE HARTLAND FERRY.—On Tuesday of last week about noon, when Charles Steeves was running the wire ferry at Hartland, he tried to turn the boat near the middle of the river. When he got her broadside to the current the force of the water broke one of the guiding ropes. Mr. Steeves lost control of the wheel which flew around, one of the spokes striking him in the head inflicting a severe injury. When the rope snapped, the jerk broke the top off the derrick on the Hartland shore and let the wire down into the water. The proprietors of the ferry worked industriously and under extremely dangerous conditions to get the ferry into running order again. They repaired the derrick, but on Thursday night before they could hoist the wire out of the water a heavy jamb of logs off the Florenceville bridge struck it and broke it. Up to Tuesday when the first accident occurred the ferry had been running in good shape. The proprietors were in Woodstock on Friday and Saturday trying to secure the little steam boat that plied between Woodstock and Grafton, but at last accounts they had not been successful. It will not be possible to string another wire across the river for some time.
