

CORRESPONDENCE.

Edmundston.

FEB. 28.—The weather has been lovely for the last few days.

There was a magic lantern show in George Ringue's hall last Tuesday. It was given by Solomon Boot and was fairly well attended. After the show we enjoyed a dance till about two o'clock in the morning.

George A. Murchie, mayor of Calais was in town a few days last week.

When the trains arrive now all you hear the store keepers say is well how many "commercial bums" are there on board?

The rink is being well attended this winter. There is some talk of having a carnival. All hope they will have one.

R. Duborh, Whithead & Turner's popular traveller was in town yesterday.

T. C. L. Ketchum Esq. of THE DISPATCH was in town today.

Men are coming out of the woods in large numbers now. They are hauling off the yards now and do not need so many men.

E. E. Brayley of the well known drug firm Brayley Sons & Co., Montreal was in town this week.

Rev. Mr. Hopkins preached here Sunday in the Church of England. There was good congregations both morning and evening.

Jas. Murchie & Sons have eight teams hauling off the yards at Yexxa's camp.

Tom Fisher came in on the C. P. R. today.

Jos. Brunella traveller for E. N. Heney & Co., Montreal, harness, waggons, etc. left for Montreal yesterday.

Both C. P. R. and T. R. R. had outspecials yesterday with wing plows to clear the tracks.

Esdrælon.

It is a matter of gratification to the people of Aberdeen and immediately surrounding districts to know that Gillman Bros., with their usual enterprise and energy, have built and started a fine new saw mill at Esdrælon—a species of factory which has long been much wanted in this district of the county. Hitherto we have been dependent for our supplies of building material—boards, shingles, clapboards, etc.—on the mills at Foreston, Argyle and Bristol. All these places are of considerable distance (seven and eight miles) from Glasgville, our great business centre, and as the roads—especially that to Bristol—are not the easiest, it will now be a great relief to farmers and builders to be able to haul their logs to the Esdrælon mill, get them sawed at once, and return home with their manufactured "stuff." Gillman Bros. have always stood at the top of the tree as manufacturers of lumber, their boards, etc., having always been noted for uniformity in sawing. They have already been engaged in the past in the erection and equipping of several saw mills, and know just exactly what in such factories is wanted to secure a reputable and paying business. In addition to the usual sawing apparatus the Esdrælon mill has been fitted up with planing and shingle machines, mather, and furnished with every modern improvement. Teams are at present busy hauling logs there from all quarters, and the mill site is near the convergence of several district roads it presents every facility for success to builders and others. Gillman Bros. have likewise, within a few rods of the saw mill a very fine grist mill, fitted up with a wool carding machine which turns out first class work.

Debec.

MARCH 4.—Miss May Harron and Ethel Dickinson have returned home after spending a week with friends and relatives at Benton.

The Wilson brothers, Hartford were visiting relatives at Debec last week.

Mrs. Davis of Woodstock, is the guest of Mrs. Robert Kirkpatrick.

Mrs. McDonald of Hodgdon, was the guest at Mr. T. E. Henderson's last week.

Revd. S. Howard of Hampton, and I. Howie of Gibson, former pastor of the Richmond circuit, paid Debec a visit a short time ago.

Our Sunday school is in a flourishing condition. Last Sabbath it was visited by Mr. Thos. Forest, supt. of Oak Mountain Sunday school, and Mr. Thompson Flemming, both of which addressed the school.

The Home Mission concert in the Baptist church was quite well attended. The recitations were well rendered and the singing was excellent. The collection amounted to about \$9.00. The same concert is to be repeated at Union Corner on next Monday evening.

Miss Ada Flemming gave a party a short time ago. A very pleasant evening was spent, and all enjoyed the excellent stew.

On Wednesday evening of last week a large number of invited guests had a most enjoyable time at Miss Fannie Alexander's home on Broadway Av. George and Willie furnishing music on the harmonica which was highly appreciated, and it is needless to say all enjoyed the lunch.

A prominent young couple of this village, taking advantage of the fine roads and beautiful weather, paid Bloomfield a short visit.

Sandy finds no trouble in disposing of his "fresh herring," as our teacher is very fond of that dish.

Andover.

MARCH 5.—Court meets today. It is expected that only one case will be tried. There are two others but they will probably be postponed until September.

Mr. Hilyard, of St. John, who is supplying lumbermen on the Tobique, was in town today on his way to the lumber woods.

For two weeks preceding Lent, Andover was a scene of unusual gaiety. Hardly a night passed without a party or similar amusement. On Monday, the 18th, a progressive whist party was given by Mrs. Perley and Mrs. Waite. About 50 were present, and all enjoyed themselves. One gentleman was made especially happy on being presented with the booby prize, a tin monkey, capable of running up and down a string.

On Wednesday night a party drove over to Fort Fairfield to attend a musical show got up by the people of the Episcopal church of that place.

On Thursday night a surprise party visited Mrs. Baird, of Perth, and were very pleasantly entertained.

Saturday evening a surprise party met at the house of Mrs. Joseph Porter.

Monday night a dance was given by Miss Edith and Miss Maggie Tibbits. A large number accepted invitations and thoroughly enjoyed themselves. Dancing was continued far into the morning. The "beau of the ball" was a tall dark gentleman in a dress suit.

On Tuesday evening a lecture by Rev. Mr. Nicholson, and an oyster supper were given for the benefit of the Episcopal church.

Perth.

MARCH 5.—Business is quite dull at present. Goslin Bros. have repaired their steam saw mill all over this winter and in addition have placed another shingle machine and a rotary in the mill. They have a large quantity of shingle rift and spruce logs on the ground. Sawing was resumed the first of the present month. They are very industrious young men and deserve lots of credit.

The engine on the west bound freight train today, broke down on Andover bridge. The engineer had a very narrow escape from going through the bridge while repairing the engine.

Miss Nellie Murchie of St. Stephen, and Nellie Sadler of Long Island, are the guests of Mrs. Geo. T. Baird.

About ten days ago a crowd of young folks, numbering thirty or more, met at Mrs. Baird's for the purpose of a surprise party to her guests, the young ladies took baskets. All enjoyed a very pleasant time playing whist and other amusements, tea was served at midnight.

Last Sunday night's service was dismissed by the cry of fire. The residence of Wm. Curry at Andover was totally destroyed, and by a hard light the barn and other buildings were saved. The building was insured for \$1000, the furniture was all saved with very little damage.

East Florenceville.

MARCH 4.—Fred Boyer and his sister were in the village on Sunday visiting their brother, S. K. Boyer, the merchant of this place.

Mr. Alonzo Taylor is home out of the woods.

Mr. Williams while threshing for Ben McIsaac, last week, had one of his horse's legs broken.

The ash teams of Woodstock are in the town today.

Mr. Arthur Taylor has returned from his trip to Grand Lake.

Alvin Clark, agent for Balmain Bros., will store his machinery in Mr. D. Semple's new building during the summer.

Mr. Thomas Murphy has gone to Presque Isle to act as station agent at that place.

Bedell Settlement.

MARCH 4.—Mr. S. Vailase is visiting friends in this place.

Miss Harriet Kirk spent a few days with relatives here.

Mrs. Cyrus Vanwart is visiting her mother, Mrs. Robert Forrest.

Mrs. John Kirk is very sick, but under the skillful treatment it is hoped she will soon recover.

Visiting is the order of the day among our neighbors.

Mrs. Alex. Benn spent a few days with her mother, Mrs. William Montgomery.

FRENCH NEW BRUNSWICK.
(CONTINUED FROM FIRST PAGE.)

Perth and Andover are to all interests and purposes one place. The traveller who has business in Perth puts up, generally, at Andover. But he will find good accommodation on the east side of the river if he chooses to stay there. Mr. A. W. Turner keeps a good hotel, and at the other end of the town is the house run by Mr. Enoch Lovely. I was pleased with one thing in Perth. Everybody spoke well and hopefully of business. As a matter of fact, you will find less talk of hard times out side of Woodstock than within the town. Whether these small centres have picked up a lot of business that was done in Woodstock, and which the people of Woodstock still think should be done here, I do not know; but it is quite plain to anyone travelling through the country that "hard times" is a local cry more heard in town than in the villages round about.

Perth is greatly interested in the lumber trade. In fact lumber is the great topic of conversation, and almost every man is more or less concerned in this industry. The people up there told me that the lumber industry on the Tobique was being prosecuted much more vigorously this year than for any year past. The is 20,000,000 of lumber up the Tobique to come out in the spring, and this has given work to many men, who will have some money to spend when they get out of the woods. The people in Perth say that lumbering operations this year are far ahead of any that have been carried on for years past. If you should ask me anything about the political situation up river, I would simply have to reply that it depends upon what side of politics you are as to your belief in the result of the coming contest. Mr. Costigan has lots of friends—he seems to be a man who has an unusual number of personal friends—but he has also some enemies, and the enemies talk as if they meant to make things lively for the minister. Politics are taken pretty hard with us in Woodstock, and we are not slack to condemn our opponents who hold different political views from ourselves. But, in Victoria county, politics is still more lively than with us,—although if you were to ask the people on what great principle they were divided, you might have some difficulty in getting a satisfactory answer. But, they have personal reasons for voting this way or that way, and personal considerations are, after all, a good factor in all elections.

C. Donnelly prop. of the popular and well known Windsor, Hotel, Alliston, Ont., was troubled for years with Itching Piles. He was persuaded by Jas. McGarvey, Alliston, livery man, to use Chase's Ointment, which he did, was cured, has had no return of them and highly recommends this Ointment as a sovereign cure for Piles.

MARCH!

Month When 'Tis Easiest
to Regain Health.GET STRONG BEFORE DEBIL-
ITATING SPRING COMES ON.Feed the Worn Out Brain with
Paine's Celery Compound.LET CHANGING SEASON FIND
SYSTEM IN HEALTH.TAKE THE GREAT REMEDY THAT
MAKES PEOPLE WELL.

A perfectly healthy body has its parts completely nourished and its nerves constantly refreshed and stored with energy from the vigorous blood that all the time bathes it.

But to do this important work of conveying sufficient nutrition to the tissues, the blood must be kept rich and full of red corpuscles.

The only trouble with two-thirds of the men and women whom the coming spring will claim for its victims, is a pitiful lack of proper nerve food. What these weak nervous people need is a more general feeding and storing of their blood and tissues with fresh, highly vitalized material. There is undoubtedly nothing that can compare with Prof. Phelps' remarkable discovery, Paine's Celery Compound, for restoring health and strength.

The great body of physicians throughout the United States, England and Canada, believe profoundly in it, and prescribe it in all cases of nervous weakness and debility. In preparing this greatest of all nerve tonics and blood renewers, the eminent professor of Dartmouth college, Edward E. Phelps, M. D., LL.D. had in mind the countless men and women with brains overworked and nerves unstrung by worry and lack of proper nutriment.

Clerks, their employers, lawyers, doctors, mothers of families, hard working men and women in every county and province, and hosts of brain workers—the most intellectual part of the community—are today taking Paine's Celery Compound, with the happiest results, to relieve themselves of rheumatism, neuralgia, nervous exhaustion, dyspepsia, sleeplessness and low spirits. Paine's Celery Compound cures diseases of the important organs of digestion, circulation and excretion, by purifying the blood, by regulating the entire nervous system and supplying the body with strength to combat disease.

Paine's Celery Compound makes people well. It takes away all the tremor and irritability from the nerves, and gives that calm, strong feeling of assured health and invariably accompanies a perfectly well-nourished bodily system.

Get rid of languor, clear the muddy, unhealthy skin, pump out the body and get back to a normal vigorous condition with Paine's Celery Compound, and begin now.

Spoons.—W. B. Jewett, has a Woodstock souvenir coffee spoon in six patterns. The new bridge is a prominent feature in the decoration of the spoon.
