Hartland.

JULY 16.—There is still another "hitch" in the waterworks, and all work is suspended. Chas. McCormick who has been constructing the reservoir has been called away on other duties and cannot resume the work for at least a fortnight, and all the men that were employed digging have stopped work on account of no pay. The contractor, John Thomas cannot pay the men until the 20th inst., when he can draw money for his contract from the corporation. Then again Coun Bradley has tendered his resignation giving no reason therefore excepting that the duties of office were too arduous. Just how the various crooks will be straightened is a question?

Last Wednesday could not have been more adapted to picnicking had the day been made to order, and very early in the morning people from all quarters began flocking into the village to take in the Forester's Picnic. The trades procession was exceedingly short not particularly sweet. The parade was led by the Centreville Mechanics Band. Following was Richardson & Keith's wagon bedecked with the Maritime Wrapper Company's goods, and C. Humphrey Taylor's load of farming machinery brought up the rear. J. T. Carr had a well gotten up exhibit but his horse, either to distinguish himself, or to distinguish the parade ran away and threw the load over a fence. The dinner tables, set in the tent, were luxuriantly loaded and 500 hungry people sat down thereto and did ample justice thereby. The sports indulged in savoring of chestnuts, nothing original being introduced. The fruit stands and drinks, and the dance floor, were particularly well patronized. The concert began at five o'clock and was a success in every way reflecting credit upon those who had the affair in hand.

A young man named Stockford Lansdowne, employed in the back woods near Debec had the misfortune to cut his foot very badly. Dr. Hammond of Debec dressed the wound. The injured man came up on the express today and was placed under the care of Dr. Estey.

Mr. Harvey Day and wife and Willie Day, all of Boston come on the express today to spend the summer in Somerville, with the former's father, Maurice Day.

Chas. Hurst is building a house on the hill, Richardson & Keith and Mrs. Oscar Thistle are building on the new street running parallel with the railway in the lower part of the village; and George Johnson is building a residence half a mile below the village.

John Thomas has opened his kiln and is well pleased with the quality of the brick. William Faulkner who had charge of the making and burning of the kiln and has been at the work for 50 years says the article turned equals that coming from Gibson; and that if one of the newly patented machines were put in a good success would be made of the venture. It certainly is to be hoped that Mr. Thomas will do well in his venture. Many have talked of utilizing the bank of clay back of the village, but it remained for him to show the pluck and energy to do the practical thing.

Archdeacon Neales held his regular monthly service in the Methodist church last Thursday evening.

Haying commences generally today notwithstanding the extremely droughty weather the crop in many instances is very good, and on the whole will be average.

The Hotel American changes hands today. Joseph Waugh who recently built a house and started a beer saloon on the next lot has bought Mrs. Mason out, and has fitted the building with new furniture and intends conducting a first class commercial house.

Miss Ina Semple, of East Florenceville; Mrs. Thistle, of River de Chute; Miss Vanwart of Waterville, and L. R. Hetherington, of Bathurst, have been visiting friends in the village the past week.

C. T. Mason, of Lowell; Donald Matheson and Mrs. J. E. Barra, of Halifax, have arrived to spend their respective vacations here.

JULY 13.—Mrs. Cameron of the Girls Industrial School, Glasgow, was in Bristol on Thursday, looking after some of the girls who are located in this section. She appeared to be very much dissatisfied by the way some of her pupils had been treated, and said that no more would be sent to New Brunswick from that institution.

P. R. Inspector King is making an official visit to the offices here.

Major Vince made a short visit to Bristol on Thursday, calling on Dr. Atkinson, who is now confined to his home by illness.

Moody Rogers is building a large barn, the frame was raised on Thursday. Haying has commenced and needless to say it is a very light crop—not much more than half of an average cut. Grain, however, is looking remarkably well and promises an abundant harvest.

The local Orangemen and many others went to Simonds yesterday to participate in the celebration there, and report having a grand time, the day being all that could be desired.

Mr. Blizzard has removed his barber shop to a building nearly opposite the station.

JULY 15.—Miles Daggett of Smyrna Mills, Me., has been visiting friends in this vicinity for the past two weeks.

Frank Pearson spent a few days of last week at his home. He returned to Woodstock on Monday to resume his duties as clerk in Dalling's jewelry store.

Rev. Mr. Lewin preached a very instructive sermon in the F. C. B. church on Sunday last. He supplied for the pastor, Rev. G. Swim, who is visiting friends in Westmorland Co.

The sound of the mowing machine is again heard in the neighborhood. Many farmers began haying the first of the week.

Three new barns have been put up in this place during the summer, owned by Gordon Day, Addington Babar and Page Redout, respectively.

The steam mill in this vicinity is kept running night and day. On Saturday last what might have proved to be a serious accident happened to Mr. P. Shaw. While he was feeding the planer a clapboard flew back and struck him inflicting a painful wound. He was rendered unconscious for a time. That evening he was removed to his home in Simonds. It is hoped that he may soon be able to resume his duties.
