The statue thor is being performed on the roads and no doubt considerable improvements will be made. The supervisor's attention should be drawn to the fact that nothing has been done towards filling up that dangerous hole in the main road near Mr. Sam Darkes; and that it should not be neglected any longer. A portion of the road was completely carried away by the freshet

last spring, and it has never been replaced.

Mr. Earl Carroll, of Ontario, who has been establishing lodges of Patrons of Industry in this Co., was in Bristol a few days last week, the guest of Rev. Mr. Brooks. Mr. Carroll has organized fifteen Patron Lodges in this County and is much

gratified with his success so far.

We do not know whether they will become the fourth party in the next Dominion election or not. Rev. C. T. Phillips, was in Bristol on Saturday, and several drove down to Florenceville on Sun-

day morning to hear him. His service took place at the camp of the Brighton Engineers. The last few days have been showery and very favourable for the growing. The river is raising

some since the rains.

Mr. Bliss Duffy has returned to his home in Parrsboro, Nova Scotia.

JUNE 29.—The rain of last week has done much to start the grain and potatoes in this part of the county. Hay may not be as light as was first expected if cloudy weather continues

It is rumored that Mr. and Mrs. T. S. Briggs are thinking of spending the summer on their farm in Littleton, Me.

The school here closed this week, the teacher will be much missed in religious circles.

Everything is so monotonous here. Why can't someone get married so that we can have a

I have noticed of late society circles have been agitated by the question of "dress reform." I am glad to see that the women of this locality belong to the class of "womanly" women and do not catch the fever for "divided" skirts or "bloomers." I noticed that your correspondent of last week suggested that E. L. Carter go to "France" I would say—"Eel" stay at home and mind your

Rev. Mr. Smith who has been preaching in the Methodist district for the past year preached his farewell sermon on Sunday. He goes to the Hartland church for the next year. During his stay here he has made many friends in all the different denominations and his departure is much to be recreated.

Mr. Allen McLellan is putting a new coat of shingles on the roof of his barn which will add much to its appearance. Who saw the Bear?

East Florenceville.

July 1.—When a representative of The Dis-PATCH was in East Florenceville last week Mrs. A D. Hartley wife of Major Hartley showed him an exhibition of curiousities she had arranged in the second story of the millinery shop. She had collected curiosities from every part of the world. A stuffed baby alligator from San Francisco; a piece of Irish Heather and a bottle of water from the Boyne brought over by James Kelly, of St. John; A lace plant from Jamaica and a Nantilis; A piece of redwood and redwood bank: An entire A piece of redwood and redwood bark; An opium pipe; Some grass from the Himilaya Mountains; A pipe; Some grass from the Himilaya Mountains; A piece of Yew wood; The nest of a Tailor bird; A native school book of one of the East Indian tribes; The rattle of a rattle snake; A set of buffalo horns; A piece of iron wood; A fine wreath made of goose feathers; Moss from Gibraltar; Some uncut amethists opals and garnets beside a great lot of other langs that no man could number. A fine shell monument about six feet high made by Mrs Hartley herself stood near the centre of the room. At the extreme end opposite the of the room. Knowlesville.

JUNE 22.—The weather has been very warm for some time past. The ground is very dry. We have not had any rain for over a week and very

little this month.
S. R. Gaylon, Wilson Whitehouse and Miss McGilliguddy from the United States, are here visiting their old friends.

Last week, during a thunder storm, the lightning struck Cabel Stockford's house at Highlands and ran down the stove pipe and killed two dogs. One of the dogs was near the stove and the other was under the house. The only damage done was a splinter torn off the wood-box. If the lightning or something else would happen to some more of the dogs in this country it would be a good thing.

Sunday the Rev. A. Howard preached at Highlands, and a number of people drove up from this place. Coming home a dog ran out and frightened

Bedell Settlement.

July 1.—The semi-annual public examination of school in Bedell School District, No. 7, Parish of Woodstock, took place on Friday afternoon, June 28th, in the presence of the largest number of persons ever present on such an occasion, including sons ever present on such an occasion, including trustees, parents and others, the house was filled to its utmost seating capacity. The teacher, Miss Nellie Jordan of Woodstock, who has successfully taught the school for the last two months, had with wisdom and her usual good taste prepared a lengthy programme which she in her good natured way had very successfully carried out. It consisted of a general review of all the different branches taught in the school, intermingled with dialogues, recitations and music, carefully selected branches taught in the school, intermingled with dialogues, recitations and music, carefully selected and prepared for such an occasion, proving to the satisfaction of all present the efficiency of the teacher and diligence of the pupils. After the programme was ended, brief addresses were given by the trustees, all expressing for themselves and the district their satisfaction with our popular teacher. The affair closed with a vacation song, sung by the teacher and all the scholars. The sung by the teacher and all the scholars. The district and trustees are to be congratulated, as I understand they have been able to secure the services of the same teacher for another term.
