LIGHTNING AT VICTORIA CORNER.—A heavy shower, accompanied by lightning, struck Victoria Corner about 4 o'clock on Monday afternoon. The lightning struck a telegraph pole at the tannery and splintered it. Again it took a shot at two or three more poles down by the school house and tore them to pieces. This was the heaviest shower by far, that has passed over Victoria Corner this summer.

CUT THE GRASS.—The town council is having a hard enough time of it with sewers, without bothering them with that delicate question of streets again. But THE DISPATCH must advise them to have the grass crop, which grows on the eastern sidewalk of Main street, cut. It is past mowing time, and there is a luxuriant grass crop just in front of J. N. W. Winslow's office, which needs looking after.

THE CARLETON COUNTY SUNDAY SCHOOL CONVENTION will meet at Grafton on Tuesday, August 13th, at 9 o'clock in the morning. Three meetings will be held during the day. A preliminary meeting will be held on Monday evening. The recording secretary, James Watts, requests that the statistical blanks, now in the hands of the superintendents, will be returned to him as soon as possible. The various schools should elect delegates and take up convention collections at once. Every school should be represented and the meetings, which will be public, should be largely attended.

SHOOTING AFFAIR.—A contemporary had the following news item last week:—Game Warden E. O. Collins of Presque Isle was shot and probably fatally wounded at a little settlement called Connors, on the St. John river, Tuesday afternoon, by a guide named Charles Morris, who is supposed to be crazy. Collins had gone to the Alleghash river in pursuit of poachers, and was resting in the house of a man named Pelky, in Connors village, when Morris came in and threatened to kill some women and children who had gathered there. Collins interjected, when Morris fired at him, sending a rifle ball through his left lung, just above the heart. Morris then started up the Alleghash in his canoe, and Collins was taken to Fort Kent, arriving Wednesday evening. He may live, but the chances are against him. It is said that Morris had killed two men before. There was no reason, so far as known, for his shooting Collins.

SUNDAY'S FIRE.—Between one and two o'clock on Sunday morning, the fire bell rang, and the town was aroused from its Sabbath morning slumber. It was found that Albert Field's house on Grover street was on fire, and by the time the firemen got on the scene it was too far gone to be saved. The house is a total wreck and the shed and barns were also destroyed. Mr. Field does not know how the fire caught. He was awakened by hearing the crackling of the fire, which was then forcing its way through the roof into his bedroom. There had not been a fire in the house since 6 o'clock the former evening. None of the furniture upstairs was saved, and that which was removed from the lower flat was damaged. The house was valued at \$1600 and was insured in the Liverpool, London and

Globe for \$800 and in the Guardian for \$200. The furniture was valued at \$500 and was insured in the Guardian for \$250.00. Mr. Fields will rebuild. At present he is living in a house this side of that which was burned.

MANY DEER.—An Aroostook paper says:—The down freight on the Bangor and Aroostook railroad struck a deer Wednesday night at Ingall's siding, five miles this side of Norcross and knocked the animal over one side of the track. It was a buck and a big one. The animal seeing the headlight of the locomotive approaching, stood directly in the middle of the track gazing in great curiosity at the light, and let the locomotive strike him without hardly a move. The men on the up freight train were notified of the affair and when the train reached the siding they found the buck beside the rails. He had a fine set of antlers. On the same day a moose came out of the woods near Caribou and stalked majestically into town, went under the railroad bridge and crossing the Canadian Pacific railway track disappeared in an oak grove. He was very deliberate in his movement and did not seem to care whether school kept or not. Some fifty people who saw the moose thought it was pretty cool proceeding upon the part of the big fellow. A Bangor party who recently went into the woods from Norcross, on the Bangor & Aroostook railroad line and camped in the Mt. Katadin region for about a week saw sixty-seven deer while there. Another Bangor party who were in the woods but a day or two saw several deer in the openings of the forest land.

15 Years of Itching.

Wm. Golding, commercial traveller, 30 Esther-st. Toronto, says: For 15 years I suffered untold misery from Itching Piles, sometimes called pin worms. Many and many weeks have I had to lay off the road from this trouble. I tried eight other pile ointments and so called remedies with no permanent relief to the intense itching and stinging, which irritated by scratching would bleed and ulcerate. One half a box of Chase's Ointment cured me completely.
