Ocr. 22.—The Carleton Royal Templar district council met here this afternoon. Geo. J. Cronkite the district councillor presided. Only Benton, Centreville, Florenceville and Hartland councils were represented. As the district secretary J. Gordon Calkins was absent, reports from the other councils could not be obtained. The councils at Woodstode a over Woodstock, Connell, Glassville Peel and Bloomfield are in good condition and should have sent delegates. However, though small, the council was enthusiastic, and the meet-ing was a success. The following committees were arresided and the meetappointed: on credentials, John G. Simonson and Charles Rideout; on state of the order, Ernest Hendry and Mrs. Wm. Speer; on opening and resuscitation of councils, Charles Rideout and Miss S. A. Hendry: on temperance work, Henry Harvey Stuart and John G. Simonson. The committee on stuart and John G. Simonson. The committee on state of the order reported that Benton had 40 members, all in good standing: Florenceville council, 142, 99 in good standing: Centreville, 124, 53 m good standing; Hartland, 40 with 35 in good standing. Benton and Centreville councils had continued the holding of gospel temperance meetings. The committee recommended that the latter be held as often as possible. The committee on opening and resuscitation of councils reported Grafton ing and resuscitation of councils reported Grafton council dormant. Granite council has lately been organized at Peel. It is a large and vigorous body of 40 members. The report on temperance work by Messrs. Stuart and Simonson, was as follows:— "Your committee find that many of the leading councils have continued the holding of gospel temperance meetings, which has repeatedly en-dorsed by successive councils. These meetings have been well attended and much enthusiasm have been well attended, and much enthusiasm have been well attended, and much enthusiasm has been manifested. The speakers, whether clergymen or laymen, have generally urged in strong language the necessity of temperance people combining politically to force the temper-ance issue to the front. Nothing less than total prohibition will satisfy the Royal Templar Society. These public meetings held by the different genueik have had we believe a very good effect councils have had, we believe, a very good effect in sustaining and promoting the cause we all are pledged to uphold. Your committee believe that, whenever a temperance candidate can be secured, it is the duty of every Royal Templar to oppose the candidate of any political party who is not distinctly and solemnly pledged to do has utmost to secure at the earliest possible moment, the legislative prohibition of the liquor traffic by the to secure at the earnest possible moment, the legislative prohibition of the liquor traffic by the dominion parliament. As neither of the old parties in Carleton county has pledged itself to make prohibition its leading political issue we are of the prohibition its leading political issue we are of the opinion that it is the duty of all friends of temperopinion that it is the duty of all friends of temper-ance in this district to support for parliament an independent prohibitionist." All the reports were Rising Star Council R. T. of T., has now 180 adopted without debate. After a speech from Mr. Stuart, the council adjourned, to meet in Centreville, on the third Tuesday in January 1896.

A Gospel Temperance meeting under the auspi-ces of the R. T. of T. was held in the Methodist church on Sunday afternoon. G. F. Simonson was church on Sunday atternoon. G. F. Simonson was chairman. An eloquent and impressive address was delivered by Rev. Jos. Cahill, who made a logical, sensible, argumentative and forcible ap-peal to his auditors in the interests of temperance and prohibition. Rev. Jos. Currie also made a vehement address. The choir, under the leader-ship of Miss Correct Correlation and itself adship of Miss Gertie Cronkhite acquitted itself ad-mirably. Miss Helen West presided at the organ.

Mirably. Miss Helen west presided at the organ. All the school girls in Centreville have adopted a fashion of wearing the hair which does not pre-vail in any other locality. The girls (a large num-ber of them being young ladies) allow their flowing ringlets to float untrammelled by knot or ribbon to their waists. This mcde of dressing the hair undoubtedly gives a young lady a naive and art-less appearance and expression and visitors geneless appearance and expression, and visitors gene rally remark and admire the pretty style.

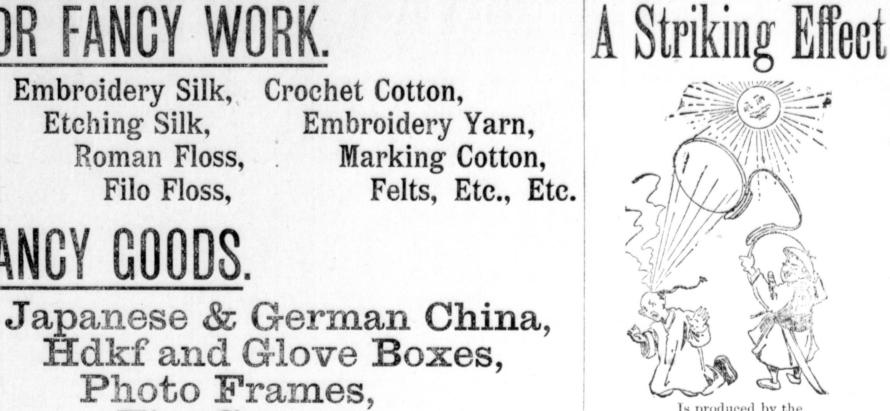

A commercial gentleman remarked last week that the store of G. W. White & Son is not surpassed in the province for the expensive finish, neatness and general arrangement of the interior. Certainly the only store in Carleton county that can be compared with it is that of John Graham in Woodstock. One can gain an idea of the enor-mous business transacted by the firm, when it is mous business transacted by the firm, when it is said that their annual importation and sale of

A number of desperadoes have been making Centreville the scene of their depredations for some time. About two weeks ago seven of Mr. Arthur McDonald's turkeys were wantonly stoned to death and five stolen from the roost last week. Some miscreants carried away five full hives of bees honey from the apiary of G. W. White. A number of clothes lines have been tampered with, several dogs are missing, and a general reign of terror seems to have been inaugurated. The parties guilty of the misdeeds have been located in Summerfield, and the strong arm of the law will be invoked to punish them.

The daily attendance of pupils at the Centreville schools now number one hundred and eighty. The superior school under the management of H. W. Peppers is not excelled for efficiency in the prov-inces Mr. Peppers is a graduate in arts of the U. N. B., and has, since he assumed the principalship in April, effected a complete revolution in the school which had been sadly deteriorating for some school which had been sadly deteriorating for some years. Laxity of discipline and lack of interest in study on the part of pupils have wholly ceased to exist. Too much cannot be said in laudation of the efforts and interest displayed by Mr. Peppers, who is popular with and has gained the entire confidence of both parents and pupils. There will probably be a change on the staff of the primary department next term department next term.

Ocr. 24.-Legal circles here are at present much agitated in discussing important questions arising from a recent eviction ejectment and reported abduction case. While the matter remains sub judice it would be deemed ultra vires, on our part to hazard an opinion as to the pros and cons of the late style of procedure. At present, it is sufficient to submit that a distinguished Justice of the Peace enceville. a gentleman long associated with our leading crown lawyers, and a gentleman noted for his legal ability, and sound counsel in many remarkable cases of disputed succession has already sat upon the case and having heard parties and procurators on its merits, has taken the case to avizandum. His worship interlocutor may be shortly expected.

The election is over and the interests of the prohibition party have been largely enhanced over the left. There was a large outpouring of the spirit on the occasion a thing not to be wondered at, considering the great revival wave that has been sweeping of late over Aberdeen. The old eastern question drama of the holy places was re-enacted question drama of the holy places was re-enacted after a fashion, and Solomon's porch became a spiritual retreat. The "saints" are fearfully scandalized. What in thunder were the Christain Endeavor gentry about? And what was the great champion of prohibition the temperance lion of the tribe of Judah about? Oh! consistency thou art a iewel. The defeat of the consistency may art a jewel. The defeat of the opposition was a foregone conclusion and our friend a kid of the goats might as well have saved his bacon. Seriously though all things are fair in love and war, still when an aspirant after fame has made himself notorious by attempting to set the world on fire by prohibition speeches and organizing temperance councils, common decency might induce him to eschew the rum dodge on polling day. Farewell dear brother God be with you &c.

Oct. 28.-The half mile driving track that was scarted about a year ago, can't be said to be mov-ing toward completion. It is all graded and most of the fence posts are set, and so it stands.
