CORRESPONDENCE.

Hartland.

If you are long headed you will buy a fountain pen from E. Alexander, Hartland. Oct. 7.—Charles Stevens, Somerville, has purchased his brother's, J. W. Stevens, farm. Milly Thornton has returned from Millville. Little Millie, daughter of George Cox, met with a slight but somewhat trying experience Friday. She was crossing the railroad when the 3.53 express came thundering around the curve. The child was so frightened that she fell on the track between the rails. The engineer exercised all means in his power to stop the train, but it did not come to a standstill until the engine and baggage car passed over the girl. She was rescued from her perilous position by the brakeman, Chas. Taylor, and was found almost wholly unharmed save for a slight cut on the back of his head, and being dazed with fright. Her escape from a terrible death was miraculous.

R. W. Richardson and Charles W. Hurst intend finishing a woodworking factory. Work will be commenced on the building at once. Such an industry as this has long been needed and will be highly appreciated by Hartland and the county around. The house finish brought to Hartland by rail amounts to thousands of dollars. The factory will give employment to 10 or 12 men.

The Misses Thornton had their millinery opening Saturday. Their window displays were very attractively dressed by Mrs. Charles Bonison.

There was a political meeting in Burt's hall, Saturday afternoon, called "for the purpose of nominating candidates for election of members to the local legislature." The announcement sent forth left the people in the dark as to whether it was to be a government or an opposition meeting. However, the meeting was opened and C. J. Connelly was elected to the chair. The only possible candidate was D. H. Keswick, who had shortly after the death of Dr. Atkinson offered to come forward for nomination as a government supporter when the election to fill the vacancy caused by the doctor's death should be held. There were also present F. B. Carvell of Woodstock, E. M. Shaw, B. M. Shaw, W. F. Thornton, Dr. Curtis, and quite a large number of others. During its course it became apparent that the meeting was called by government men, who were supporters of Mr. Keswick. It seems that at a government caucus held in Woodstock shortly after the election was announced that the idea of bringing out a candidate from Hartland was advanced, but Mr. Keswick's name was not mentioned. And when the ticket was made up on Monday Mr. Keswick or his supporters were not considered. Therefore the meeting was called to ascertain if Mr. Smith could not be induced to retire from the ticket and allow Keswick's to go on instead. No members of the ticket being present a committee was appointed to interview Mr. Smith at the earliest opportunity with object before mentioned.

The boat from Fredericton bound for St. John calls at the Maugerville wharf every morning. The wharf is tended by Wm. Bent who also keeps the post office. Immense quantities of vegetables are shipped every day to St. John. One of the largest market gardeners is Mr. Clark who goes to St. John three times a week to sell his vegetables.
