

NEWS FROM THE COUNTY.

JUST DISCOVERED THE FIRE IN TIME.

Accident at Hartland.—Items From Every Village and Parish.

NORTHAMPTON.

MAR. 23.—The recent thaw has laid the hills quite bare and everything looks quite spring like. On the 18th inst, the residence of Mr. William Monteith was the scene of a quiet, but pretty marriage. The contracting parties were his daughter Miss Etta Monteith and Mr. William Jardine a popular young baggage master on the Bangor & Aroostook railroad. The bride was unattended, and wore a handsome brown travelling suit. The young couple were the recipients of many costly presents. After spending a few days with the groom's relatives at Bristol they will be found at home after April 6th, at Oldtown, Maine. The Rev. Mr. Williams was the officiating clergyman. There has been quite a lot of sickness prevalent here this winter. Mr. Joseph Wolverson has been very ill for a long time, but under the skilful treatment of Dr. Sprague is said to be mending.

Mrs. W. C. Bull at Grafton has been poorly for some time, but is gaining more rapidly than could be expected from most people at the advanced age of 83 years.

It is said that Mr. Geo. W. Hovey bruised his leg accidentally some time ago, and neglecting to attend to it properly it developed into gangrene and in consequence is lying very ill.

The friends and relatives of the late Mrs. Ansley Watson were painfully surprised to hear of that lady's sudden death in Danvers Mass., quite recently. It is said that she was writing a letter to some of her relatives here when she was suddenly seized with a severe pain and was dead in a few minutes. It then became the painful duty of her son Frank to complete the letter informing their relatives of the sad event. For many years Mr. Watson and family were the proprietors of a large farm in this neighborhood, and afterwards of the Queen Hotel of Woodstock. After the sale of the latter they moved to Danvers where they have since resided.

A number of young people from Woodstock left home with their snowshoes one evening last week with the avowed intention of snow shoeing down to the residence of Mr. C. P. Bull via the "Old Road." Somehow or other the guides of the party lost their bearings in the darkness, and without having previously reckoned the amount of physical exertion required rather severely initiated their followers into the t of scaling and descending points hitherto considered inaccessible. However after a number of inquiries the object of their search was attained and after spending an agreeable evening they were content to take the Queen's highway for home which was reached at a very late hour.

Many thanks to the Nortondale correspondent for his flattering suggestion.

Mr. C. L. Olmstead who has been spending a few weeks at his home in Grafton, returned to Centerville where he intends to boom the tailoring business this summer.

EAST GLASSVILLE.

MAR. 21.—Mr. James Tweedie died here on the 28th of February last aged 73 years. He was a native of Lockerbie, Dumfriesshire, Scotland. He came to America 45 years ago and entered the American army in 1861, remaining a soldier until the end of the war. He afterward took up a farm in East Glassville on which he remained till his death. He was original a gardener by trade, and was long and favorably known to the people here in that particular line. He was a man much respected both in public and in private and in his death the people of East Glassville have lost a very worthy member of their community and the Presbyterian church of Aberdeen a much valued member. For the last two years Mr. Tweedie had been more or less complaining, till his organic trouble—heart disease—developed alarming symptoms within a fortnight of his death and finally carried him off. He leaves a widow and four daughters to mourn their loss. His remains were interred in Glassville cemetery.

Another Scotchman, likewise highly esteemed and much beloved, the pioneer of West Glassville the late Mr. Harry Lenont, passed to his rest at his residence, West Glassville March 3rd. He was born at Lehe, Forfarshire, Scotland, in 1838. He belonged to an old Perthshire family of long and excellent social and religious standing in the old country. He came out to Halifax in the spring of 1860, and moved to West Glassville in 1861. He was a pioneer settler and by dint of hard labor, prudence and carefulness, eventually succeeded in providing his family with what is now one of the finest farms in Aberdeen. He was always regarded as one of our leading men not only as an agriculturist, but likewise as an influential advocate and successful promoter of all measures, bearing on the elevation—educational, moral and religious—of his fellow settlers. He was a prominent and consistent member of the Presbyterian church; and in the land of the stranger amidst unremitting trials and harassing cares and under all the hopes and fears, incidental to an emigrant's experience, he was continually strengthened and sustained by that deeply rooted and sound religious life with which in early years he had been inspired in the "heather land." He was a man of long established probity—cordial, genial and obliging in his neighborly intercourse, a christian parent in the highest sense of the term, and a member of our community eminently calculated to win the respect and the command of all. Within a few weeks of his death he and his friends felt and knew that the end was not far off. During the last fortnight of his life he became much weaker than usual, sinking rapidly, till the day of his death when he peacefully fell asleep in Jesus in the 59th year of his age. He leaves a widow and a large family to mourn their loss. His remains were interred in Glassville cemetery, Rev. J. K. Bearisto holding funeral services in the house, at the grave and in the Presbyterian church.

Notice of Dissolution.

To whom it may concern:

By mutual agreement, the undersigned will, after this date, discontinue business under the firm name of Kinnear & Killam. All indebtedness of the firm will be paid, and all bills collected by D. M. Kinnear.

Dated this twelfth day of March, A. D. 1896.
D. M. KINNEAR,
C. KILLAM.

Woodstock, N. B.

**D. M. KINNEAR,
Contractor**

—AND—

Builder.

I guarantee absolute correct estimates on everything in the building line.

Personal supervision of all work, and careful attention thereto.

I make a specialty of completing all contracts sharp on time. Will take contracts anywhere in Carleton County.

I would hereby tender my thankfulness to the citizens of Woodstock and vicinity for their liberal patronage the past two years, and trust by punctuality and careful attention to business, to merit a continuance of the same.

*D. M. KINNEAR.
Woodstock, N. B., 12th March, 1896.

FROM MARCH TILL SUMMER!

Paine's Celery Compound the Best Remedy To-Day in All the World.

It Purifies the Blood as Nothing Else Can Do.—It is Food for the Tired Brain—It Makes Strong Nerves!

Publicly Recommended as No Remedy of Any Kind Ever was Before by Thousands whom It Has Made Well.

Endorsed and Prescribed by the Ablest Physicians in Every City in America.

Where every other remedy has failed Paine's Celery Compound has made people well!

It cures disease! It has saved the lives of thousands of sufferers. It has made the weak strong.

Paine's Celery Compound purifies the blood as nothing else can do; it is nature's brain food; it builds up shattered nerves; it is preeminently the one great health-maker known to medicine.

First discovered after laborious, studious, scientific research by the ablest physician America has produced, Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth College, it is prescribed and publicly endorsed by the best practitioners in every city of America. It has been so enthusiastically recommended by grateful men and women in every walk of life that it is to-day in every sense the most popular remedy in the world.

It has itself so easily the greatest of all spring medicines, making the weak strong and the infirm well, that in the large cities, Toronto, Montreal, Quebec, Hamilton, Halifax, St. John, London, Ottawa and Winnipeg, the leading newspapers have found that the demand for Paine's Celery Compound as far surpasses that of all other remedies as the curative power of this great compound surpasses that of all others together!

Paine's Celery Compound, taken during the early spring days, has even more than its usual remarkable efficacy in making people well. It makes short work of all diseases of debility and nervous exhaustion. It rapidly drives out neuralgia, sleeplessness, dyspepsia and rheumatism from the system. It removes that lassitude, or "tired feeling," which betokens weakened nerves and poor blood.

Overworked and tired women are but one class of persons who are in urgent need of

this wonderful remedy to make and keep them well. Business men who are not sleeping soundly, shop girls made pale and sickly by long hours of indoor work, and the countless sufferers from dyspepsia, kidney and liver trouble, need the invigorating effect of Paine's Celery Compound, now that spring, with all its dangers, is at hand. Its preeminence as a health-maker comes from its extraordinary power of supplying appropriate nutriment to the blood, nerves and brain.

Just as the great lawyer studies each one of his cases till he knows it on every side, and in every possible aspect, so Prof. Edward E. Phelps, M. D., LL. D., of Dartmouth College, the discoverer of Paine's Celery Compound, had studied the nerves in health and disease, when well-nourished and when under-nourished, in men and women and children years before he looked for the remedy. Paine's Celery Compound was the outcome of his entire professional

life. A fitting memorial to a life of hard study and close observation—a remedy that the world could not lose to-day at any price!

Take advantage of the remarkable power of this greatest of all remedies for restoring vigor to the blood and strength to the nervous system. In these first days of spring one has every change of getting well. Don't neglect it.

Paine's Celery Compound calms and equalizes all the nervous tissues and induces the body to take on solid flesh. It purifies the blood, as is so clearly shown by the rapid clearing of the skin of all evidences of bad humor within. It is an infallible relief for salt rheum, eczema and all blood diseases.

Physicians recognize Paine's Celery Compound as the one scientific spring remedy, and it is universally prescribed by them wherever there is great need of a vigorous and prompt restoring of health and strength to the worn-out system.

FORT FAIRFIELD.

MAR. 20.—March came in on a rain storm, which by the looks of things will stay, as it has destroyed the roads. Oh! what changes one year can make, lots of changes but no change in the poor farmers' pocket. Last year this time potatoes were \$1.50 per bbl., where now they are only the large sum of 30cts. per bbl. By March last year most all the farmers had their phosphate bought and hauled home, while up till now I only know of one farmer who has ordered one pound, and he has not paid for his last year's phosphate. We are living in hopes and it will take more than one year of hard times to kill the pluck of the Aroostook farmers which they are so noted for.

At time of writing it was very scarce, one can get \$10 to \$12 by selling it out among the farmers. Oats are very plentiful.

I see a good many Reed buttons are worn up here. Maine is booming Reed. Who can tell? The black horse may win the race.

Mr. Marsh spoke at Liberty Hall last Sunday. He is called the Mark Twain of New England. The high school class of '97 gave a prize contest on March 5th. First prize of \$10.00 given to Miss Lula Harmon, second to Miss Foss. Miss Lula Harmon is a Carleton County girl, formerly of Peel, Car. Co.

Miss Ludgate returned home last week, after spending a month with her chum, Miss Carrie Kimball.

Percy H. Stevens of Somerville, was the guest of Mr. Kinney last Saturday.

Frank Kimball of Roby, lost a \$300 mare.

L. G. Kimball has sold his place to Mr. Savage of Centerville, N. B.

Leverett Kimball has purchased the noted Fear Not, record 2.47, price paid \$900.

The temperance party raided a dive, seized one barrel of whiskey and two victims, lately.

DEBEC.

MAR. 23.—As I have seen no items from our busy little village for some time I thought it would not be amiss to let your readers know what is going on.

The farmers are pleased to see the steam saw mill which has been idle so long running again. Mr. Stevens of Houlton who has rented it from Mr. Robert Kirkpatrick is doing a booming business. He runs two shingle ma hines, rotary and planer and in order to meet the increasing demand of the public has put on a night crew. He seems to be the right man in the right place.

Anyone wanting to purchase a real nice sled would do well to call on our new blacksmith J. R. Kirkpatrick where he is manufacturing all kinds of sleds from a hand sled to a fancy go-to-meeting sled. Don't forget the place opposite H. Green's. I am pleased to see Charlie Craig around again after having been confined in the house some eight weeks with typhoid fever.

A. G. Bell, Bellville, spent last week with his relatives here.

Mrs. J. K. Flemming and children Peel, are visiting her mother Mrs. C. Simmons.

Our doctor is kept very busy of late and is adopting a new plan of taking some of his patients out driving these fine warm evenings which meets with good success.

ARGYLE.

MAR. 20.—There will be a boss pie sociable in the school house Argyle, on the evening of Saturday, the 27th of March, when a splendid time may be expected. Any donations in money or pies, forwarded on or before that evening will be gratefully accepted. The ladies promise a grand treat and the right change back. Proceeds to go to church purposes, and no humbug about it. "Credat Judeus."

LANDSDOWNE.

MAR. 21.—Owing to the recent rains the roads in this vicinity are in a very bad condition; either bare or covered with ice.

Our school was examined on Thursday by Inspector Meagher.

Sickness seems to be quite prevalent. Sister Campbell and Master Charles Brooks have been very sick but are slowly recovering.

The ladies of Landsdowne Sewing Circle intend holding a basket social in the Union church on the 31st of this month. Proceeds go toward finishing the church.

Mrs. William Drier, Miss Georgie Moores of Connell and Miss Bertie McLean of Peel, are visiting friends here.

Miss Gertie Tompkins has been chosen Worshipful Mistress of the True Blue Lodge that is to be organized at Mount Pleasant in the near future. Mrs. William Washburn who has been away all

winter has returned. Jennie is soon to be among us. Rumor is that the Duke of Moulton is soon to take a partner to share the joys and sorrows of this troubled life.

WAKEFIELD CENTRE.

MAR. 20.—It is some time since I wrote anything for THE DISPATCH, and I feel as if it were time I began again. In my last "notes" I omitted Mr. from the names of the men mentioned, for which I was overhauled pretty severely by a local critic. I was called unmanly, etc., which coming from the person it did, made me feel very bad, indeed. I may have been unmanly, but I had no intention of being so, and to make amends, I will give every man his title this time sure.

There has been considerable sickness around here this winter. Mr. Alfred Scott was laid up some time, being unable to attend to his business, which was running a hay press. Miss Cadwallader, our teacher, also lost a week from her school with the grip, or a bad cold, while further up the road Mr. Alex. Caldwell, Mr. Charles Caldwell and Mr. Nicholas Sharkey were pretty badly used up with a cold, but were able to attend to their work. Mr. Nicholas Sharkey came near getting his neck broken by a tree falling on him. He was lucky to escape with only a stiff neck for a few days.

Mr. George Sharkey, of whom I wrote before as being laid up with a white swelling on his leg, is getting around slowly. He is able to limp around and attend to his chores.

Mrs. James Frame of Newburg has been here a week visiting her daughters, Mrs. Gilbert Hagerman and Mrs. Jas. Johnston. She has gone home.

Mr. Alexander Caldwell came near having a fire at his place last week. He had been at work all the afternoon. In the evening he made a fire, got his supper, and after supper sat down to read awhile. While sitting there, he imagined he heard a noise like the snapping of burning wood. He thought it was the fire in the stove, so paid no heed but went to the next house and sat there for an hour or so. Returning home and going up stairs to bed, he found the upper part of the house full of smoke, and on opening the door of the room where the pipe from the stove entered the flue, he saw the red fire gleaming through the smoke in an alarming manner. He hurried down stairs, lit the lamp, seized a pail of water, hurried back and soon had it out. The cause of the fire was—the pipe had come out of the flue and got turned a little to one side and the sparks had come out into the room and dropped to the floor, where one caught and burned till found. It is curious it did not break out into a blaze sooner. There it smouldered and burned for three hours, and only burnt a hole about the size of a pot cover in the flue. Mr. Caldwell, since believes no one should go to bed without a pail of water in the house.

NICTAU.

Lockard's Camp, March, 18.—As we have not heard from Nictau for sometime, I think it policy to let the people know we are still living. The weather in this part of the world is very changeable. We have a snow storm nearly every day. If the weather does not get too bad Mr. Lockard will finish hauling the 25th. Two young men attending Landing had a narrow escape of their lives a few days ago. While waiting for the teams they crawled into their cosy little brush camp, built a fire, and laid down to have a nap. They had not laid down long, when one awoke and finding the brush camp on fire, he gave the alarm and the two sprang right and left, making a dive they succeeded in crawling out through the fire and windfalls unharmed.

The men of this camp have had a surprise. A young man of Newell, while working with J. Campbell on the landing, a few days, did not seem to get along very well, and in his spite one day Newell struck Mr. Campbell with the top end of the peevie in response Campbell laughed; making Newell's temper still more fierce and rushing up he struck him on the back and said: "now take the D—, you and he walked up to the camp gridding his teeth; ever since he turns his back to Campbell at the table.

HARTLAND.

MARCH 23.—On Friday morning Geo. Rideout of Wakefield died very suddenly of heart disease. The deceased was sixty-one years of age, and was well known and respected in this community. The funeral was conducted by Rev. A. G. Downey, assisted by Revs. Vanwart, Benson and Orser. The body was interred on his own place beside that of his son who was drowned a few years ago. Considerable repairs have been made on Mr.

Sawyer's mill preparatory to starting it, which will likely take place in a week or so. A new pier has also been built in the dam.

Frank Jackson a boy who lives below the village cut his foot quite seriously with an axe on Friday. Medical aid was summoned.

Dr. Parker left on Monday for Grand Falls. He has been at Hartland for the past four weeks.

The recent heavy rain, and thaw, has forced the surface water, from the high land which skirts our town to flow in an unbroken sea about the Commercial Hotel and Hotel American which latter, was last week about one and a half minutes sail from the depot.

[From Another Correspondent.]

MARCH 23.—Rev. Mr. LePage of Upper Kent occupied the Methodist pulpit last evening.

R. W. Richardson is getting on finely with his new wood-working factory. He has now about a half dozen men at work, and will shortly double his crew. The main building is 34x50 feet two storeys high. The upper flat will be a work shop or finishing room, the first flat will contain the heavy machinery. The building will be well lighted. At each end of the building there will be a large door, making it possible for teams to drive in one end and out the other, so that loading and unloading may be done under cover. The size of engine and dry house are not yet known. Mr. Richardson has in connection a lumber yard, which is supplied with all kinds of lumber from J. F. Richardson's mill on the Gibson branch. The factory will be running about the first of May.

The people are rejoicing greatly over the prospect of a bridge. Government supporters are confident that out of the \$400,000 draw a bridge across the river here will certainly be afforded.

The spring shows up greater prospects for prosperity than ever. Building operations have already begun, and everything points toward the coming season surpassing the last in that line.

Shaw & McGee is the name of a new firm doing a business in hardware in the G. W. Boyer building. Mr. Shaw is a son of J. D. Shaw of this place and is well known in Woodstock, also in Fort

Fairfield, where he has lately been employed in Carey's Dry Goods store. Mr. McGee is the son of William McGee of Lower Brighton.

BRISTOL.

MARCH 23.—A donation for the benefit of the Rev. A. H. Hayward will be held next Thursday evening at the residence of D. S. Jones. All are invited to attend.

William Jardine and bride, of Woodstock, have been spending a few days at his old home here, and receiving congratulations from his friends.

Rev. Mr. LePage's pulpit here was supplied by Rev. Mr. Smith of Hartland.

A public temperance meeting will be held in the hall on Friday evening, to be addressed by several prominent temperance advocates.

Rev. Mr. Hayward baptized two candidates at Florenceville yesterday, and in the evening extended the hand of fellowship to four.

The District Orange Lodge met here last Tuesday in quarterly session, representatives being present from seven lodges. The public meeting in the evening was well attended. District Master Melville presided, and the speakers were, Dr. J. G. Atkinson, Rev. H. D. Worden and G. S. Wiggins. The next session will meet at Mount Pleasant on the first Thursday in June.

POLE HILL.

MARCH 23.—Sickness is a thing of the past in this section of the country, and we are glad of it. Previously the doctors have been very busy, and although we wish them well, we do not like to see our neighbors suffer.

The R. T. of T. is talking of building a new hall in the near future. There will be a gymnasium in connection. This plan was brought up at the last night of meeting. The council had to be dismissed in order to allow the boys to perform, so that a decision could be made as to who was the best man in the village. Our much respected pedagogic acted as referee. He decided in favor of the select councillor.

CHICKETHAWK CASH STORE.

We want to clear out a whole lot of our stock to make room for

SPRING GOODS

and consequently we are selling at even lower than heretofore. Our stock of Staples that a merchant must always keep on hand, is unusually full, and we invite inspection.

Call on us and inspect our stock. Buy from us. There is profit in it for you.

C. A. PHILLIPS,
BRISTOL. Proprietor.
