JACKSONVILLE.

Things have been pretty lively around here lately owing to the excitement of the election, which made some of the prominent citizens, wear long faces for a short time. but the scene was soon changed, when the news came that their leader was elected with a large majority, but which it is said is gradually diminishing in number.

WAKEFIELD CENTRE.

Miss Cadwaladder's school at Wakefield Centre closed on Friday 26th, with a public examination, recitations and dialogues, and a picnic. The examination showed the children to be well trained and looked after, and the teacher to be both painstaking and competent. The recitations and dialogues were very good and the picnic—well, I'll have to give it special notice. It was held in a little grove near the school house where the company, consisting of all the women of the school district and quite a number of the men, with a few outside visitors and all the school children, sat down to as well ordered and bountiful repast as were sports for the children which seemed to be enjoyed by a number of the older ones as well.

Miss Cadwaladder shows considerable ability as a hostess as well as a teacher and deserves credit for making such a success of her school examination and picnic. She left Saturday for her home in Fredericton.

CLEAR VIEW.

On Thursday evening, July 2nd, the Rev. A. E. LePage delivered a lecture on Agriculture. At the close of the lecture a basket sociable was held and the snug sum of \$17.05 realized.

Owing to a change in the Florenceville circuit, Clear View being added to that circuit, Rev. A. E. LePage preached his farewell sermon Sunday morning, July 5th. While we expect that the coming pastor will be entirely satisfactory, yet we very much regret parting with our old one.

Jessie Green is running Mr. Fraser's mill at River deChute.

F. H. Watson is building a large and commodious house on his farm above the River deChute.

Wm. Adam will finish sawing this week. He has had a very successful operation this season.

Some of our friends joined us on an excursion up the Tobique on Dominion Day. The party went by the way of the T. V. R. to the end of the line, where they viewed the magnificent Plaster Rock,

which rises 200 feet from the level of the water. Many specimens of this rock were carried home by the members of the party. After a short stay the party returned to the mouth of Wapekey where dinner was served. During the afternoon sports of various kinds were in order, and a very pleasant afternoon was spent. We cannot speak too highly of the management by the superintendent of the T. V. R. and the other officials who had charge of the party.

BURTT, LEE & HALE, 22 King Street

THE GRECIAN ART TABLEUX COMPANY which will be at the opera house on the 18th and 20th of the month, has been received throughout America gladly. The Boston Journal says of the Company:—The immense audience last night enjoyed a fine entertainment by the Grecian Art Tableaux Company, and the merit of the work done by the organization under the direction of Elizabeth F. Willis justified the enthusiastic applause which followed the presentation of each feature of the program. The company contains a large number of artists trained to interpret and present scenes and episodes in history and mythology by groupings and tableaux. The portion of the program given last evening by these artists afforded a most instructive and entertaining study, and the arrangement of the stage, the use of lights and the posing of the company showed a thorough knowledge of stage management. The poem, "One Flag Must Cover All," as delivered by Elizabeth F. Willis, fairly electrified the audience, and the ten illustrations thrown upon the screen during the recitations were greeted with applause. The vocal and instrumental selections of the evening were greatly enjoyed.

Food for the Brain.

Fish is a great thing to build up the brain, and most of us can stand a little increase in brain power.

Jackson's Fish Market, near the bridge, is the place to go for fresh fish. Today they receive importations from the islands of fresh mackerel, cod and haddock. Salmon they have always on hand. The fish are kept in ice compartments, and cleaned by expert hands, and made ready for the cooking in a moment's time. Telephone your order and the fish will be with you in a second, more or less time. Country produce taken in exchange for fish, or groceries, which are kept in stock. For good, fresh fish, patronize the Fish Market every time.
