That difficult has been overcome, and we have just received a large consignment of them. We offer them at the same prices you pay elsewhere for cheaper gloves. Resolutions were adopted regretting the action of the Dominion Alliance in accepting the offer of the Dominion government to grant a Plebescite. It was also decided to take measures to hold a grand temperance rally in Woodstock early in November. The meeting was well attended, and it will, doubtless, have the effect of awakening new interest in the temperance cause.

The members of the Orange Lodge held their monthly meeting on Tuesday.

Rev. Mr. Flewelling spent the greater part of the week at Lakeville.

Poor little Jim Lee is no better and doubts are entertained of his recovery.

MIDDLE SIMONDS.

In THE DISPATCH of Sept. 30th, there was an item headed Middle Simonds, which insinuates that some person in Middle Simonds was violating the Scott Act. I believe there has not been any liquor sold in Middle Simonds for at least ten years or more, and the people of this place should not be slurried in the manner they have been. The parties that wrote the items forgot to say that there was a Justice of the Peace called on a few years ago, etc. FAIR PLAY.

The Wheat Boom

SAN FRANCISCO, October 20.—Friday was the banner day of the present wheat boom. On the regular morning call December was forced to \$1.40 1-8, an advance of over seven cents on the best price obtained here for some option yesterday, and an advance of seventeen cents since the 1st inst., when the best figure obtained for December was \$1.24 1-4. The advance in May was even greater than December, the regular session in the morning bringing it up to \$1.44 1-4, as against \$1.36 3-4 as the best price obtainable Thursday. At the afternoon session December gained 3-4 cent over the best morning price, but subsequently dropped to \$1.40. May gained 3-8 cents also over the morning price, but closed at \$1.42 7-8. In connection with the above the following dispatch from London may be somewhat explanatory. The Viceroy of India has cabled to the Government, that owing to the lack of rain the crops in North-Western India, in several districts of Central India, and in Upper Burma, have been seriously damaged, and that unless rain falls shortly a famine will be inevitable. There is some feeling in the unaffected district owing to the exportation of wheat to the districts owing to the exportation of wheat to the districts in which the crops are damaged, and this has caused a rise in prices. Merchants in Calcutta are now selling American wheat, the importation of which is expected to favorably affect prices, but the present dearthness is the cause of the Government granting some immediate relief to the sufferers. A grant has been sanctioned for the construction of temporary wells in the north-west, and other relief works if necessary.

MEN WILL DIFFER.

Bryan And His Partner Hold Opposite Views.

It is often a matter of expressed surprise that one member of a firm can be of a certain political persuasion while his partner holds distinctly opposite views. It will be a piece of news to some people to hear that the partner of Mr. Bryan, the democratic candidate, is a Mr. Talbot, and that the said Mr. Talbot is a candidate on the Republican ticket for state senator. It was reported that Mr. Talbot was going to vote against his partner Bryan, but he gives this a denial which is not, however, extremely positive.

He says:—"I am not fighting Mr. Bryan, nor will I fight him in any way whatsoever. The people here are well acquainted with my position, my candidacy on the Republican ticket and also with my intimate and friendly relations with Mr. Bryan. I have never made any fight against him, but have frequently corrected rumors about him which I knew were untrue."

With regard to the report of his public statement that he intended to vote for McKinley, Mr. Talbot said:

"I have made only one speech this campaign; that was before the Republican Club at the city headquarters. In that speech no mention was made of either Presidential candidate. I did not say that I intended to vote for McKinley."

Elmer Stephenson, Chairman of the Republican County Central Committee, said:

"Mr. Talbot has made but one public speech. He has not said that he will vote for McKinley. We do not require him to do so. We have confidence in his Republicanism, and we also recognize the rather delicate position in which he is placed."

Mr. Talbot has frequently spoken favorably of Mr. Bryan, and predicted his election. After a recent trip through Iowa he said he had every reason to believe in a landslide towards Bryan and his election by a magnificent majority.

The Operators Recent Strike.

Owing to the many statements that have gone out through the medium of the press to the public in connection with the recent unfortunate trouble between the Canadian Pacific Railway Co. and many of its train despatchers and operators, and the settlement of the same through the medium of a committee of conciliation, comprising a representative of the four organizations engaged in the train and engine service, we the committee, think it due the public and all parties concerned that the committee of conciliation should set right the existing misunderstanding. The strike was called because the executive of the company at Montreal refused to take or discuss alleged grievances until they first had been presented to the divisional officers on the divisions where the grievances were supposed to exist and they failed to adjust them. In this the company was right. The rules of the company and the rules of all organizations of employees provide for this method of presenting such matters to the company. The committee of conciliation did not discuss the alleged grievances of the operators. The only question discussed was the best means of settling the matter and having the strike declared off. The following proposition was presented to the company by the conciliation committee representing the operators, and was adopted by the company. The striking operators returned to work and the matter came to an end. All employees now engaged in the strike on the Canadian Pacific railway may report at once to their respective superintendents, who will reinstate them without prejudice to the position they occupied before the strike took place, except such as have been guilty of grave misconduct as to cause general superintendents to refuse to accept them. New men employed during the past week will be utilized as far as possible in filling extra positions created by the fall business. All other employees who refuse to take the place of strikers, but were guilty of no other offence and were dismissed will be reinstated without prejudice.

JUST LISTEN TO COMMON SENSE.

Learn to Recognize Kidney Disease by Its Symptoms.

AVOID GRAVE DANGERS.

Never Neglect your Trouble in its Minor Forms.—Never Despair at any Stage.—Dodd's Kidney Pills Always Cure.

It is far easier to prevent than to cure the serious forms and complications of kidney diseases.

We don't say this because we doubt the efficacy of Dodd's Kidney Pills, but it is better to avoid the wear and tear by curing at the minor stage with a single box.

The dangers of every sufferer are of a three-fold nature:—Not to know what ails; to neglect when he knows; and to despair when everyone says he is going to die.

If you are not posted on the symptoms of kidney disease write to the Dodds Medicine Company, Toronto, Ont., for their Calendar for 1897. It will cost you only a postal card and is worth a hundred.

If you suffer and neglect kidney disease; remember that nineteen out of every twenty deaths result from this disease and that every such death is prevented by using Dodd's Kidney Pills.

To those who suffer and despair of cure, we briefly say: We have never yet heard of Dodd's Kidney Pills failing to cure. We have letters from more than a thousand who were cured when given up by physicians and friends. We have published many scores of such letters and the writers are still living in health and comfort.

Over one hundred thousand persons in Canada have been cured of Kidney disease in its simpler forms—cured by from one to three boxes of Dodd's Kidney Pills.

Dodd's Kidney Pills will cure any kidney disease. If in need of kidney treatment don't permit yourself to buy anything short of the original and genuine. Why should you try experiments to benefit those who say they have something "just as good?"

THE ISSUE

McKinley and Bryan in a Nutshell.

The respective positions of the two candidates for the presidency of the United States are shown by the following extracts from speeches delivered by them on the same day last week. Mr. Bryan said: "We have arrayed in this contest on either side the great forces of society. Against us are those forces which are called strong and which are considered influential—money, wealth, position—but on our side is simply justice. We want your children and our children to have an equal chance in the race for life, and not be crowded out by those great organizations of wealth which are trampling upon the rights of men. Show me the Pharos of the world who could make those under them make bricks without straw; show me the oppressor; show me those privileged classes entrenched behind laws of favoritism, and I will show you people who care not in what station they live, who are not only sympathizing with but willing to send money to help our opponents fasten the gold standard upon the American people."

Mr. McKinley closed his speech with the following:—"We can only get back confidence, my countrymen, by letting the whole world know that this is an honest nation of seventy millions of people, and that they propose to pay all their debts in as good money as the world knows anything about. And when we have established that, which we will do three weeks from today—then we propose to resume business at home. If we do not take care of our business nobody will take care of it for us. And if we do not use the power of the ballot, which we possess, to subserve our own best interests, then we do not use the ballot to the best advantage."

A City on a Hill.

Glasgow, Scotland, seems in a fair way of being run without taxation. Speaking of the happy condition of that city the Scottish-American says that "The city authorities have ascertained that the entire expenses of city for the future can be borne by the incomes which will be received from the public works owned by the city. Among the latter are waterworks, gas and electric light plants, street railroads, sewage farms and other institutions of less magnitude, all of which are paying large profits annually into the city treasury." An exchange adds:—"Not only does Glasgow produce a large revenue from all her public franchises, but her citizens get their light, water and street car tickets at a lower rate than prevails in cities where the taxation is the highest."

Rhodes not Out.

Mr. Cecil Rhodes has not evidently come to the end of his tether yet. He has succeeded in putting down the dangerous Matabele insurrection. It is said he announced to the Matabele chiefs at a conference that after yielding up their arms and those of their number who had been guilty of murdering

whites, the Matabele must locate themselves in specified districts of the country. The principal chiefs would be held responsible and would get monthly salaries from the British Chartered South Africa Company. The chiefs all agreed to this proposition, and it is considered that the whole Matabele trouble is now at an end.
