

THE WOODSTOCK DISPATCH

SEPTEMBER 15, 1897.

From The Far West.

UREKA SAN JUAN CO. COLORADO
Sept. 4 1897.

To the Editor of The Dispatch:

Sir:—A friend of mine sent me a copy of your paper and it afforded me much pleasure to read it especially Dr. Stockton's speech. In one of the columns I noticed a few remarks of Mr. Austin Hartley, saying your paper reached an altitude of nearly 10 thousand feet. Now I can better that. When your paper reached me it was at an altitude of nearly 12 thousand feet. Snow banks have been in sight all summer and the third night in this month a fresh supply of snow fell and remained until noon so that the weather has been cool all summer. I did not put the paper in a tree as Mr. Hartley did but sent it to Wisconsin for others to read and let them see that the boys in New Brunswick have brains as well as the American people. Some of the people in this country think Canadians are slow but they will come all right in the wind up. Slow but sure. The Americans would like to have Canada for her rich gold fields and her lumber, but Canada does not want the United States with all her debts.

Wishing you success and prosperity in your business I am yours truly a Carleton Co. man and was always proud of it.

JOHN L. ESTEY.

THE WONDER OF THE AGE.

DEAR SIR, I must honestly say that I have tried your valuable medicine B. B. B. for the disease called prairie itch, and have found this remedy to be the wonder of the age. I took only three bottles and to my great satisfaction was completely cured. I can highly recommend it to all who suffer from any skin disease or impurity of the blood.

HAROLD DIX,
Rat Portage, Ont.

STRIKING MINERS KILLED.

Fired on by Sheriffs of Pennsylvania.

For some time past there has been a strike among the miners in one of the Pennsylvania districts. On Friday last, as a result of a tragedy occurred. Early in the morning as a crowd of miners were marching to the mines owned by Calvin two of their number were arrested. The crowd then turned towards the Latimer mines. When they reached the edge of the town, marching ten in a line, they were met by Sheriff Martin and seventy deputies. Martin halted them and read the riot act, and brandishing a revolver above his head, ordered them to go back. The strikers answered that they were not doing any harm and began to brush by Martin. Immediately a volley was fired, and when the smoke had cleared eleven dead and thirty-eight wounded were stretched on the ground, and the remaining miners began to scatter to all points for shelter. Nineteen dead and forty-one wounded is the later record of the Winchester's wielded by the deputy sheriffs at Latimer. Eleven of the miners dropped dead in their tracks under the terrible battery; four more died during the night and four were added to the record this morning. The work of identifying the dead was actively going on all night, and is still so far from completion that an accurate list of the victims will not be obtainable for some time to come.

100% BETTER.

Milburn's Heart and Nerve Pills are curing heart and nerve troubles in every city, town and village in Canada. Mrs. F. Abbey, Toronto, says, "Milburn's Heart and Nerve Pills cured my husband who had for fifteen years suffered with weak nerves caused by heart trouble. He was subject to pains in his head, dizziness, fainting spells, sleeplessness, etc. He is now free from these troubles, and feels 100% better than when he began using the pills."

Double Wedding at Debec.

A very happy double wedding occurred at the residence of Mr. and Mrs. T. E. Henderson, Debec on Wednesday afternoon last, when Miss Ethelia B. Henderson was married to G. Eldon Davis, one of the most popular men on this division of the C. P. R. and Miss Elsie R. Henderson was married to W. L. McMurray of Fredericton. The ceremony was performed by Rev. Charles Henderson, of Upper Gagetown. The happy couples left on the afternoon express. Mr. and Mrs. Davis had Montreal and other Canadian cities in view. The Misses Henderson were very popular in Debec and their society will be sorely missed.

BRIGHT'S DISEASE.

"They have done me any amount of good," were the words of Mr. Nelson Green, Galt, Ont., in speaking of his rescue from kidney and urinary difficulty by the use of Doan's Kidney Pills. Mr. Green says that he only tried them out of curiosity, but it was a lucky experiment, for Doan's Pills made a complete cure in his case. He is now a cured man, feeling strong, well and in good spirits.

Why Not?

An excellent move is made in many of the parishes, in calling on the county councillors to discuss municipal affairs before the election in October. Why should not our town representatives be heard from? More interest could well be taken in county affairs by our townsmen.

PROOF FROM THE PEOPLE.

Mr. Geo. Buskin, missionary for the International Mission in Algoma and North-West. He writes:—"I wish to say that Dr. Fowler's Extract of Wild Strawberry has been to me a wonderful, soothing, speedy and effectual remedy. It has been my companion for several years during the labors and exposures of my missionary work in Algoma. Well it is for old and young to have it in store against the time of need, which so often comes without warning."

GEO. BUSTIN, Missionary,
Toronto, Ont.

Editor "Isn't that Colonel Sharp coming across the street with his gun?" Foreman: "Yes Sir." Editor: "John you will be quite safe, in the cupboard. I will go upstairs and see if the roof requires repairing."

HOW TO GIVE AN ALARM.

Meaning of The Whistles From The Pumping Station.

There have been several fire alarms lately, and two bad fires. All citizens should know when the fire alarm boxes are and how to give an alarm. They should also know the meaning of the whistles from the pumping station, which indicate the direction in which the fire is.

The fire alarm boxes are (1) At pumping station. One long whistle followed by one short whistle informs the public that the alarm is rung from that place; (2) At Town Marshall Gibson's house, Elm street; (2) At Superintendent of water works D. Munro's house, Main street. One long whistle followed by two short indicates the alarm is rung from either of these places. (4) Town hall, one long followed by three short whistles. (5) Chas. Comben's house, Chapel street (formerly Chief Dibblee's house) same signal; (6) On building corner of King and Main street, same signal.

In Wellington ward one long followed by four short whistles means that the alarm is from the Woodstock hotel on Main street south; one long and five short, from John Troy's house near Broadway school; one long and six short, from No. 2 engine house or Dickinson's tannery. Anything under one long followed by four short whistles means the alarm is from the north side of the bridge. One long whistle followed by four or more short whistles means that the alarm is from Wellington ward.

When a citizen sees a fire he can give the alarm by going to any box, opening it and pulling down the lever excepting at the box on Nicholson's corner on King street. Here he is to break the glass and pull the lever.

THEY DO GOOD WORK.

The following letter tells what people think about Laxa Liver Pills:

DEAR SIR, I gladly testify to the virtues of Laxa Liver Pills. I used to be troubled with severe headaches and constipation for a long time, and took these pills hoping for a cure, and my hopes were rapidly fulfilled. I have found them a never failing remedy and heartily recommend them.

Signed, MISS S. LAWSON,
Moncton, N. B.

The most absent-minded man is not the man who hunted for his pipe when it was between his teeth, nor the man who threw his hat out of the window and tried to hang his cigar on a peg. No! But the man who put his umbrella to bed, and went and stood behind the door.

"Will you keep an eye on my horse, my son, while I step in and get a drink?" "Yes, sir." Stranger goes in, gets his drink, comes out, and finds his horse missing. "Where is my horse, boy?" "He's run'd away, sir." "Didn't I tell you to take care of him, you young scamp?" "No, sir; you told me to keep my eye on him, and I did till he got clear out of sight."

A short time ago a lady had occasion to do a little shopping in the mourning department of one of our leading tradesmen, and having two friends who were assistants in some part of the establishment, she inquired of the young man who was serving her whether the Browns were in that shop, whereupon he promptly replied: "No, madam; only blacks in this shop!"

"It's taking that painter out there in the kitchen the whole day to paint the wood-work," snapped Mrs. Chugwater, "and he could do it easily in two hours. That's what comes of having a handsome young chit of a girl for a cook!" "I believe you are right, my dear," said Mr. Chugwater, soothingly. "Perhaps it would hurry him up a little if you would—h'm—go out there awhile."

Patsy (breathlessly): "I say, Jimmie, yer father's got arrested, and the coppers is clubbing the life out of 'im." Jimmie (aged 5): "Well, he needn't think I'm goin' to help 'im. Now he know how I feel when he's clubbin' me."

"What is the principal product of the sheep?" "Wool." "And what is made out of it?" The boy is silent. The teacher points to his pupil's trousers and asks: "What are those pantaloons made of?" "Out of my father's old ones."

"You," said the new cashier, "will find me like a watch. You can judge me by my works." "All right," responded the banker, arising to the merry occasion, "I will bear your case in mind and see that you do not accumulate any superfluous dust in your movements."

HARTLAND.

LITTLE THINGS

That count in the household expenses are the CHILDREN'S SHOES. They can't be overlooked. With the opening of school a new supply of footwear is a necessity. We are prepared to meet the demand, and have opened up a stock of SCHOOL SHOES that are probably the best ever shown. The utmost care has been used by the makers, both in the selection of the leather and the mode of making, and the result is strong, serviceable, yet stylish footwear. Prices are small for such values.
