

NOVEMBER 30, 1897.

NEWS FROM THE COUNTY.

NORTHAMPTON.

Miss Maria L. Bull returned last Thursday from a lengthy visit to Boston.

Mrs. Allan Watson, of Minneapolis, is here at present, visiting relatives.

A terrible accident occurred on in Kilmarnock last Thursday night. While Clarence, the 17 year old son of Banford Bulmer, was hanging up a set of harness, which he just removed from the horse, the animal kicked out viciously with both feet, striking the young man in the back near the region of his heart. It happened that one of the family was present at the time. He was instantly removed to the open air, where he died almost immediately. His remains were interred at Greenbank on Sunday.

We are pleased to be able to state that Miss Minnie Gibson, who was the victim of a painful accident some time ago, is gradually recovering.

Owing to the absence of Rev. Mr. Belliss, the service in the school house was held the first Thursday in Nov. instead of the last Thursday in Oct. as is usual.

The small number of young people from the town and vicinity, who "happened in" recently at the residence of Mr. and Mrs. Geo. E. Phillips, were royally entertained and the reputation of the host and hostess as beau ideal entertainers was thoroughly established. A number of pleasant games were indulged in and the party dispersed about eleven, after spending a very enjoyable evening indeed.

Mrs. John Bacon, of Worcester, Mass., who has been here on a visit to her daughter, Mrs. Phillips of Hillhurst farm, left for her home on Thursday. Miss Ella Thompson, of Bristol, who has been visiting at the above place, took her departure on Tuesday.

Early in the summer when dogs were working such havoc among the sheep in other places, Northamptoners were congratulating themselves on escaping from this terrible scourge entirely free, but recently many visitations from dogs have been reported, Robert Brown, Alex. Kearney, and Joseph Wolverton are among the heaviest losers. One of the sheep purchased by Mr. Brown from the government importation was badly worried.

A well known young bachelor is about to enlist in the ranks of benedicts next Wednesday afternoon. It is understood that a reception will be tendered him on his return.

Johnnie Stairs is building a substantial and slightly dwelling house at the end of the river bridge.

The observant traveller passing through Grafton cannot fail to be impressed with the general signs of prosperity everywhere apparent. Robert McElroy, the hustling millman, has added materially to the growth of this village, having erected some five houses and tenements and has more building. Mr. McElroy has saved nearly two million feet of lumber the present year and has done business generally, to the extent of \$10,000.

Mr. Ives, at the time of writing, is very low and no hopes are entertained of his recovery. He is suffering from a cancer in the stomach.

A case which created considerable discussion at the time as to the probable outcome was tried recently at the new magistracy of W. C. Bull, Esq. The plaintiff in the case being James Ketch of Woodstock and Matthew Phillips of Pembroke the defendant. William Queen appeared for the plaintiff and J. C. Hartley for defendant. It appears that Phillips had been supplying the Ketch family with butter for some time back, and not having received all his pay entered a suit for the recovery of the same, recently before the police magistrate, and now the Ketch family having extended, what Mr. Phillips considered hospitality to the extent of ten meals entered an offset for \$2.50, but the offset being brought up too late was not considered at the trial in town, hence the suit in this place. A good deal of contradictory evidence was given, Phillips and his wife protested as to the number of meals, and minutely described the circumstances under which they were taken. On one occasion Mrs. P's hat was hidden until after meal time, and at all times only after the strongest persuasion did they accept the invitations, and aside from this they considered the K's amply repaid by contributions of vegetables etc gratis. Mr. Ketch swore that he was away while all this was going on and considered that he must be reimbursed for his outlay, and failing to get justice in town was determined to try here. Mrs. Ketch and other witnesses swore that they were keeping boarding house and that the Phillips' always happened along at meal time and put up, and that they got no compensation for their trouble. After the evidence was all in both counsels made very persuasive appeals to the jury. Mr. Hartley insinuated ignorance of law on the part of the court generally. The stigma was instantly resented by his honor. In conclusion in addressing the jury his honor refuted all charges of favoring either party and left the matter entirely in the hands of the jury. The latter after about an hour's deliberation rendered a verdict in favor of the defendant.

Mr. and Mrs. Samuel Cluff, who have been absent for some weeks in Maine, where the latter's eyes have been undergoing treatment, returned home on Saturday.

SISSON RIDGE.

Hallowe'en being on Sunday this year passed off quietly. A light coating of snow covered the ground All Saints Morning, but it soon disappeared leaving the roads in a very muddy condition.

Sisson Ridge has been visited by a number of ministers. Mr. Milan of Peel held meetings in the school house Sunday and Monday. His meetings were interesting and were quite largely attended. On Monday last Mr. Gross Baptist minister from Grand Falls crossed over to here by way of New Denmark. He encountered many difficulties on his road; such as being thrown out of the wagon twice, and getting his horse stuck in the mud, but in spite of all this he arrived here in time for meeting Monday evening. His meetings proved quite a success and all seemed sorry when he took his departure on Thursday. Mr. Gratz of Andover intends holding a meeting at the house of Mr. Briggs on Saturday. Mrs. Sisson and Mrs. Matthew Briggs intend having their babies baptized at this meeting.

Our young men who took their departure for the woods have returned again. It seems one of them was so attached to or entangled in a "net" that he came back again. Anyway we are glad to see the young men home again.

Mrs. Douglas Giberson, who was visiting her old home in Arthurette returned yesterday evening.

Henry Burgoyne, who has been away for some time has also returned.

It is rumored that Mrs. Chandler Brown intends going to her home in Arthurette for the winter.

We extend congratulations to Mr. and Mrs. Ephraim Lewis, on the arrival of a young daughter, last Saturday.

Miss Violet Jones, one of the young ladies of this place has gone to Boston to spend the winter with her uncle and aunt, Mr. and Mrs. F. H. Rogers.

George Brewster had a plowing party or frolic, as it is generally called, and met with great success, which was followed by a dance in the evening, after which all went home happy, as those parties at this time of year are always contagious, we expect they will be in nearly every household, as in previous years.

Sterling Bricknell is at present running his threshing machine, of which he is an expert. Mr. Bricknell says the oats are not an average crop.

Messrs. Welch & Lynch are sending large parties to the lumber woods on head waters of Miramichi and Burnt Hill.

Scott Act Inspector Colpits was a Bristol on Saturday, and also took a trip further up river.

Supervisor Squires has awarded the contract, for repairing the main road near Dr. Atkinson's to Leonard Hotham whose tender was the lowest.

This is where the washout took place last spring, and Mr. Hotham has a crew at work filling the place with stones, after which it is to be covered with earth. Teams at present have to go around this place, on the shore.

Dr. Atkinson went to Middle Sironds on Thursday evening to address a meeting in the Orange hall.

The scholars are preparing for a concert in the hall on Thanksgiving, and it is said the members of the True Blue Lodge will have one about the same time.

G. S. Wiggins is spending a few days at home this week.

Moody Rogers Jr., a young man about 30 years old died quite suddenly on Saturday. Though in failing health for some time his death was quite unexpected, and he was out around, till just the day before his death. He was the fifth son of Mr. Moody Rogers, and was highly esteemed by all who knew him.

Mr. Frank and Miss Jennie Tweedie, Mr. Carey and Miss Marion Estey attended the social at Florenceville Saturday evening.

BATH.

The most noticeable feature in the prosperity of this village as remarked by the occasional visitor, is the number of improvements that have been made this summer.

E. F. Shaw has built a new house and otherwise made marked improvements. The burying ground which has been so long neglected is now rather an ornament to the village. Hamilton Giberson too has taken hold and has added considerable improvement to his home. Among others who have recently done some building are E. D. R. Phillips, C. E. Gallagher, John McCreedy, John Bohan, Robert Squires, Zeb. Giberson, John Healy, F. Green. But in contrast to all this improvement we still have one eyesore, which especially in muddy weather like this, reminds us forcibly of our neglect. This is the apology for the sidewalk which runs for some distance along our Main Street but it is dangerous to walk upon, and would be better out of the way. If it was not for the railroad, walking would be but seldom indulged in.

A number of our young men who find work and wages better in the woods of New Hampshire and Maine, have left home during this last month for their winter quarters.

Alexander McIsaac, who has been outside for this last three years, is at present on a visit to his parents. He reports times good, with better prospects, in the Eastern States.

C. W. Taylor and family, of Millville, have recently moved to Bath and settled. Mr. Taylor is a woodworker and carpenter, and no doubt a good one, if we may judge from the fact that he has been very busy ever since he came here.

Anybody who happens to meet J. W. Bohan now-a-days must have a cigar and not refuse. This reason of this outburst of generosity, as most people now know, is—a boy.

Rev. G. A. Giberson, whose wife has been ill for some time past, has the sympathy of the whole community, and at the same time we are pleased to know that his wife is rapidly improving.

The fact of there being established at Hartland a branch of the Peoples Bank, has caused some of our citizens to be highly indignant. They think that Bath should be the proper place.

Councillor Gullagher went to St. John last week with a carload of fine beef cattle.

Since a true description of the Klondike region has come to hand, our people have been struck with the remarkable resemblance which the Monquart territory bears to the Yukon territory, and putting two and two together, they argue that there must be gold on the Monquart. These arguments have led to action with the result that somebody claims to have struck it rich, but as the samples of ore are in Mr. Best's hands in St. John, so also is the doom or good luck of the prospector. We will know which it is soon.

On Tuesday last at Johnville church, Miss Annie Corbett, sister of Councillor and Game warden Corbett, was united in marriage to Michael Donovan, by the Rev. Father Murray. Both parties are from Johnville, and have many friends who wish them much happiness.

Mr. Burrows was in the parlor, but what was said in the nursery could be plainly heard. "That's a nice baby boy," said the visitor. "He has your eyes and nose and smile." "Yes; but look—see? He has his father's teeth." Then Mr. Burrows got angry, and called up: "Take 'em away from him, Mary; don't let him play with my teeth."
