

BABY WAS CURED.
 DEAR SIR,—I can highly recommend Dr. Fowler's Extract of Wild Strawberry. It cured my baby of diarrhoea after all other means failed, so I give it great praise. It is excellent for all bowel complaints.
 MRS. CHAS. BOTT, Harlow, Ont.

THE HEAD MASTER
 GENTLEMEN,—I have found great satisfaction in the use of Dr. Fowler's Extract of Wild Strawberry, and consider it invaluable in all cases of diarrhoea and summer complaint. It is a pleasure to me to recommend it to the public.
 R. B. MASTERTON, Principal,
 High School, River Chario, N. B.

Our Specialties

Are: Balsam of Horehound and Squills, for Coughs and Colds.
 Tonic Elixir of Iron and Quinine, a Stimulant and Blood Builder.
 Connell's Curative Compound, a Soothing Salve.
 If you have not tried these remedies do so now if you have any of the ills they will cure.
 Complete stock of Drugs, Chemicals, Patent Medicines, Perfumes, Soaps, Brushes, Tooth Preparations, Pipes, Cigars, Tobaccos.
 Physicians' Prescriptions and Family Receipts Carefully Compounded.

Connell's Drug Store,
 Opp. Carlisle Hotel.

T. B. THISTLE,
MERCHANT TAILOR,

Has opened with a fine stock, in
S. R. BURTT'S BUILDING HARTLAND.
 All kinds of Custom Tailoring done. Latest Good so guaranteed.

THE E. B. EDDY CO.,
 LIMITED,
HULL, CANADA.

NOTICE.

Having purchased the good will Meat business of Forrester McLean we shall in the future keep
Beef, Pork, Mutton, Lamb and Veal, with Ham, Eggs and Sau-seges in their season.

Also, in addition to the above we propose keeping Pickled Pigs' Feet, Lambs' Tongues and Tripe, with sundry other articles. After getting our business fairly started and market thoroughly painted and cleansed we would respectfully solicit a fair share of the public patronage. Our aim will be to so treat our customers that there may be a degree of confidence between buyer and seller.

New Brunswick Enterprise.
 The Government of New Brunswick has been displaying commendable enterprise in respect to the improvement of the live stock industry of their province. They have been purchasing purebred cattle and sheep of the best types they could obtain, putting the selection in the hands of men of ability and experience, and then selling these purchases again by public auction on favorable terms to breeders in the province. The object is, of course, to effect a better selection than could be made by private enterprise, and to give the local breeders the advantage of getting good stock at prices that might be considered wholesale without being put to the trouble and expense of going far away from home to obtain it. The commissioners appointed by the government were Hon. Mr. Farris, of White's Cove, Mr. Smith, M. P. P. for Carleton Co., and Mr. Peters, the newly appointed Secretary for Agriculture. These commissioners visited Quebec and Ontario and made their selections and purchases. The stock was then taken to Fredericton and sold at a two-days' sale and the affair was made the occasion of a grand public meeting or two in the interests of live stock.

By instruction the cattle purchased by the commissioners were principally of the fair breeds. A few Jerseys and Guernseys were got, and a somewhat larger number of Holsteins; but the bulk of the dairy cattle obtained, however, were Ayrshires, and these mostly young bulls. Some of the cattle were purchased in Quebec, but for the most part they were purchased in Ontario.

When the sale came off it was found, somewhat unexpectedly, that the more active bidding was for the beef breeds, especially for the Shorthorns and Herefords; and a very keen inquiry was also made for Polled Angus and Galloways, the belief being general that these last named breeds were peculiarly adapted to the pastures of New Brunswick. The Shorthorns sold quickly and brought good prices. So also did the Herefords. With respect to the Ayrshires it is noticeable that the old type of Ayrshire, with dark colors and small, crooked horns, were decidedly the favorites with the buyers. The commissioners had purchased a few of the modern type of Ayrshires—nearly all white, with big horns; but these, when sold, brought prices much below what they would have brought in Ontario. Our Ayrshire men should remember this preference when catering to the New Brunswick trade. It should be mentioned that the commissioners received great praise from the breeders present in regard to the excellence of their selections of cattle.

The sheep obtained by the commissioners were equally well selected, but, unfortunately, they did not realize good prices when sold. Evidently the New Brunswick farmer has not awakened up to the fact that this country is exceedingly well fitted for sheep-raising, and that the sheep industry will be, in the near future, one of the very best branches of farming he can go into. Being so much nearer the English market than his Ontario brother, and having easy access, too, to the Boston market, the raising of good mutton sheep and lambs ought to be one of New Brunswick's best industries. In the sale the Shropshires sold best; the Cotswolds next and then the Leicesters. The Shropshires were rather thin in flesh, though of good quality. The Cotswolds and Leicesters were in better condition, and cost more, but they did not realize up to cost by several dollars per head. The Dorset Horns and the Lincolns were the worst losers of the lot. All of which goes to show that the New Brunswick sheep breeder has lost a good chance to better himself, for which, we doubt not, he will be kicking himself all around his pasture-field before a year is over. But the sheep sold were good ones, and are destined to be of great benefit to the sheep-raising industry of the province.

The whole undertaking was exceedingly creditable to the enterprise and forethought of the New Brunswick Government. New Brunswick is fitted by nature to be a great stock-breeding country, and the sooner the people get established in the industry the better for the material interests of the province in every respect. The sale was well attended. Many of the purchasers were private breeders; but the bulk of the purchases were made by local agricultural societies scattered throughout the province. It will thus result that the stock purchased will effect a much larger range of good than if it had all been purchased by private individuals.

A regrettable feature of the sale, but one which will serve as an object lesson to breeders generally, was a matter connected with the Jersey importation. There were only thirteen Jerseys, but of these ten were purchased from one breeder in Quebec. By agreement with the seller these ten head were to be tested with tuberculin. Unfortunately the owner omitted to attend to this and the animals had to be tested at Fredericton, and some of them were found to be suspicious. The whole lot were therefore withdrawn from sale and they are now being isolated. As they were all brought down in one car by themselves, and as they had never in any way come in contact with the other

cattle, the matter did not affect the sale of the rest of the stock in any way.—Farming (Toronto.)

HAPPY PEOPLE

Who Are Made Well and Strong
 by Paine's Celery Compound.

No Return of Disease

Cures are Permanent and Lasting.

A Letter From a Montreal Gentleman
 Cured Four Years Ago.

Medical colleges conferred upon Professor Edward Phelps, M. D., their highest honors for his invaluable investigation in medicine, but all this seems small in comparison with the grand chorus of gratitude that has gone up all over the world from men, women and children who have outgrown weakness, lack of health and disease by the use of Paine's Celery Compound, the noble professor's greatest medical discovery.

Paine's Celery Compound justly boasts of one grand advantage over all the advertised remedies of the day, whether they be pills, nervines, bitters or sarsaparillas. The cures effected by Paine's Celery Compound in cases of rheumatism, neuralgia, kidney and liver troubles, nervousness and dyspepsia are permanent and lasting.

Thousands of glad letters like the following from Mr. Charles, Bowles, of Montreal, are received every year:

"Over four years ago I gave you a testimonial for Paine's Celery Compound after it had completely freed me of rheumatism of many years standing. I am happy to state I have had no trouble from the disease since your Paine's Celery Compound cured me, proving conclusively that your medicine works permanent cures. I am always recommending Paine's Celery Compound to the sick, and particularly to those troubled with rheumatism."

His Longest Day.

There was in those days says an exchange, a serious mannered Irish member named Blake (not to be confounded with the premier of Canada, sitting member for South Longford), who is remembered for a brief correspondence he read to the delighted House. It was introduced in a speech delivered in debate on the Irish Sunday closing bill. Mr. Blake had, he confidently informed the House, an uncle who regularly took six tumblers of whiskey toddy daily. This troubled him and after much thought he resolved to write and remonstrate with his relative. The following was the letter:

"My Dear Uncle: I write to say how pleased I should be if you could see your way to giving up your six glasses of whiskey a day. I am sure you will find many advantages in doing so, the greatest of which would be that, as I am persuaded, it would be the means of prolonging your days."

The uncle replied:

"My Dear Nephew: I am much obliged to you for your dutiful letter. I was so much struck by what you said, and, in particular, by your kind wish to lengthen my days, that last Friday I gave up the whiskey. I believe you are right, my boy, as to my days being lengthened, for, bedad! it was the longest day I ever remember."

A Boasted Advantage Proves to be a Source of Weakness and Worthlessness.

Makers of crude and imitation dyes must necessarily claim some advantages for their common productions in order to attract consumers. Among the deceptive and sweeping claims put before the public by a certain maker of dye, one in particular must attract the attention of even those who are novices in the art of home dyeing; we refer to the statement, "Will not soil the hands."

This claim is a direct acknowledgement of weakness and worthlessness as far as coloring power is concerned. Any wise woman will readily see that a dye that will not stain the hands is of little use in the work of dyeing. Such dyes may give to light and flimsy fabrics a show of tint or color, but it soon vanishes from the materials when they see the light of heaven.

The Diamond Dyes, no matter how much water is added, having coloring power to stain the hands. A bath prepared for one ten cent package of dyeing six pounds of goods a light color will give as durable a shade as if the bath had been prepared for dyeing two pounds of goods a dark color.

It is coloring power that home dyers look for and must have, colors that will stand sunlight and washing with soap. As two sticks can be used for moving the goods about in the bath, there is no necessity to have the hands or arms in the dye. Diamond Dyes are true and powerful agents, always doing the best work, and never make false and misleading claims.

Fun in Advertisements.

Curiously-worded advertisements that are funny without intent are common. A periodical offered a prize the other day for the best collection of such announcements, and the following is the result:—

"Wanted, experienced nurse for bottled baby." "Furnished apartment suitable for gentlemen with folding doors." "Wanted room by two gentlemen about thirty feet long and

twenty feet broad." "Wanted, by a respectable girl her passage to New York, willing to take care of children and a good sailor." "A boy wanted who can open oysters with references." "Bulldog for sale; will eat anything, very fond of children." "Wanted an organist and a boy to blow the same." "Wanted, a boy to be partly outside and partly behind the counter." "Lost, near Highgate Archway an umbrella belonging to a gentleman with a bent rib and a bone handle." "Wanted, a good boy for punching." "To be disposed of, a mail phaeton, property of a gentleman with a movable headpiece as good as new."

CAN'T YOU SLEEP.

Sleeplessness is one of the most frequent symptoms of heart and nerve troubles. It affects all classes and all ages. Milburn's Heart and Nerve Pills restore the nerves to healthy action and regulates the heart. Mr. Miles Boone, Fredericton, N. B., tells how they work. "I could never rest well and often woke up with a start, and then sleep left me for the night. These pills gave me almost immediate relief, giving me healthful, refreshing sleep, and I am now strong and well."

 UPPER WOODSTOCK

PROBATE COURT, County of Carleton.

To the Sheriff of the County of Carleton, or any constable of the said County—Greeting:
 Whereas, the surviving administrator of the estate of Samuel B. Kitchen, deceased, hath filed in this court an account of his administration of the said deceased's estate and hath prayed that the same may be passed and allowed in due form of law.
 You are therefore required to cite the heirs and next of kin of the deceased and all of the creditors and other persons interested in his said estate to appear at a Court of Probate to be held in and for the County of Carleton, at the office of the Judge of Probate for said county, in the Town of Woodstock in said county, on Thursday, the 14th day of November next, at Ten o'clock in the forenoon, then and there to attend the passing and allowing of the said accounts as prayed for and as by law directed.
 Given under my hand and the seal of the said Probate Court, this sixteenth day of September, A. D. 1897.
 [L.S.] LEWIS P. FISHER,
 FRANK B. CARVELL, Judge of Probate,
 Registrar of Probates for County of Carleton.

Summer Groups!

The summer weather has probably directed your attention to PHOTOGRAPHS. I can do you a Beautiful piece of Photography in a group or an individual, either out door or in.
