TO VISIT IRELAND.

It has often been urged against the Royal Family that they have neglected Ireland. Her Majesty the Queen has not made within recent years a visit to the smaller of the three countries which make up the British Isles. It is now said that the Duke and Duchess of York will make a visit to Ireland and that extensive preparations are being made for their reception, or by the time this gets in print, the visit will have been made. A late dispatch says:—"The yacht will be boarded by Baron Ardilaun, Vice-Lieutenant of Dublin County, and by the High Sheriff of Dublin, with the Kingstown commissioners. The latter will present a dutiful address to the Duke and Duchess. Promptly at noon the Duke and Duchess of York will disembark while a royal salute is being fired and the royal anthem played. The guard of honor at the landing stage and to the railway station will be the West Kent Regiment. The railway station will be elaborately decorated with flowers, and a special train will bring the Duke and Duchess to this city, where they will be received on arrival by Lord Frederick Roberts of Kandahar and Waterford Commander of the forces in Ireland, a staff, the Yorkshire Light Infantry finishing the guard of honor. All the troops in Dublin will line the route of the procession from the railway station to Dublin Castle, where the guard of honor will be the Connaught Rangers."

One Honest Man.

DEAR EDITOR.—Please inform your readers, that if written to confidentially, I will mail, in a sealed letter, particulars of a genuine, honest, home cure, by which I was permanently restored to health and manly vigor, after years of suffering from nervous debility, sexual weakness, night losses and weak shrunken parts. I was robbed and swindled by the quacks until I nearly lost faith in mankind, but thank heaven, I am now well, vigorous and strong and wish to make this certain means of cure known to all sufferers. I have nothing to sell and want no money, but being a firm believer in the universal brotherhood of man, I am desirous of helping the unfortunate to regain their health and happiness, I promise you perfect secrecy.

The Fall of Big Chief Sockalexis.

A small boy managed to secure admission to the ball game on Monday and stood on the top row of the bleachers' stand, where he could watch the game and at the same time talk to a couple of small friends of his who were on the sidewalk below.

The game had been in progress a short time when one of the boys on the walk called up:
"Say, Jimmie, kin you see Socks?"
"Yep."
"What's he doin'?"
"Nothin'."
Another pause.
"Jimmie, what's he doin' now?"
"Muffin' a fly."
"Gee!"
Another long pause.
"Jimmie, kin you see Socks now?"
"Yep."
"What's he doin'?"
"Muffin' another fly."
"Gee!"
A shorter pause.
"Jimmie, kin you see Socks now?"
"Nop."
"Why not?"
"Cause they've took him out o' the game an' put another duffer in his place."
"Hully gee! ! !"

The two broken-hearted small boys staggered away from the fence and sat down on the curb.—Cleveland Plain Dealer.

Mrs. S. James, Seaford, suffered for years with what is called old people's rash. She was treated by many physicians without any result. Mr. Fear, the local druggist, recommended Dr. Chase's Ointment, which relieved the irritation at once and speedily effected a permanent cure of the skin eruption. Mrs. James also says Dr. Chase's Ointment cured her of Itching Piles which she had been troubled with for years.

Bill Schriver's Initiation.

Bill Schriver, the Cincinnati catcher, was a trifle green when he first signed with the Brooklyn base ball club a dozen years ago. Bill was a typical countryman, but was such a promising ball player that the Brooklyn club decided to take him on a western trip.

"Where are we going?" Bill asked the manager as they boarded a train at Jersey city.
"Out West," was the laconic reply. Then Bill sat beside a window and gazed at the country, passing rapidly by. When the train reached Newark, Schriver looked around at the other players and then sank back into his seat. He was apparently nervous about something and kept fidgeting until the train rolled into Trenton. Then he grabbed his valise and batbag and moved rapidly towards the door.

"Hey, there, Bill!" yelled the players "where are you going?"
"Why, ain't this the end of our route?" asked the catcher. "How much further have we got to travel, anyhow?" When Bill finally reached St. Louis he was in a sort of trance.

Says the Toronto World:—The building of a telegraph line through Canadian territory into the Klondike would be desirable from a national point of view as well as prove a profitable investment commercially. The cost will run up to a quarter of a million dollars. The receipts from a telegraph line

into the Klondike would be phenomenal. Two or three years' operation of the line ought to pay for its entire construction. Postal communication with Alaska will be annoyingly slow for years to come. A telegraph line would attract all the business communications between the Klondike and the outer world. The government stands to make a heap of money if it will rush through this proposed telegraph line. The existence of the line would do more to ensure good government in the country than the expenditure of three times its cost in soldiers and ammunition. By all means let the Canadian government take this work in hand and put us into communication with the Klondike before the great rush of next spring sets in.

Things Worth Knowing.

A few drops of salad oil on tar stains will remove them.
Nails dipped into soap will drive easily into hard wood.
Rub stained or painted floors with sweet skimmed milk.
Very hot water is better for bumps and bruises than cold water.
To keep off flies paint walls or rub picture frames with laural oil.
Morocco leather may be restored with varnish of white of an egg.
Add a pinch of salt to the whites of eggs to make them beat quickly.
If burning oil gets upon the floor smother with woolen blankets or rugs.
Fine table salt (slightly moistened) will remove egg stains from silver.
Vinegar will remove the disagreeable odor of kerosene from tinware.
A cement made of sand and white lead paint will stop leaks in the roof.
To remove paint from glass just rub it with a wet penny or a large silver piece.
A little borax or soda in the dish water makes brighter tinware and is better than soap.
Never wash raisins that are to be used in sweet dishes. It will make the pudding or cake heavy.
Prick potatoes before baking, so that the air can escape, this will prevent their bursting in the oven.
For a sore throat, beat the white of an egg stiff, with all the sugar it will hold, and the juice of one lemon.
Soda is the best thing for cleaning tinware; apply with a damp cloth and rub well, then wipe dry.
The juice of half a lemon in a teacup of strong black coffee, without sugar will often cure a sick headache.
When baking cakes, set a dish of water in the oven with them, and they will not be in any danger from scorching.
Salt and vinegar, applied hot, are good for cleaning brass, which should afterward be polished with fine ashes.
To polish kitchen stoves nicely mix a little bicarbonate of soda with the brick dust and rub them together.
Six parts of sal volatile and three parts of laudanum mixed will cure toothache. Apply to the tooth with lint.
A tablespoonful of powdered alum sprinkled in a barrel of water will precipitate all impure matter to the bottom.
Use soapy water when making starch, and the irons will not stick, while it gives the clothes a glossier appearance.
To test the freshness of eggs, drop them in a dish of water, and if the small end comes to the top they are fresh.
It is an accepted fact that the tone of the piano improves when the instrument is moved from the wall of a room.
To give a good oak color to a pine floor wash in a solution of one pound of copperas dissolved in one gallon of lye.
To make pies or biscuit a nice color, moisten the top of them with a little sweet milk just before they are put into the oven.
To lessen rust, lay in paraffin oil and let it remain covered for some time. The oil will loosen the rust so that it will come off.
Wormwood boiled in vinegar and applied hot, with enough clothes wrapped round to keep the flesh moist, is said to be an invaluable remedy for a sprain or bruise.

A Winona Lady

Saved From a Life of Torture.

Paine's Celery Compound Conquerors After Years of Failures With Other Medicines.

Mrs. G. H. Parker, of Winona, Ont., was for eighteen years a complete martyr to neuralgia, that cruel and merciless tormenter of thousands of old and young in Canada. During her long years of agony she had the services of some of the best medical men, and consumed any quantity of patent medicines, but all failed to drive off the tyrant that was making life a burden. At last she was persuaded to test the power and virtue of Paine's Celery Compound, and the happy results that rewarded her faith are described in the following letter:

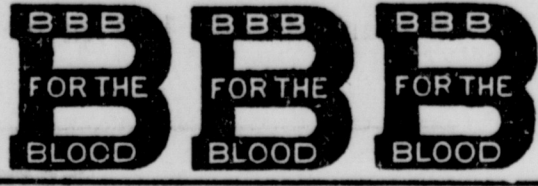

"I have been a great sufferer of neuralgia for nearly eighteen years; these sufferings at times were so bad that words would fail to describe them. After having tried every known remedy and different remedy and different physicians, and receiving no help, I was persuaded to try your Paine's Celery Compound, which I had been using for the past four months. I am happy to say that I am now a different woman and completely cured. I can recommend your Paine's Celery Compound to all my friends, for it has been worth hundreds of dollars to me."

The British Association is now in session in the city of Toronto. There are many distinguished men from all portions of the Empire.

FOR THE BLOOD

In Spring Time get Pure Blood by using B.B.B.

No other remedy possesses such perfect cleansing, healing and purifying properties as Burdock Blood Bitters. It not only cleanses internally, but it heals, when applied externally, all sores ulcers, abscesses, scrofulous sores, blotches, eruptions, etc., leaving the skin clean and pure as a babe's. Taken internally it removes all morbid effete or waste matter from the system, and thoroughly regulates all the organs of the body, restoring the stomach, liver, bowels and blood to healthy action.

Too Deep For Him.

He was running a lawn mower one of the hottest days of last week, and of course it goes without saying that a man who would do that must be lacking in some way. Nevertheless, the man who came along thought he would be facetious.
"Hey!" he called.
The man with the lawn mower stopped and looked at him.
"You ought to stop that long enough to clean your walk," said the young man. "I'm tired of wading through this snow every morning."
The man with the lawn mower looked at the young man in a vacant sort of way for a minute. Then he walked over to the sidewalk and looked at that.
"What are you talking about?" he asked in a grived tone, finally. "There's no snow there."
Then he went back to his lawn mower and the young man continued on his way kicking himself.—Chicago Evening Post.

Baby Eczema and Scald Head.

Infants and young children are peculiarly subject to this terrible disorder, and if not promptly arrested it will eventually become chronic. Dr. Chase made a special study of Eczema and disease of the skin, and we can confidently recommend Dr. Chase's Ointment to cure all forms of Eczema. The first application soothes the irritation and puts a little sufferer to rest.

Narrow is the gate, because he who enters must leave himself behind; straightened is the way, for he who seeks it must walk by faith in the Divine laws, and must part with his weakness, his impatience, his prejudice.

Horse Dress

THE SADNESS

Of losing a friend might in some slight measure be alleviated by knowing that he was placed in a Good Casket instead of a rough box. Death is generally the last thing one looks for, and consequently it is difficult to get people to read the advertisement of an undertaker. However, you are reading this, and when you want the services of an undertaker I hope you will give me a call. All my stock is the best.
