WOODSTOCK, N. B., JAN. 20, 1896.

ABOUT GOVERNMENT.

The Toronto Globe in a recent issue says that "the tendency is toward too much government, and it is a tendency which can be counteracted only by the occasional application of a remedy approaching the heroic. Canada is overgoverned."

In no section of the dominion is this more apparent than in these Maritime Provinces. The Globe is not slow to point out these provinces as a striking example to be avoided by the North-West territories when they attain to the position of provinces. We quote the words used by the Globe on this subject:—"In the Maritime Provinces there is a mistake to be remedied. The public men of New Brunswick, Nova Scotia and Prince Edward Island may cling as tenaciously to their separate legislatures as American politicians do to the electoral college."

LAWYER AND WITNESS.

The Ontario press is discussing the question of lawyer and witness, the ball having been set rolling by the Toronto World, which contained a severe attack on the "forensic bully," the outcome of the examination of witnesses in the London election case. The Sun of Toronto, Goldwin Smith's paper, thus deals with the question:—"The business of counsel is to examine the witness, not to insult him, and the judge ought to restrain anything like needless brow-beating. Witnesses are sometimes badgered and bullied when there is not the slightest reason for believing that they wish to lie or conceal the truth."

Marry This Girl Quick.

I saw in your paper that a 13 year old boy made \$1.25 the first hour he worked selling the perfection Metal Tip Lampwick. I ordered a sample and went to work and the first week I cleared \$10, the second week I cleared \$15. I expect to run up to \$25 a week in the near future, as the Perfection Metal Tip Lampwick makes such a beautiful white light and does away with smoky chimneys and bad odor and saves oil, it is easy to sell. If you wish to try it send 13 two cent stamps to Miss A.M. Fritz, Station A, St. Louis, Mo., and she will send you sample outfit. This is a good way to make money around home. MISS TINA W.

About Mr. Nansen.

Nansen's recent voyage of exploration into the Arctic and his safe return have given a fresh interest to everything connected with him, says the New York Press. There can be nothing closer to him than his wife, so that a glance at her life in her beloved Norway home is really an introduction to the great traveller in his most intimate relation. When Dr. Nansen married Eva Sars, in 1889, it was agreed between them that there should be no material change in the methods

of their two lives. The husband was to continue his work of exploration, as he thought well, and the wife was to teach music as she had done for years. This plan they have pursued, with few exceptions. Sometimes Mrs. Nansen has accompanied her husband in his winter ski runs in the mountains and valleys of Norway, and it was his intention to accompany her husband on his last trip into the Arctic, but she was dissuaded at the last moment.

She let him go without her, and when he is away she teaches music and cares for her little daughter, Liv, or Life, who was only a baby when her father went away.

The Nansen home is at Christiania, Norway. It is a beautiful house, at the foot of a wooden hill, with fair meadows and fragrant pine woods, and is an ideal retreat for one whose life work takes him away into the bleak cheerlessness of northern winters so often. The home is called Godthaab Villa.

When Mrs. Nansen was found at her home a few weeks ago, she was singing an aria from an opera. She has the reputation of being the finest romance singer in Norway. She is a petite woman, of brunette beauty, with the sparkle of merriment shining in her rich, red cheeks, and the evidence of good nature in her welcome voice. She wore a dark serge shirt, a cross-over blouse, with full sleeves, according to the English style, and her hair was brushed back from her broad intellectual forehead.

Her house is filled with works of art and curiosities from all parts of the world, including trophies of Dr. Nansen's Greenland and other explorations. The house is constructed of pine wood trunks of trees, giving it a most picturesque appearance, inside as well as out. The furniture harmonizes with it. There are the carved dragon's heads of the Norse people in the furniture as well as in the projections of the house itself, and one is taken back to the days of medievalism as one enters this ancient shelter for modern science. The most modern thing in it is the grand piano that stands in the centre of the parlor. This piano has all the latest improvements, and Mrs. Nansen plays it with the sureness and taste of an artist.

Although her husband is away from her so much, this brave little woman makes the best of it. She knew before marriage that her husband had a life work before him, and that she must make sacrifices in the cause of science. She makes them and complains not, although she would be less than a woman did she not wish that some day her husband will feel that he has done enough for the world and is entitled to rest in peace for the balance of his days by his own hearthstone.

Churning Done in One Minute.

I have tried the Lightning Churn you recently described in your paper, and it is certainly a wonder. I can churn in less than one minute, and the butter is elegant, and you get considerably more butter than when you use a common churn. I took the agency for the churn here and every butter maker that sees it buys one. I have sold three dozen and they give the best of satisfaction. I know I can sell 100 in this township, as they churn so quickly, make so much more butter than common churns and are so cheap. Some one in every township can make two or three hundred dollars selling churns. By addressing J. F. Casey & Co., St. Louis, you can get circulars and full information so you can make big money right at home. I have made \$80 the past two weeks and I have never sold anything in my life before. A FARMER.

Big Lumber Deal.

A report from Ottawa states that a large lumber deal was closed at Pembroke on Saturday last, by which Mr. Thomas Mackay, M. P., and Mr. MacLaughlin exchanged limits. The steamer Ottawa was on the same day sold to William Murray, of the firm of T. & W. Murray, of Pembroke.—Ex.

A Wife Equal to a Gold Mine.

Will some of your readers give me a good recipe for making a cold starch? I am selling self-heating flatirons and iron a little at every house and have to use some starch every place, and want to know how to make a good cold starch. My husband was in debt and I being anxious to help him through I would sell self-heating flatirons and I am doing splendidly. A cent's worth of fuel will heat the iron for 2 hours, so you have a perfectly even heat. You can iron in half the time and no danger of scorching the clothes, as with the old iron, and you can get the most beautiful gloss. I sell at nearly every house, as the iron saves so much fuel everybody wants one. I make \$1.50 on each iron and have not sold less than ten any day I worked. My brother is doing well and I think anyone can make lots of money anywhere selling irons. J. F. CASEY & CO., St. Louis, Mo., will start anyone in the business, as they did me, if you will address them. MRS. A. RUSSELL.

There is hardly a day passes but that brings to our attention the absolute necessity of taking care of the future with a policy of life insurance. There is no man, whatever his condition may be, but should carry a policy for some amount if for no other purpose than that of taking care of his own funeral expenses and clearing up such bills which will inevitably accumulate.

A Lumberman's Grievance.

A lumber operator on the Restigouche, in New Brunswick, caused a survey to be made of certain crown lands held by himself and others, believing that another operator was lumbering on the property. A survey proved this to be the case. "New," said the operator to a friend, "we told this man we believed he was over in our limits. We had this survey made and have shown our contentions to be correct. Yet we must, under the law, pay the whole cost of running the line along our blocks. If we would allow him to take the logs the government can hold us for the stumpage. In order to get an already determined point to start from, we had to survey over six miles before coming to our own lands. Once I wanted to run a line for two miles. To do so I would have to start eight miles away. I let it go. They will perhaps tell you in the crown lands office in starting a line to begin at a certain tree on a certain spot on the line of an old survey. I was given as a starting point a cedar tree on a line run forty years ago. The cedar could

not be found. The department should run out its block lines more rapidly, and it should insist that one man (as in my present case) should not have to pay the whole cost of a survey between his land and another's. Of course we can hold those logs, but if we do, after this man has gone to all the expense he has, we would be put down as the worst men in the country. I tell you the lumber operator has troubles that loom up sometimes as big as the Sugar Loaf yonder.—Canada Lumberman.

Whiskers that are prematurely gray or faded should be colored to prevent the look of age, and Buckingham's Dye excels all others in coloring brown or black.

Quebec Legislature.

QUEBEC, Jan. 10.—The legislature was prorogued yesterday afternoon by Lieut. Governor Chapleau and the last session of the present parliament brought to an end. The elections will be held either in March or June.

Piles Cured By Dr. Chase.

Come and get a Calender for 1897. Wishing you all a Happy New Year.

Thistle & Co., Druggists.

W. E. THISTLE, Manager.

An honest man who stood upon the ragged edge of death, but was convinced of the truth.

CALAIS, ME., May 13, 1896. John Boyd, mason, 61 years old, says: "Last Spring I was very sick and miserable, had no appetite, could not sleep nights, began to think my time had come, and that I was to join the great majority. I walked around the streets feeling entirely used up, was good for nothing, could not do a minute's work, until like a drowning man gasping for straws, concluded to try Dr. Thomson's Sarsaparilla, and began using it, as directed; it began to help me from the first trial. After using three bottles, my old-fashioned good health returned to me, and have been well and strong ever since. I cannot express in language the great worth of this wonderful medicine and what I think of it." Yours truly, JOHN BOYD.

HELP CAME AT LAST.

I have been a hard working man doing general work. Over one year ago I suffered a severe attack of LaGrippe. It left me in a helpless condition. I suffered with severe pains in my back and could not do any work. I was advised to try Dr. Thomson's Sarsaparilla. I used five bottles, and it is marvelous how quick it cured me. That is over two years ago, and my health since that time has never been better. LINDSAY SCOTT. Calais, Me., Jan., 1896.

PRINCETON, May 23d.

THOMSON SARSAPARILLA CO.: Having the LaGrippe last winter, I was left near spring in very bad shape. I was all run down and I began to think I would never get any strength. F. H. Hall, of Calais, called at my place and advised me to take Thomson's Sarsaparilla. He said he would send three bottles if I would take them, and after taking two bottles I began to gain strength. I then took two more, and I must say of all the different kinds of medicines I have taken, it is with me one of the best. And I will say that I thank Mr. Hall and the Thomson Sarsaparilla Co. for what it has done for me. C. A. ROBBINS.

Given up in despair to die.

PATRICK MYERS, of Calais, Me., says: I was troubled with eruptions on the face and body, causing at times a burning and itching sensation which was almost unendurable; could do no work. I tried to get help from a number of our physicians, and paid them hundreds of dollars, which proved hopeless, was confined to my bed. I gave up entirely to despair. I was advised to try Dr. Thomson's Sarsaparilla, and I used eight bottles which entirely cured me. It purified my blood, restored my appetite, made me feel like a new man. Today am about my work, not forgetting to speak great words of praise for the above medicine.

Weak, Nervous, Sleepless, Tired and Run Down.

Nothing is so common today as the complaint of weak nerves. Read the testimony of MR. H. W. EATON, of Calais, Me.: My nerves were so unstrung that it was a burden for me to do any business, and sleep was out of the question, also had considerable difficulty with my stomach. I tried Dr. Thomson's Sarsaparilla, and it proved a blessing to me. I think everything of it, it is a great medicine, and it is a pleasure for me to recommend it.

There are numberless people who do not call themselves sick, yet who are not well. They feel weak, nervous, languid and tired. They have lost their vim, power of endurance and ambition to work. Most people have these feelings in the spring, because at this season the blood is impure, the nerves weakened, and the liver, kidney and bowels inactive.
