

THE WOODSTOCK DISPATCH

APRIL 28, 1897.

The Chin as an Index.

I have just read Dr. Leuf's letter on "Physiognomy" in the Medical Council, and am prompted to say in reply to his request for contributions on the "chin":

Protruding chins characterize men and women of the get-there type. Successful people usually carry their chins thrust forward, with compressed lips. This chin, if heavy, with broad rami and swelling masseters, indicates fighting blood.

A retreating chin shows lack of force, mentally, morally and physically; usually of the yielding sort; soon discouraged; small executive force. The development of other faculties often makes up for this defect.

A small, well-rounded chin, with mobile and red cushion of flesh upon, indicates a pleasure-loving owner. If dimpled, all the more so, for dimpled chins belong to coquettes. People with dimples love to be petted and loved; like admiration and praise. Generally fickle. Usually this chin is healthy, recuperative and long lived.

Broad chins signify nobleness and large dignity, unless vertically thin, when, if with it there be thin lips of bloodless kind, you find cruelty.

Square chins with little flesh denote firmness and executive ability. These make good haters.

Drunkards usually have a circular line about their chins.

Slovens have wrinkles about their chins. Long thin chins are poetical, unstable and delicate in constitution. Such people are subject to bowel derangements. If thin through the angles of the mouth, too, they are prone to tuberculosis. Generally short lived.

Medium chins with a suggestive bifurcation in the centre, with small mounds of flesh on either side, characterize generosity, impulsiveness, cheery natures. (The same-sized chins, with a dab of flesh just under the centre of the lower lip, indicate meanness, selfishness, brutality.)

N. B.—No one feature can be taken in judging character. Often development of other faculties of mind or feature entirely governs. In each case take the "totality of indications" before judging.—Exchange.

A stimulant is often needed to nourish and strengthen the roots, and to keep the hair a natural colour. Hall's Hair Renewer is the best tonic for the hair.

A Sensitive Client.

It was a complicated case as to who were the next of kin of B—, and the solicitor, in sending out a list of enquiries to his best client, dictated to the junior clerk, who took down in shorthand the following query:

"Where were your father and mother married?"

But little did he think what the consequences would be. The epistle containing the enquiries and replies was duly returned, but the question was not as dictated, but read:

"Were your father and mother married?"

And that solicitor now mourns the loss of his best client.

RELIEF IN SIX HOURS.

Geo. Seales, a Well-Known Contractor of Niagara Falls, Completely Restored by the Great South American Kidney Cure—Thousands More Can Bear the same Testimony.

I was a great sufferer for years with acute kidney disorder and pain in my sides. When almost all other known remedies had been fairly tried and had failed, I was advised to take Sout. American Kidney Cure. One bottle did me so much good I purchased two more. I am now completely restored—feel better than I have for five years. It's a great cure; will give relief in six hours, and I delight in recommending it to others.—Sold by Garden Bros.

Turbine System.

LONDON, April 21.—The chairman of the Cunard Company, at the annual meeting of the shareholders, referred to the White Star's building enterprise, and left no doubt that it would not go unchallenged. Most persons have assumed that the Cunard Company will build still larger ships, but it is whispered that it is the policy to proceed upon other and more novel lines, and it has been freely rumored at Newcastle-on-Tyne that the company's engineers are thinking of trying a new turbine system on their next steamer. The system was referred to here, some months ago, as promising something like a revolution in marine propulsion. Further trials have recently taken place with the little steamer Turbinia, fitted with a new motive power, with the result that she showed a mean speed on a measured mile at the mouth of the Tyne of 32 3-4 knots an hour, with remarkably low coal consumption.

The experts have reported that, although heavy seas were encountered, there was no racing of screws and the "machinery worked with perfect smoothness and complete absence of vibration."

The Turbinia is only 100 feet long and 9 feet beam, with a maximum displacement of forty two tons.

Scott Act Fight.

The Amherst Press says: When Inspector Casey's life is written it will contain as many hair breadth escapes as that of an old British war veteran. He had an experience at Wallace yesterday which might have resulted in the necessary appointment of a new Inspector. He had a warrant for the arrest of Amos McBurney, of Wallace, on a Scott Act charge and together with officer Stamen, of Wallace went to the McBurney mansion to enforce it. When the officers arrived there was no response to the frequent knockings and the outer door was forced and the officers got into the main house. They then broke a panel out of another door, and as Mr. Casey put his head in through the hole McBurney's father struck at him with an axe, and had Mr. Casey not dodged back he would have got the axe where the chicken did. Mrs. McBurney then joined in the affair with hot water, but on second thought she decided not to use it. The McBurneys gave in and the man wanted was found under a bed in the adjoining room. He was taken before Magistrate Morris, where he paid a \$50 fine. As the old folks appeared sorry for their attack on the Inspector, no charge was laid against them.

"PAINE'S."

The Name and Reputation Imply Much.

Paines Celery Compound Establishes Safety, Health and Strength.

The heart, kidneys, liver, stomach—all these great organs with the majority of people are out of order in the spring time, and call for aid and repairing so that their work may be properly done.

If you have any of these organs out of repair your whole nervous system is out of gear and your life is in peril.

Paine's Celery Compound gives perfect action to the heart and other important organs; it makes pure blood, gives perfect digestion, sweet sleep, and puts you in a condition of vigor and strength that enables you to battle against the heat of summer and all the epidemics that may arise.

Remember that "Paine's" is the kind that cures. Refuse the something just as good that some dealers would offer you. Ask for Paine's Celery Compound and see that you are supplied with it.

The best location for the vegetable garden is with a southern or southeast exposure on land level or gently rolling and well drained naturally or artificially. The top soil should be neither clayey nor sandy, but rich and deep, with a sub-soil of sufficient porosity to admit of water passing off freely and rapidly without washing. Preparing the soil for growing vegetables consists of in heavy manuring and deep and thorough pulverization. Vegetables to be good must be grown quickly. Manure must be not only liberally but judiciously applied; it must be incorporated with the soil and in such a condition as to be of immediate use as plant food.

Important To Investors!

Notwithstanding the dulness of general business and scarcity of money during the past year, THE NORTH AMERICAN LIFE ASSURANCE CO. of Toronto, can show most gratifying results for 1896. The amount of insurance written is far ahead of any previous year, being over \$3,500,000. Premium income has been increased \$60,000. Although during the year \$250,000 has been distributed among policy-holders, there has been no shrinkage of surplus, which stands well over \$400,000. Endowment policies maturing in the past year show an investment return of 5% compound interest.

Those holding policies in such a prosperous and well-managed company are to be congratulated. For all information as to policy contracts and rates, apply to HUGH S. WRIGHT, District Manager, Woodstock.

NOTICE.

Mr. S. S. Miller, of Woodstock, N. B., formerly agent for the Sun Life Assurance Company of Canada, is no longer its representative in any capacity. Persons who formerly paid their premiums to Mr. Miller will now please pay direct to Mr. J. B. Gunter, of Fredericton, to whom the official receipts will be sent for collection.
