

# Destruction of Prices.

They have gone down to the Bottom Notch. We must clear out our entire stock.

We have 100 pieces of Dress Goods the former price of which was 75c. per yard, and which we are now selling at 25c.

Carpets that we were selling at \$1.00 per yard, are going at 65c.  
50c. Carpets for 30c.

We must have everything cleared out by May 1st, as the store will be rented. Don't be unfair to yourselves and lose these opportunities of a lifetime.

NEWS FROM THE COUNTY.

JACKSONTOWN.

Spring has come, and with it mat hookings and quiltings galore. We have also, this season, had the truth of this quotation proved—"In the spring a young man's fancy lightly turns to thoughts of love."  
Mrs. Fred Burpee has returned from the Celestial, where she went to be present at the marriage of her sister.  
Miss Clara Crutcher, (England), has been visiting her many friends in this vicinity.  
We see the latest in gentlemen's fashions is the Red Flannel Neck Tie.  
The ladies sewing circle of the Baptist church has disbanded until next fall. Since its organization last autumn, the circle has cleared about sixty-five dollars.  
We regret to learn that Mr. Fred Estey and family are suffering from La Grippe, but trust they will soon be convalescent.  
Ward Burpee expects in a few days to visit Fredrickton and its vicinity. His friend, Tyler Hannah will accompany him.  
Randolph Hannah is still repairing his buildings. The verandah and bow-windows which he has added to his house, greatly improves its appearance, and attracts the attention of all passers-by.

TOBIQUE RIVER.

The roads in this vicinity are in a terrible condition now for travelling. The rain has taken most of the snow off.  
The drivers have commenced to travel already.  
Rev. C. Blackburn held service in the Dow Flat school house Tuesday evening. He stopped at the Dufferin Hotel over night.  
Our school is under the skillful management of Miss Pheobe Emack.  
Mr. and Mrs. John T. Everett have been quite poorly for the last few days with La Grippe but are on the mend now.  
A candy party was held at John T. Everett's last night. All seemed to enjoy themselves and went home feeling much pleased with the evenings entertainment.  
Mr. Grant and family of Carleton Co., have moved to their new home at Rocky Brook where they intend farming.  
One of our promising young men is going to start for the drive tomorrow which some of our young ladies regret. "Come dry up your tears."  
The roads are alive with men on their way to the drive there has been over 350 men fed at the Dufferin Hotel besides what have stopped at other hotels.  
We have a very good Sunday school at Dow Flat at the present time. Our school is taught by Mrs. F. Watters, Miss M. McGinnis and Miss L. Everett.  
Thomas Ridgewell is a guest at the Dufferin for a few days.  
The young folks of Dow Flat have been practicing for a concert which on account of the muddy weather is postponed till June.  
Miss Ella Everett returned home last week from Limestone, where she has been spending a week with her sister, Mrs. W. E. Gardiner.  
Miss Blanche Reed, of St. Almo, is working at the Larchwood Hotel.  
Miss Louisa Lawson, of St. Almo, expects to start to Boston this week to spend the summer.  
An Easter concert was held at Riley Brook on Monday, but on account of the bad roads, the audience was small.

NORTHAMPTON.

O. L. Davenport has returned home from his trip to Boston.

The Baird Co. Limited.

Last Thursday evening was church night. Rev. Mr. Belliss held the service.  
Wallace Gibson, the proprietor of the grist mill at Greenbank is quite seriously ill.  
C. P. Bull is confined to the house with a sore foot resulting from a severe frost bite last winter.  
It is rumored that a very pleasant event is to occur in the near future in the thriving village of Grafton. It would be well for the boys to have their horns ready.  
About ten o'clock Thursday the residence of Robert E. Hemphill was discovered to be on fire. The alarm being hastily given a large number of neighbours collected, who with the aid of a number of passing stream drivers, succeeded in rescuing the most of the furniture. It is thought that the fire caught through a defective flue. There being quite a breeze at the time of the fire the house was soon reduced to ashes. It is said that Mr. Hemphill was insured for \$650.00. The family is residing temporarily at Mr. J. Gill's.

ANDOVER.

The ladies of Trinity Episcopal church held a fancy sale, tea meeting and egg shoot in Beveridge's hall, on Wednesday, April 21st. The evening was fine, and a goodly number patronized the effort. \$87 was realized. There were hardly any expenses. The proceeds are in aid of the new church now in progress.  
About a thousand men have gone up the Tobique to drive logs. J. Stewart, president of the T. V. R. has been running two trips a day most of last week, and even then couldn't convey the men up the Tobique as fast as they came in.  
There were some lively scenes in Perth Wednesday and Thursday evenings. There is no license either in Andover or Perth, nevertheless notwithstanding, somehow intoxicating spirits are said to be easily found in both Andover and Perth.

BURDOCK BLOOD BITTERS.

Burdock Blood Bitters regulates the stomach, liver, bowels and blood; curing dyspepsia, biliousness, sick headache, rheumatism, scrofula, and removing all impurities of the blood, from a common pimple to the worst scrofulous sore. As an invigorator and tonic B. B. B. is an unequalled medicine.

St. Peter's Church, Jacksonville.

The Parish Magazine for May has the following to say regarding St. Peter's Church, Jacksonville:—

St. Peter's church has undergone a much needed improvement in the way of interior decoration. The material used is alabastine, and the nave walls are done in pearl gray with light brown frieze borders of suitable designs running along the woodwork at the base and below the cornice,—the end walls of the nave are finished in the upper portion with a lighter shade. The chancel walls are done in neutral green diapered in light brown with frieze border below the cornice,—the end of the chancel is tinted in two other shades, terra cotta and cream color, separated by borders, with an Alpha and Omega in the spaces above the side lights of the East window. The whole ceiling between the rafters is in robin-egg-blue, the chancel being draped with Maltese Crosses and fleurs-de-lis. The shades harmonize perfectly and the whole effect is most pleasing, giving a very beautiful appearance to the whole interior of the church. The work was done by Messrs. Turner & Fields, in a most thorough manner, and the members of the church are very pleased with the result. The men of the congregation did their share of work in putting up and taking down the staging, and the women were not less faithful in cleaning and brightening up the church when the other work was over.

Listowel, Sept. 22nd, 1896.

Edmanson Bates & Co., Gentlemen,—I have pleasure in saying that Dr. Chase's Ointment, Plaster and Liniment and Linseed and Turpentine are selling well, and are giving every satisfaction. Many of my customers have spoken highly in their praise. Yours truly, J. A. HACKING.

Get out your seed pans and boxes now. Shallow cigar boxes are nice for sowing many kinds of seed. Sift your soil through a coarse sieve. Save the refuse. Now into the bottom of your pans and boxes put a thin layer of quite fresh horse manure; with a stick of wood pound the manure down hard; over it place the refuse from the sifted soil; fill to within one or two inches from the top with the sifted soil mixed with one fourth sand, if you have it; water and set in a moderately warm place for a few days, then water again, enough to moisten the soil; make tiny furrows one inch apart, and plant such seed as astors, verbenas, pansies, etc., one inch apart in the rows. Cover lightly with the soil, and with the hand press firmly down on the seeds; now dampen pieces of old flannel by wringing lightly from warm water; on your little seed bed put this "wet blanket" and set where it will be warm; usually the soil can be kept moist enough by wetting the blanket when it gets dry. Set the seed pans on warm bricks, or on heated blocks of wood, for a little while at a time every time. Watch for the seedlings, and as soon as they appear remove the blankets and set in the light, but not in the sun for several days. Do not keep them too wet, and do not let the sun shine on them during the middle of the day until they are quite stout plants. When they begin to get a bit crowded, take out every other plant and set in another box two inches apart each way; continue transplanting as often as the plant appears to get crowded.

True contentment depends not upon what we have, but upon what we would have. A tub was large enough for Diogenes, but a world was too little for Alexander.

Circuit Court.

The Circuit Court opened on Tuesday morning, Judge Hanington presiding.

The only criminal matter up was the Arabian adultery case. The judge thought that if we looked after the morals of our own people we would do well enough, and he thought the evidence in the case very slight. No one appeared for the crown and the prisoners were dismissed.

The Grand Jury were: Geo. L. Holyoke, foreman, B. Colpitts, G. E. Balmain, W. R. Snow, Frank Boyer, W. B. Belyea, H. N. Payson, James Evans, C. R. Watson, Fred. Smith, Allan Smith, Frank Tilley, J. D. Baird, H. E. Gallagher, J. H. Wilbur, L. N. Fletcher, H. N. Atherton, James Watson. There was nothing for the Grand Jury to consider.

The only civil case on the docket was Frank W. Thornton of Hartland, against Allan Bradley of the same place, for libel. Hartley & Carvell for plaintiff, Stephen B. Appleby for defendant.

The petit jury were—Wellington Jameson, Jas. McLean, Wm. A. Squires, Clapper Tompkins, Alex. S. Benn, Jas. R. Kirkpatrick, J. A. Barter, John Jameson, Enoch Phillips, D. F. Alexander, C.L.S. Raymond, David Shaw, Ham. Stealey, Jas. P. Watson, S. L. York, Geo. Palmer, Randolph Good, Geo. Cronkhite, Wm. Churchill, Andrew Curry, Lawrence Gallagher.

The jury empanelled for the Thornton Bradley case were Clapper Tompkins, Enoch Phillips, David Shaw, Wm. Churchill, Geo. Palmer, J. A. Barter, Hamilton Seeley.
