NEWS FROM THE COUNTY.

EDMUNDSTON.

Judge Hannington opened and closed the Circuit Court here on Tuesday the 8th. There was no business either criminal or civil.
Great indignation is expressed on every side at the reckless killing of game that is going on in this vicinity. The snow is so deep that it is difficult for game to get away. Many of them come into the very town. On Saturday the 5th a moose came into town and one Joseph Herbert, whose sporting proclivities were greater than his judgment, with some help killed her. At the instigation of Milton Dayton the gentleman was arraigned before Judge Plant who gave him his choice of paying a fine of \$50 or spending a month in jail. At the warden's request the penalty will not be enforced during the good conduct of Mr. Herbert. Actions have been commenced against Eustace Michand and John Bernard, commonly called captain, for violation of the game law. Some new officers have been appointed for the enforcement of the law. It is estimated that over 200 deer, moose and caribou have been killed within five miles of Edmundston since the season closed. Joseph Bignall of Quebec has been sent by the Quebec Government to Griffin's camp, about 18 miles from here to help our officers in their work.

MIDDLE SIMONDS.

Business is booming in this section of country owing to the fine weather and good roads.
Many teams are improving the good roads by hauling logs to the New Saw Mill at Upper Brighton where the logs are very rapidly sawed in boards.
W. L. Drier is very sick and there are little hopes of his recovery.
Rev. A. H. Hayward will hold meeting in the Baptist church on Sunday next at 2:30 P. M.
A Parlor Concert and Basket Sociable will be held at the home of Mr. Whitfield S. Ebbett on Saturday Eve March 19th. Proceeds go toward finishing the New Baptist Church. A pleasant evening may be anticipated.
No admission fee to the concert which will begin at about 7:30 P. M. But hope to see many present with full purses to buy the baskets.
Mrs. Horace Shaw of this place has gone to the Hospital in Boston for medical treatment.
Our day schools are taught by Mr. Frank Kelly and Miss Daisy Holmes. Mr. Kelly teaches the lower school and Miss Holmes the school in the upper district. Both are giving good satisfaction.

RIVER BANK.

Willard Hunter is very ill with pneumonia, Dr. Ross is in attendance.
Our school, under the management of Miss Helen McCain, of Florenceville, is progressing finely.
Mr. and Mrs. R. W. Tompkins have returned from a most pleasant visit at Upper Kent.
Miss Myrtle Long has returned from her trip at Victoria Corner.
We are pleased to see the smiling faces of Rupert and Frederick among us again after so long an absence.
What might have proved a fatal accident, happened near the school house on Thursday last, when a young child, Annie Nichols, was run over by a team and badly cut about the face and limbs, it is hoped it will not prove serious.
Master M. J. Brooker is visiting friends at Blaine, Me.
Mrs. Daniel Campbell is expected to return soon from her trip South, as her health is improving.

ANDOVER.

John Stewart is interesting American capitalists in a scheme to build and operate a pulp mill at Tobique Narrows. It is his intention also to saw lumber, burn lime and grind plaster at this point on the river.
Harry Boong, Rowena, with a small crew of men is at work on the highway bridge. It was leaning on the railway bridge and the C. P. R. suggested to the government that the bridge be induced to support itself. Three spans needed straightening.
A good deal of indignation is felt here at the wanton killing of deer, a few miles up the Tobique. There is no game warden here, and some lawless fellows are working their will on the game.

ARTHURETTE.

Rev. A. H. Hayward went to Sisson Ridge yesterday. On Sunday he is to baptize a number of people at Linton's, near Three Brooks.
G. A. Bates had a meeting here last night for the purpose of organizing a class in vocal music. A small class was started.
J. A. Nicholson, and Messrs. L. F. and John Campbell finished work in the woods and came home yesterday.
Leslie Grant gave himself a bad cut yesterday, while working in the woods. He nearly severed the great toe of the left foot. Dr. Weaver took a number of stitches in the injured member.

The snow is going away rapidly in our fields. The old weather prophets say we will pay up for this in April or May. Anyway, if we do, we can enjoy the present fine weather.
W. S. Dimock, Campbelltown, went up river yesterday on business connected with his art. He had some beautiful specimens of photography with him. Mr. Dimock photographed the High Court, L. O. F., at its session in Campbelltown last July.
Charles McQuarrie went up river yesterday, en route for Trouser Lake. Charlie looks pretty well after his severe illness. He was one of the first who contracted typhoid fever last fall, and is just now about fit to go to work again.
The school report shows that Inspector Meagher recommends a superior school at this place. Would say in this connection, that the inspector had better enlarge the boundaries of the district first. A superior school on a taxable valuation of \$20,000 is rather too much of a good thing.
[From another correspondent.]

BATH.
Bath has not been heard from through THE DISPATCH in a long time, but we are all still living, although we have had a long cold winter. The roads are in a very slushy condition. Most of our young men who went to the lumber woods have returned with full pockets and looking hale and hearty.
There was a quiet wedding last week at Mr. Joseph Demerchants when his daughter Clara was united in marriage to Mr. Biggar of Wicklow. Mr. and Mrs. Elijah Shaw were among the few invited. Rev. G. A. Giberson performed the ceremony.

The year of the deep snow and cold Friday are memories which have been often recalled by our forefathers as unsurpassable in their severities, but we can go them one better, for this winter just ending has been the most remarkable that ever occurred even in the tradition of the first settlers. In fact the memories of the above events must be relegated to oblivion from this on, and when comparisons are to be made again they will be by the winter of '97-'98.
The old sore, the Tucker case, which we thought had healed at least till April the 26th has lately been uncovered by a visit from Messrs. Jones Bros who literally unearthed every thing that could possibly be used in the defence. From Bath to Glassville people were interviewed on every possible point in such a manner that we consider the defence of the prisoners is in the hands of a competent man.
Gaoler Jones and daughter, of Woodstock, were guests of Mr. and Mrs. Jarvis Tracey for a few days about three weeks ago.
Inspector Meagher visited the schools in this vicinity about two weeks ago and we must congratulate him on having completed his inspection in these parts when he did, otherwise he would have met impassable roads.

G. B. Wolhaupter of the Ontario Mutual Life Assurance Co., was in the village a short time ago and did a good business in securing applicants for insurance.

ber of teams which followed the remains to the grave. The husband and children have the heartfelt sympathy of the community.
There is announced for Tuesday the 15th inst. a public farmers' meeting to be held in Phillips hall Bath. The object of the meeting is not stated on the notice, but we do not imagine that it will be either the Yukon railway contract or the Maine explosion. The committee Thos. Bohan, E. D. R. Phillips and C. E. Gallagher being very prosperous and practical men, we are led to infer that the object must be something more practical and for the welfare of the farmers and the village.
The top price for oats this year was reached a few days ago when Messrs. Shaw and Kyle gave notice that they would give thirty cents per bushel. This announcement made the farmers beam with delight as they realized a return of prosperity. However their hopes have again diminished as the price has since taken a tumble.
Mrs. T. Lynch was in town last week to attend the funeral of her cousin Mrs. Bart. Maddox.

A Dyspeptic?

SOUTH AMERICAN NERVINE IS THE RAINBOW OF PROMISE.

Emaciated—weak—gloomy. No one can adequately describe the abject misery of the sufferer from Dyspepsia and Indigestion. South American Nervine is the greatest discovery in medical science for the cure of all chronic stomach troubles. It acts directly through the nerves—the seat of all disease. Thousands testify of cures made. Relief from the first dose.

"I was a great sufferer from stomach and nerve troubles. Tried a score of remedies. No relief. Half a bottle of South American Nervine worked wonders. Six bottles made a new man of me."—W. H. Sherman, Morrisburg, Ont.
