NO SLEEP—NO REST.

LL do not appreciate the words of John G. Saxe, who sang, "God bless the man who first invented sleep!" But appreciation is not wanting to those who have suffered as Mrs. White, of Mara Township Ont., who became so ill with nervous troubles that, to quote her brother, Mr. Donald McKee, a well-known resident of that illustrious section of North Ontario: "My sister had not slept a night for over three months. She could not have stood this much longer, and it was only when death seemed imminent that South American Nerve became the good physician. After taking the first dose of the Nerve she slept all night, and gained in flesh until perfectly well, and has now no sign of nervousness." This is a wonderful medicine in the severest cases of nervousness, and the greatest flesh-builder to be found anywhere in the world.—25.
