### WINDSOR.

This place has two day schools, two Sabbath schools and two churches, the Union church at the corner and the Primitive Baptist church. This last mentioned church has been recently

built at a cost of one thousand dollars. A post office, a barber shop all within a radius of a mile and a half and a blacksmith shop where a first class job can be done with anything pertaining to wood or iron. "For since the birth of time throughout all ages and nations has the craft of the smith been held in repute by the people." It is with wonder and awe that we "behold him take in his leathern lap the hoof of the horse as a play thing nailing the shoes in its place."

Our merchant has taken the wings of the morning and departed to the land where the eagle lifts wings for the protection of freedom, thought and truth to numerous millions of happy Saxons of our self-same blood.

There is a grand opening for the right kind of a trader in our midst as he is surrounded by a number of large and thrifty settlements with superior roads all converging to a central point known as the corner. We hope the day not distant when we may have such an excellent cheese factory as that prosperous centre Glassville possesses and when we "dip into the future far as human eye can see" we imagine that we possess telephone connection with the will be incorporated town of Hartland with its splendid bridge spanning the noble St. John river "the Rhine of America." Then we have large areas in the way of superior beds of lime excellent in quality as can be found anywhere in New Brunswick. As we scarcely can expect the sight of the iron horse propelled by bottled sunbeams stored away ages ago as the distance from Hartland is less than ten miles and not situated on the once projected Hartland and Foreston railway route. But hope is predominant that ere long the fine bed of lime already mentioned will be developed.

J. W. Lawson, South Knowlesville, intends to start soon to superintend the driving of Michael Welch's logs situated in the north branch of the Miramichi river as likewise the Smith Bros., Fred and Henry who have their last past winter's cut of logs to drive out of one of the tributaries of the south west branch of Miramichi.

Mr. Calder has been re-engaged by the Baptist church at Highlands for another year; he is also the pastor of the Baptist church of this place where he resides. The pastor of the Free Baptist church is Rev. John Perry that esteemed and aged man of God. Rev. G. A. Giberson of Bath is the pastor of the Primitive Baptist church.

Sawing wood and splitting wood parties are now among the order of the day.

Indications are that farming will be very late as there are large quantities of snow get to melt but the hot April sun is in no way negligent.

One who accustoms himself to think of pure and holy things, who sets his affections on things above, and strives to reach whatsoever things are lovely, will grow upward toward the things he loves and thinks upon; but one who lets his mind turn habitually to debasing things, things unholy, unclean, sensual, will find his whole soul bending downward and growing toward the earth.—J. R. Miller.

The most costly book in the royal library at Stockholm is a Bible. It is no wonder that it is considered precious, for there is not another just like it in the world. In weight and size alone, it is unique. It said that 160 asses' skins were used for its parchment leaves. There are 300 pages of writing, and each page falls but one inch of being a yard in length. The width of the leaves is 20 inches. The covers are solid planks four inches thick.

### From Beauce Co., P. Q.

PENOBSCOT NORTH BRANCH, April 15.

As we have been too busy to write any thing to our friends lately, we will now try and atone for our neglect and we will commence with our friend, THE DISPATCH.

A person coming in here any time within the last month, would have witnessed one of the busiest scenes imaginable. Heavily loaded portage teams with immense loads of logs were to be seen at all hours of day or night. Probably in the last two weeks J. M. McNulty has handled more supplies and lumber than has ever been handled by one operation in this or any of the neighbouring rivers in the same length of time. When April 1st found us with twenty-four thousand trees on the yards and a hundred tons of supplies at the stations of Jackman or Greenville, people began to think that for once McNulty was going to get left, but their predictions were not verified, for the 12th inst. saw every log banked and every pound of supplies stored. Mr. McNulty intends to engage on a much larger scale here next year than in the past. He has supplies enough here to run three hundred men and sixty horses from the first of August till the middle of December, and by that time, the roads will be passable again. Driving will not begin until late. J. M. McNulty, Sr., J. M. McNulty, Jr., and Alex. McLeod started for Bangor yesterday, taking with them Mrs. Alex. and Henry McLeod, who have been spending the winter here. Rob Lynch, foreman of No. 2 camp, also went home for a few days' vacation. Only a few men are at the camps now getting ready for driving. Verne Jackson, book-keeper and head clerk, goes to Bangor today by way of Quebec and Montreal, leaving W. W. Ross of Peel, in his place for a few days. Wages are going to be pretty fair for good men here this spring. John Hutchison who arrived, reports that all the St. John operators are finished this week. C. H. Dudley on Elm Stream, finishes tonight. Wishing THE DISPATCH a happy and prosperous year and a continuation of its deserved popularity we will close for this winter.
