

**LEGS ENTIRELY RAW**

From his feet to his body, and ran a blood tinged, irritating water.

Mrs. A. Keirstead, Snider Mt., N. B., tell how her little boy suffered, and how B. B. B. cured him permanently.

There is not a mother in this land who has a child suffering from skin disease in any form but will thank Mrs. Keirstead, of Snider Mt., N. B., for telling of the remarkable manner in which her boy, Freddy, was cured of one of the severest and most torturing of skin diseases by the use of Burdock Blood Bitters; and not only relieved and cured for the time being, but, mark you, after eight years the disease has shown no sign of returning.

The following is Mrs. Keirstead's letter:—  
"With gratitude I can testify to the wonderful curative powers of Burdock Blood Bitters. Eight years ago our little son, Freddy, was afflicted with salt rheum and was in a dreadful condition. His legs, from the soles of his feet to his body, were entirely raw, and ran a bloody water, which appeared to burn and itch until he was often in great agony.

"After trying several remedies, we resolved to give B. B. B. a trial.  
"You can imagine with what delight and gratitude we saw our boy entirely cured after using one bottle and part of the second. We gave him the remainder of the second bottle, and from that time till the present he has never had a sign of salt rheum or a sick day. You need not wonder that I think there is no other medicine can equal Burdock Blood Bitters to purify the blood and build up the health and strength."

**5 & 10.**

For a first class variety of 5 and 10 cent goods, come here.

Glassware, Tinware, Woodenware, Novelties of all kinds.

MRS. R. B. GIBSON,  
Opp. Opera House.

WOODSTOCK.

Be sure to inspect our **LADIES' JACKETS** before purchasing. They are just beautiful this year, surpassing all former selections. Prices moderate.

C. M. Sherwood, Centreville.

**HOW BOOKS ARE BOUND.**

A Simple Description of This Interesting Process.

Bookbinding has been practised for centuries. Many years previous to the invention of printing the leaves of missals and other manuscripts were preserved by being fastened together and inclosed in covers of wood, sheepskin, etc. Often the covers were richly ornamented with gold, silver and jewels. Some of these volumes are still to be seen in the museums and monasteries of the old world, says the Philadelphia Times.

There are two main divisions in modern bookbinding—"forwarding" and "finishing"—and in each of these departments there are various sub-divisions. Forwarding comprises what is really necessary for the preservation of books; finishing is simply embellishing them.

The first operation in bookbinding is to fold the sheets by means of a thin piece of ivory called a folder; machinery has been used with much success in folding. The object is to bring the pages together in regular order.

After being folded, the sheets are gathered and collated according to the numbers, 1, 2, 3, etc., that are placed at the foot of the outside page of the folded sections. These numbers are called signatures. The book is then made solid by being placed in a hydraulic press, or under some other pressure, such as the nature and the size of the book may require.

The next process is to saw indentations in the back of the book, preparatory to sewing. This is accomplished by passing the back of the book or sheets over rapidly revolving circular saws. The book is then sewed on a frame called a sewing bench, each sheet being attached by a thread to cords across the back.

When removed from the sewing bench the book receives its "waste papers," or blank leaves. Then it is trimmed by being cut on the edges with a knife apparatus. The edges are either left white or are colored by being sprinkled with color thrown on with a brush. "Marbled" edges are made by dipping the edges of the leaves in colors that float on the surface of gum water.

The "comb edge" is made by drawing a comb through the colors on the surface of the gum water before the book is dipped. If the book is to have a gilt edge, it is placed in a press and a coating of red color applied; the edges are then sized with white of egg, gold leaf is laid over the sizing, and after it has dried thoroughly the gold leaf is burished with agate or bloodstone.

A coating of glue is then applied to the back of the book, after which it is backed by means of a machine that gives roundness to the back and prepares it for the cover. The cover is made by boards, cut larger than the leaves of the book, over which the outside material, such as cloth, leather, etc., is fastened with glue, space enough being left between the two boards to fit the back of the book.

After the cover is dried, the embellishment is done by stamping the desired letters or design in gold, black or colors. The cover being thus finished, the back of the book is fitted into it and glued, the blank pages are pasted to the inside of the cover and the book is placed in a press to remain until dry, from which it comes ready for the public.

**MR. FRANK P. MILLS**

Tells of his Struggle with Kidney Disease.

Got no Relief till he Used Dodd's Kidney Pills—One box of this Great Remedy Completely Restored His Health.

ZEALAND, N. B., Feb. 13.—Mr. Frank P. Mills, a well-known, energetic, and popular business man of this town has made public a statement that will have a vastly deeper interest for tens of thousands of people on this continent, than the Spanish-American treaty of peace, or any other event of public importance.

The statement given to the public by Mr. Mills is one that brings hope and gladness to the thousands of unfortunates who are suffering from that modern dragon Kidney Disease, and who have given up all expectation of recovery.

Here it is: "I had for a long time, been a sufferer from Lame Back, and have expended large sums of money for medicines, in my endeavors to regain my health.

"Nothing that I tried gave me the slightest relief. My sufferings were continually becoming more severe, and I had almost given up hope of getting better.

"One day I read in the papers of a man who had been cured of a complaint like mine, by Dodd's Kidney Pills. I decided to try this medicine, which was new to me.

"The first few doses convinced me that I had found a cure. I used only one box of Dodd's Kidney Pills, but even before I had finished it, every vestige of pain had left me—I was entirely cured. I earnestly recommend Dodd's Kidney Pills to all who suffer as I did."

All that is necessary to prove the strict truth of Mr. Mills' statement, is to try a box of Dodd's Kidney Pills.

Dodd's Kidney Pills are sold by all druggists at fifty cents a box, six boxes for \$2.50, or sent, on receipt of price, by The Dodds Medicine Co., Limited, Toronto, Ont.

In heaven every woman is in the choir and sings all the time; that keeps her from whispering.—Puck.

**YOU NEED IT**

If You Would Avoid the Troubles and Dangers that Stomach Derangements Bring On.

Paine's Celery Compound Banishes Every Difficulty and Restores Perfect Health.

Stomach troubles are exceedingly common and varied in character. Today thousands complain of stomach derangements. Stomach difficulties are usually manifested by poor appetite, foul tongue and breath, putrid or bitter taste in the mouth, a desire for acids; some have headache, sleepy feelings, constipation, inactive bowels, and vomiting of food and bile.

Victims of stomach troubles manifest low spirits, despondent mind, and have fears of impending danger. It matters not what the symptoms are; any of them indicate low nerve force, and point to the fact that the digestive system is out of gear and the blood is in an unhealthy condition.

In order to avoid the many dangers of indigestion, dyspepsia and general stomach derangements, Paine's Celery Compound should be used when any of the many unpleasant symptoms that lead to trouble are experienced. A few doses of nature's health restorer will quickly set the digestive machinery of the body in perfect running order, and good health will be maintained.

If it be that you have long neglected the troubles that have become deep seated and chronic, do not despair. The faithful use of Paine's Celery Compound for a few weeks will, without fail, banish all your sufferings; your appetite will become natural, and your food will enrich your blood, making bone and muscle, and your health will be as rugged as ever before.

**Talma and Napoleon.**

Talma was standing at a corner, one of an immense crowd that thronged the streets of Paris to see Napoleon drive by in state.

"Do you see that little man there?" he said to a friend at his side, pointing as he spoke to the Emperor in his carriage.

"Yes," replied his companion. "What signifies that?"

"Well, answered Talma, "not so many years ago that same individual applied to me for a position in my company. He was ambitious to be an actor, and wished me to teach him the art of the stage. I discouraged him, and told him that there was no hope for any other than a genius in my profession.

"Is there any hope in any calling?" asked he, for the unfortunate plodder not blessed with ability?"

"Well," said Talma's companion, "what of that?"

"Nothing," replied the actor—"nothing; only that unfortunate little man is now Emperor of France, and I—well, I am just plain Talma."—Cincinnati Commercial Tribune.

**Catarrh and Hay Fever.**

If it's Hay Fever that is the bug-bear of your life, you won't know the pleasure of freedom from it till you've tried Dr. Chase's Catarrh Cure.

**Back From The Klondike.**

Opening the door in response to an insistent knock, the lady beheld the figure of one she remembered.

"Oh, it is you, is it?" she said icily. "It is me," was the answer; "your long lost husband, who has come to tell you that he is sorry he ran away two years ago."

"Maybe you are sorry you went," retorted the lady, "but I ain't. What did you come back for?"

"My dearest, I have been to the Klondike and last summer I accumulated fifty thousand—"

"Fif-ty thou-sand dollars!" shrieked the loving wife as she fell on his neck.

"No. Mosquito bites."

It was a moment later only that he fell on his neck himself.—Indianapolis Journal.

**"500 ACRES FOR MY HEALTH."**

Piles Were Sapping the Life From Him—Dr. Agnew's Ointment Cured.

Mr. M. Beemer, of Knotmaul, Mich., says: "For seven years I had suffered from itching and protruding piles. I tried all kinds of cures, but got no relief until I used Dr. Agnew's Ointment. One application did more for me than any remedy I had ever tried. I would willingly give my 500 acres of land rather than have a return of my suffering from those tormenting things." 35 cents. Use Dr. Agnew's Liver Pills for liver ills. 20 cents. Sold by Garden Bros.

**Too Late.**

"I hear you have a little sister at your house," said a Chicago grocer to a small boy the other day. "Yes, sir," said Johnny. "Do you like that?" was queried. "I wish it was a boy," said Johnny, "so I could play 'mibs' with him, an' base ball an' tag an' all those things, when he got bigger." "Well," said the storekeeper, "why don't you exchange your little sister for a boy?" Johnny reflected for a minute. Then he said, rather sorrowfully: "We can't now, it's too late. We've used her four days."—Chicago Tribune.

**Winter Food For Milk Cows.**

Good ensilage, of course, is the best, but if the silo has been neglected the animals must be fed on something else that will give nearly the same results. Where clover hay can be obtained at \$9 or less per ton it should form an important part of the daily ration. This would form the bulk of the coarse food and furnish the animals with protein and carbohydrates. Clover hay properly cured contains plenty of nourishment, but much of it is lacking in the right essentials through ignorant handling. In securing the hay consequently not a little emphasis should be placed upon its quality. If too chippy and brittle, it is a pretty good sign that it is rather inferior in nourishing qualities. Good oats in the sheaf make excellent milk cow feed for winter. Good sheaf oats can be purchased from \$10 per ton upward, and at this price they make an excellent investment. The average sheaf oats would turn out from 30 to 40 per cent grain and 60 to 70 per cent straw. Upon this basis the grain and straw would supply rather more carbohydrates than protein. Likewise good corn stover would show this same lack of proportion between the two food elements. Now, a pound of protein is worth in value about two pounds of the carbohydrates. But it will not make that much difference to the cows, and consequently it is better to feed more carbohydrates proportionately than protein. The latter can be given in greater quantities in such foods as cornmeal, malt sprouts, cottonseed meal and other grains. The relative high price of these foods should not exclude them entirely from the cow's bill of fare. During the cold weather the animals need food rich in protein, and it is only by not stinting them in the grains that the best results are obtained. In the end, if other things are equal, and the cows receive excellent all round care, rich feeding will pay.—C. S. Walters in Boston Cultivator.

Every household should have on hand a box of Dr. Chase's Ointment. The diversity of uses to which it can be put and the efficacy of its action saves warrant it in taking first place in the family medicine chest. All dealers sell and recommend it.

**Casus Belli Again.**

The term casus belli, means grounds for declaring war.

"Casus Belli has been the cause of more wars than all the other foreigners in this country put together," said the driver of a Blue Island avenue car as he leaned heavily upon his brake. "Who brought on the revolution? Casus Belli. Who started the war of 1812? Same cause. Who was it that made us fit the south in '61? Casus Belli. Who was it tried his darndest to get up a war with Mexico? Belli. I see by the mornin' paper that the same beast is figgerin' on a war with England over a mess of fish. In the country where I lived a feller named Bostwick used to go round stirrin' up fights between his neighbors. He had heaps of fun as long as it lasted, but one day late in the fall an uncle of mine and the Kendrick family squatted themselves in a brush heap, and when Bostwick came along they filled him so full of holes that he fell to pieces when they picked him up. I'm for chokin' the gizzard out of this Belli, even if he does come from Roman and Italian stock. He's got no bus'ness in a free country. He's wuss'n Satan. How old is he, anyhow?—Chicago Herald.

**MAN OR BEAST.**

"I have found Hagyard's Yellow Oil to be the best thing for calloused lumps and cuts on man or beast. It is a splendid all-round remedy." Daniel Brown, Banks P. O., Ont.

**Mr. Norris' Plan to Get a Mend.**

"It is strange that I can't get my wife to mend my clothes," remarked Mr. Bride in a tone of disgust. "I asked her to sew a button on this vest this morning, and she hasn't touched it."

"You asked her!" said Mr. Norris, with a slight shrug of his shoulders.

"Yes. What else should I do?"

"You haven't been married very long, so perhaps you'll take a tip from me," answered Mr. Norris, with a fatherly air. "Never ask a woman to mend anything. That's fatal."

"Why, what do you mean?"

"Do as I do. When I want a shirt mended, for instance, I take it my hand and hunt up my wife, 'Where's the rag bag, Mrs. Norris?' I demand in a stern voice.

"What do you want a rag bag for?" she says suspiciously.

"I want to throw this shirt away; it's all worn out," I reply.

"Let me see it," she demands.

"But I put the garment behind my back. 'No, my dear,' I answer. 'There is no use in your attempting to do anything with it.'

"Let me see it," she reiterates.

"But it's all worn out, I tell you."

"Now, John, give me that shirt!" she says in her most peremptory tone.

"I hand over the garment."

"Why, John Norris," she cries with womanly triumph, 'this is a perfectly good shirt. All it needs is,—

"And then she mends it."—Dallas News.

When you feel weak, run down, nervous, unable to work or think as you ought, take a box or two of Milburn's Heart and Nerve Pills. They'll build up your health, and give you strength and energy. Price 50c., all druggists.
