

A LETTER FROM VANCOUVER.

Continued from first page.

consolation for any degree of popularity. Joe Roberts, proprietor of the Granville Hotel came from the Tobique, and fortune has smiled on him in the far West.

Dr. Brydone Jack of Fredericton, is one of the leading physicians in the city, and he also resides on Easy St. Dr. Jack's urbane manner has made him a friend; in fact, there is not a more genial man in the city. A. B. C. Jack, Barrister, has a large practice, and is solicitor for a number of large and wealthy corporations. He has been located here upwards of twelve years, and is now considered one of the pioneers.

J. M. O'Brien, who practised law a year or two in Bathurst, his native town, is Editor of the Daily World, in my judgment, the best of the three daily papers published in Vancouver. O'Brien is a graduate of the U. N. B. and abandoned law for literature. He enjoys the reputation of being one of the best newspaper men on the Pacific slope, and under his management, The World will compare favorably with the leading metropolitan journals. He is a pleasant and obliging fellow to meet, and is always ready to display Vancouver famed hospitality. There are few more popular men in the city than the Editor of The World, and he is always glad to extend the usual courtesies to a provincial. O'Brien is one N. B. boy who has achieved deserved success.

Frank Delaney, a former Dalhousie Boniface, was in the hotel business here for a year but recently retired with the intention of shortly removing to the Kootenay country. Frank was at Memramcook a year with your correspondent, and is full of reminiscences of student days. The climate of the coast seems to effect his throat and acting on medical advice he will remove to the interior in a few weeks.

Frank Dowling, a Fredericton young man, is manager of the C. P. R. telegraph office here, a very responsible position. Frank is married, and has a large family, news which surprise his N. B. acquaintances.

T. J. McGarrigle, Fredericton, a graduate of the University of N. B., follows the pedagogical profession, and was principal of the Central school here. He is now teaching on Vancouver Island. Tom has a legion of friends in New Brunswick who will be glad to welcome him this summer on his vacation which he annually passes in the East.

A. A. Cropley and C. E. Neill both from the Cestial City are infatuated with Vancouver. Cropley is head clerk in a Wholesale Drug Store and Neill is accountant in the Merchants' Bank of Halifax.

Street & Co., formerly of St. Andrews and recently of St. John, Wholesale Liquor Merchants, are now located on Granville street here. Mr. Street has been engaged in the wholesale liquor business all his life, and will soon obtain a large share of patronage in British Columbia. He remarked to the writer that there was no Scott Act here. I opine that the enforcement of the act forced him to seek new fields. Under the Scott Act in Woodstock vile decoctions which are made on the premises are sold over bars. The very cheapest kind of liquor is demanded and a reputable man like Mr. Street would not engage trafficking in such abominable stuff. It is a crime to import such cheap grades of liquor which is poisonous. I have often wished I could have some of the vile stuff sold as liquor in Woodstock analyzed by a chemist. The result would astonish the natives.

I am digressing—Well, Mr. Editor I will continue this news letter next week. I intend to visit the much lauded public park here next Sunday. The park is two miles from the city, and the street car runs there on Sunday only. During the summer months, however, the trams make hourly trips to the park every day of the week. I also purpose to inspect one of the C. P. R.'s magnificent oriental steamers, called the Empress of India, Japan, and China respectively, and which ply between here Yokohama and Hong Kong, also the Australian C. P. R. line which touches at Honolulu, Fiji Islands and New Zealand before reaching the land of the Southern Cross. When in the humor I will scribble some interesting letters. I am writing this afternoon simply to avoid ennui—to ward off an attack of the blues. Rain—it knows how to rain here—always gives me depression of spirits.

ISAAC.

Vancouver, B. C., April 20th.

A member entered a well known London club at a comparatively early hour. "O, steward" said he, "did you find a 25 note on the writing table last night? I wrote a letter intending to inclose the note and I find this morning that I did not inclose it, so must have left it on the writing table." "Yes, sir," replied the steward, with grave importance, "I did find it, and here it is. And it's well for you, sir, as none of the members had been in before I saw it!"—(Chicago Democrat.)

Are You Bilious?

A sluggish liver fails to filter the bile from the blood, and when the poisonous matter goes through the body in the circulation, the whole system is tainted and deranged. This is called biliousness and can be completely cured by Dr. A. W. Chase's Kidney-Liver Pills, which act directly on the liver, making it healthy and active. One pill a dose, 25 cents a box. The cheapest medicine in the world.

Churning Sweet and Sour Cream.

It is well known that the churning of cream depends largely on its handling during ripening. Sour cream churns more easily than sweet cream. The reason for this may be that the presence of lactic acid has some effect on the surface tension of fat globules. Since sour cream churns more readily than sweet cream, it will not do to mix creams of unequal ripeness just before churning. The sour cream would churn first, and the sweet cream would be left as buttermilk. If it is necessary to mix cream of unequal ripeness, it should be done at least 12 hours before churning, and the mixing should be thorough. It is important to stir the cream while it is ripening for a similar reason. If the temperature of cream is not exactly alike throughout, as is nearly always the case, the warm parts ripen more rapidly, and unless the cream is occasionally stirred it does not ripen uniformly. This leads to a heavy loss of fat in the buttermilk. If cream has been handled exactly as it should be, the churn may be stopped when the butter is in granular form without loss of fat in the buttermilk, but if the cream is not uniformly ripened the churn cannot be stopped at this point without considerable loss.—Field and Farm.

May Burdens and Perils.

Disease and Ill Health Should be Banished This Month.

Paine's Celery Compound is the World's Great Health Restoring Agent.

It matters not whether your troubles be rheumatism, neuralgia, kidney disease, dyspepsia, nervous prostration or some nasty blood disease, Paine's Celery Compound possesses virtue sufficient to meet your case and overcome your sufferings.

Diseases of any kind that have manifested themselves in the winter, and have fastened their deadly grip in the spring months, are terribly perilous to life, if allowed to run into the heat of summer. This is the time to grapple with disease, and Paine's Celery Compound is the only true friend and helper of the sick.

The work of disease banishing and health restoring already accomplished this spring in Canada by Paine's Celery Compound is marvellous and astonishing, judging from many letters received from cured people, supported by the endorsement of leading druggists and merchants to whom the cured people, are known.

Paine's Celery Compound is the only medicine that can honestly claim public recognition. Its work is never-failing and sure. It first cleanses the blood, causing the life stream to run pure in every artery and vein of the body. It quickly restores lost strength; it gives perfect digestive vigor, sweet sleep and lasting health.

High Feeding Causes Garget.

As the cow or other breeding animal approaches time of parturition, high feeding, either to stimulate milk flow or to make it richer, should for the time be suspended. Of the two, the kind that tend to make the milk richer, or, in other words, to fatten the cow, are worst. But we should not advise any farmer to feed heavily with grain, which will cause fever and make the animal feverish, though this may be nature's effort to lessen the milk flow so that the udder can hold it. The food should be laxative rather than constipating. Ensilage and roots of all kinds are good if not given in too large amounts. The only grain given should be three or four nabbins of corn daily until the calf is dropped. The cow will eat these readily, and they will cleanse the stomach preparatory to the time when parturition begins.—Boston Cultivator.

When a good and clever woman has reached that beautiful tableland of life from which she looks over many battles on its plains and yet feels sure that life is worth living, she has nothing to envy in those just beginning. To learn the use of gentle, regular exercise and sensible and invigorating diet, to keep every power at its utmost output of activity, to keep in touch with the day and temper its ardor by our knowledge and experience, to be a balance wheel for the complex machinery of a modern household, to strive to look as freshly neat and as fastidiously careful as in the days of youth are not easy tasks, but when a woman so meets her old age she is of more value than any other member of the family circle and need not sigh for any hour of past importance.—Philadelphia Press.

Teacher—John, illustrate the difference between sit and set.

Bright and Patriotic Boy—Great Britain is a nation on which the sun never sets and the rest of the world never sits.—Detroit Journal.

Cook's Penetrating Plasters.

A Fair Proposal.

A reporter of DISPATCH gleaned the following in an interview with the general agent of Stetson's Double Uncle Tom's Cabin Co. which will appear at Graham's Opera House, Woodstock, on next Monday evening. This company is the largest and best Uncle Tom Co. traveling, comprising thirty first class artists. So complete is their scenery that the pieces could be put on in a barn for better scenic effects than is produced by any other company. They have a grand double band and orchestra of ten pieces and one that is hard to beat. The African mandolin students are the first and only colored people appearing in public and performing on the Spanish mandolin. The Lone Star Quartette is claimed to be without an equal, and the Toppies, there they have something that charms all; two Marks, the best that a big salary can secure. If we do not give the best performance of this piece ever seen in this city we will cheerfully refund the price of admission. Will any other Uncle Tom Co. do this? No, because they have not got the show to do so. Stetson's Co. have.

DR. A. W. CHASE'S CATARRH CURE ... 25c.
Is sent direct to the diseased parts by the Improved Blower. Heals the ulcers, clears the air passages, stops droppings in the throat and permanently cures Catarrh and Hay Fever. Blower free. All dealers, or Dr. A. W. Chase Medicine Co., Toronto and Buffalo.

Aginaldo Talks.

"Ah," murmured Aginaldo, "this is indeed a world of trouble and base ingratitude. After I have led troops constantly away from the victory, shown my appreciation of their services by burning the towns along the route that they might obtain the benefits of a Fourth of July without undergoing the humiliation of accepting liberty; after affording them the pleasure of witnessing the death by decapitation of all insane natives who refuse to cross the country, they pay me by deserting in droves to a spot where I dare not follow and degrade themselves to be fed and cared for by the grasping Americans.

"Ah, will they realize in time that they are in danger of becoming civilized or will I be left to the fates and eventually become a magazine writer?"—(Cleveland Leader.)

Canned Butter.

Professor Robertson, commissioner of dairying in Canada, has had some packages of butter sent to Japan in tins, and, as the reports regarding them have been favourable, it is proposed to pack 1, 2 and five pound tins in a similar manner for the Klondike. The butter is wrapped in waxed paper and then placed in hermetically sealed tins, which, it is claimed, will keep the butter good in any climate. A number of tins have been manufactured in Montreal, and a shipment has been sent from Calgary to the Yukon. Tinned butter has been a great success in France, and there seems to be no good reason why it should not be so here. Professor Robertson thinks a large trade may be developed with China and Japan; but, as neither Chinese nor Japanese include butter or cheese in their bill of fare, it would appear that they need education in that direction first. A large trade in tinned butter has existed for years in Ireland.

COOK'S NEW BLOOD PILLS.

MARRIED.

BELL-ANDERSON.—At Farmerstone, Car. Co., N. E., on April 26th., by Rev. Jos. A. Cahill, Mr. Robert Bell to Miss Maud B. Anderson.

DIED.

STEPHENSON.—At Ontonagon, Michigan, April 25th, Margaret, beloved wife of R. E. Stephenson, formerly of Woodstock, leaving a husband and one son to mourn their loss.

CARPETS CARPETS

Our Spring Stock of

Carpets and Oilcloths

Has just arrived, and I am sure we can find something to please every customer.

Good Goods. Good Prices.

A. Henderson.

Queen Street.

March 6th, 1899.

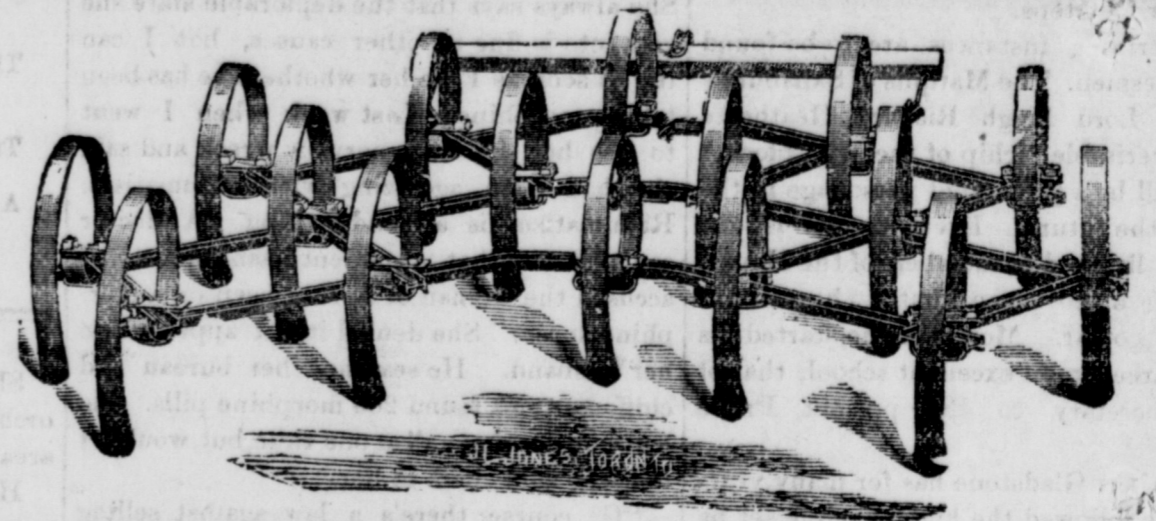

WE HAVE MOVED across the street.

COME AND SEE OUR NEW STORE.

NOBLE & TRAFTON,

Telephone 42-2.

64 Main Street.

THE BLUNOSE SPRING TOOTH HARROW.

25,000 IN USE and the Demand Constantly Increasing.

These Harrows easily take the lead over all others. The frames are of channel steel. The teeth are tempered by a temperer of thirty years' experience, making the harrow practically indestructible with anything like fair usage. There is little or no breakage and if they do break we make the breakage good free of charge. Users of this harrow know that they are by all odds the best ever introduced in this country.

We have one carload in stock in 16, 18 and 20 teeth.

Prices right. For sale only by us and our agents.

Balmain Bros.

Woodstock, Florenceville, Perth, Aroostook Junction, Grand Falls.

March 15, '98.

How about that New Cook Stove

You promised your wife this spring. Have you forgotten it? If not, bring her in now and let her select one while my stock is complete.

M. S. SUTTON, ANDOVER.

ROOM PAPER,

LATEST DESIGNS, RICHEST COLORS, LARGEST VARIETY.

BORDERS TO MATCH

Prices from 5c. to 50c. per roll. Borders from 1c. to 15c. per yard.

MRS. J. LOANE & CO.
