Permanent Cure of Chronic Constipation.

Perhaps you've suffered with constipation for years, tried all the pills and purgatives you ever heard or read of, without getting any more relief than the one dose

of the medicine afforded. Then you were left worse than before, bowels bound harder than ever, the constipation aggravated instead of cured. All the miseries of constipation-Headache, Sick Stomach, Biliousness, Pimples, Eruptions, Blood Humors, Blotches, Piles, and a thousand and one other ills crowded back on you again with redoubled severity.

Wouldn't you consider it a blessing to be cured of your constipation so that it would stay cured? So that a repetition of all the suffering you have endured would never come again? Burdock Blood Bitters can cure you-cure so that the

cure will be permanent. That's where it differs from all other remedies. It makes a thorough renovation of the whole intestinal tract, tones the bowel wall, acts on the liver and stomach, and causes all the digestive and secretory organs to so work harmoniously and perform their functions properly and perfectly that constipation, with all its attendant sickness, suffering and ill health,

become a thing of the past.
Miss Arabella Jolie, living at 99 Carrière Street, Montreal, Que., bears out all we say in regard to the efficacy of Burdock Blood Bitters in curing constipation permanently. This is her statement:

"For over a year I suffered a great deal from persistent constipation and could only get temporary relief from the various remedies I tried until I started using Burdock Blood Bitters. I am thankful to say that this remedy has completely and permanently cured me and I have had no return of

COOK'S NEW BLOOD PILLS.

THE COMING DELUGE.

If the Antarctic Ice Cap Splits, London Will be Blotted Out.

It would be inconvenient, to say the least, if London were some day soon to find itself at the bottom of several miles of water.

Yet some geologists assert that such thing is not at all beyond the range of possibility, and that the event may happen at any moment. What with colliding comets, stars toppling into the sun, and a record deluge, the present generation appears to be destined to see things. If they come through it all safely it will be a source of general sat-

But about the coming deluge. It is the great Antarctic ice cap, it appears, that threatens to engulf the greater part of the Continents of Europe, Asia and North America under miles of water, and make new continents in the southern hemisphere.

How is it going to do it? As soon as the great Antarctic ice cap commenced forming it began pulling the waters of the ocean across the equator into the southern hemisphere. At Mount Desert, Maine; on the Fraser river, British Colum-

bia; at Glen Roy, Scotland, and all over the northern hemisphere there are ancient sea margins which indicate beyond question that the ocean once stood at the height at which these markings are found, or more than a thousand feet higher than at present.

Where has this enormous mass of water

Some geologists say that it is at present in the grip of the Antarctic ice cap. As the cap grew and grew it gradually displaced the centre of the earth's gravity southward, until it is now two or three miles from the position it occupied before this smister growth began

It would be easy, declares one scientist, to trace this process in detail, showing how the water has literally run off from the northern hemisphere, and how it has as gradually submerged the continents and islands of the southern, but it would require a volume to

What is the situation today?

Here is what one authority says:-"The development of the great glacier at the South Pole has reached the point which immediately precedes its sudden breaking up into fragments. At any day or hour the abrupt disintegration of these millions of cubic miles of ice may let loose all the accumulated waters their dreadful mission of destruction.

"The glaciers of Greenland and other northern lands will at once become terribly potent to attract these loosened and floating bergs and waters, and they will come pouring across the equator in a wall a mile high, bearing on their crest the gigantic fragments of the ice cap, which will be hurled against all the lowlying lands of Europe, Asia, and north America, burying them hundreds of fathoms deeper before one can do more than utter a last appeal for mercy."

How do you view the outlook? There may be, of course, some flaw in the theory of these not too cheerful savants and perhaps one of the three exploring parties at present on the way to the Antarctic regions may discover it. The Borchgrevink expedition takes on a new intrest now. In the meantime timid Londoners will probably consider the wisdom of keeping lifebelts and boats handy in case of emergencies. - London Daily Mail

THE VAMPIRE.

(Mary C. Low in Boekman for March.) (From a woman's point of view. With apologies to Rudyard Kipling.)

A woman there was who had heard a prayer (Even as you and I!)
From flesh and bones and a lock of hair
(He called her the woman beyond compare), But he only used her to lighten his care, (Even as you and I!)

O, the walks we had and the talks we had, And the best of our heart and hand Were sought by the man who pretended to care He didn't—but why he pretended to care. We cannot understand.

A woman received the flowers he sent, (Even as you and I!) Honor and faith she thought his intent (But God only knows what the gentleman meant), Yet a man must follow his natural bent, (Even as you and I!)

O, the vows we spoke and the vows we broke, And the various things we planned Belong to the man who said he was true (But now we know that he never was true), And we cannot understand.

One favor she asked-but it was denied, (Even as you and I!) In some way or other he might have replied (But it isn't on record the gentler an tried), Her faith in him faltered and finally died, (Even as you and I!)

And it isn't the shame and it isn't the blame, That stings like a white hot brand; It's coming to say he would never say why, Seeing at last she could never know why, And never could understand.

A gentleman from Boston was at a hotel in Charleston, W. Va., in 1859, during John Brown's hurried trial. Yet he was not sure whether it would be safe to disclose his own

Mrs. Mehlenbacher, who lives at 29 Ann St., Berlin, Ont., made the following statement: "I have suffered from nervous prostration and general debility for the past four years, often despairing of a cure. "Since I have taken Milburn's Heart

Among the Unionist candidates defeated are Baron Castletown, Baron Langford, the Earl of Mayo, the Earl of Rosse and the Marquis of Ormonde. The labor question also entered largely into the contest, labor candidates in many instances defeating Nationalists.
