BLOOMFIELD.

The concert given by the young people of

Bloomfield on Saturday night, Mar. 18th, proved a decided success. The Foresters' Hall was crowded with a large audience, who, I am sure, were well pleased with the entire entertainment. Edward London acted as chairman. The programme consisted of choruses, duets, songs, dialogues and readings. Among the most noticeable features were "Character Songs," by Messrs. Howard and Warren Nye. The Bridal Wine Cup was well carried out. Miss Maud McDonald acting as bride of the hour. The readings given by the Misses Clara Stokoe, Ethel Alerton and Bina London deserve special mention. Messrs. Norville Strong and Morris London should receive credit for their able acting, these young people show in this, their first attempt, that their talents have long been sleeping, and we hope that this is only the beginning of a series of entertainments, they will give for our amusement. Much credit is also due Mrs. Frank Black, who so untiringly worked for the success of the concert. The proceeds, which amounted to \$32.00, will be used for church purposes. On Tuesday night, Mar. 28th, the concert was repeated in Oakville for the benefit of their church. Messrs. Thomas and Charles Briggs kindly fitted up their dry house for the occasion. The entire programme was carried out, with the addition of two cornet solos by Harry Pickering, of Birmingham, England; and duets by Mrs. Black and Miss Myrtle Fowler with guitar and harp accompaniments. We had a fine evening, a good crowd, and a merry drive there and back.

Miss Ethel Alerton leaves for Boston this week, where she will remain a few weeks for the benefit of her health.
Harrison Stokoe is doing a rushing business this winter. He is buying all kinds of produce and hauling it to Woodstock to be shipped.
Methinks the Woodstock road must be familiar to Elmer Stokoe, he can be seen any day on the road with a monstrous load of oats, and near him a shapeless parcel, which might contain a violin. Mr. Adams has been in the West nearly fifteen years, and the fact of his return, to take a farm in our vicinity, makes us think that Cal. Co. is the place after all. Rumors are current that Alex. ALABASTINE.

Anyone can brush it on—No one rub it off

QUESTIONS OFTEN ASKED:

What is Alabastine?
Alabastine is a durable coating for walls and ceilings.
Is it the same as kalsomines?
It is entirely different from all other preparations on the market.
Wherein does it differ from these kalsomines on the market?
It is made from a cement that goes through a process of setting on the wall, and grows harder with age, and is ready for use by mixing in cold water.
What are kalsomines made for?
From whittings, chalk, clay, or other inert powders for a base, and are entirely dependent upon glue to hold them on the wall.
Why do kalsomines rub and scale?
Because the glue being animal matter, decays in a short time by exposure to air and moisture, and in binding qualities of the material are then gone.
Does the Alabastine contain any injurious substance?
Alabastine has been most carefully tested, and is recommended by leading sanitarians throughout the country, on account of its sanitary nature.
What has the same investigation shown regarding wall paper?

Sanitarians condemn, in strong terms the use of wall paper for living rooms, on account of the poison used in its manufacture.
Can anything but plain work be done with Alabastine?
Any kind of work, from plain tinting to the most elaborate decorating, can be done.
How can I learn to do this work and decorate my house?
By writing the Alabastine Company, Paris, Ont., for book of instructions and suggestions, and illustration of stencils. Sent free.

THE REASON WHY

We call it Alabastine, as it is manufactured from alabaster rock. The people use it because it is durable and beautiful. The sanitarians endorse it because it is of a sanitary nature, and contains no poisonous material. We advertise it, as we want all to have an opportunity to be benefited by its advantages. Wall paper manufacturers fight it, as it displaces their poisonous products. Kalsomines must go, as they are only temporary and spoil the walls. Alabastine has stood the test of time, and now stands higher in public favor than ever before.

Ask for Church's Cold Water Alabastine and take nothing else.
