

## B.B.B. Makes Rich Red Blood.

The Blood is the very essence of life. As it courses through the system it carries with it, if pure and rich, nutrition to every cell in the body. If impure, it spreads disease. If thin and watery, it fails to nourish, hence we have weakness, debility and decay.

It is the wonderful power B.B.B. has in purifying impure blood, making thin, watery blood rich and red, that is at the bottom of its marvellous success in curing disease.

Those who are pale, thin, weak, troubled with blotches, pimples or eruptions of any kind should take B.B.B.

It makes the pale cheek rosy, the skin clear and smooth, and infuses new energy into weak, worn, run down, shattered constitutions.

**Skin** "I beg to state I have used Clear. Burdock Blood Bitters for impure blood, pimples on the face, &c., and derived great benefit from it. My skin is now very clear and free from all eruptions. I only used four bottles of the B.B.B. and can strongly recommend it to any person suffering from impurities in the blood or eruptions of the skin."

MRS. G. B. HELMOR, Spence's Bridge, B.C.

**Every** "I have taken B.B.B. every Spring, spring now for some years, to purify my blood and keep my system in good order, and can honestly say that I do not know of its equal anywhere." MRS. AGGIE BARNES, Lunenburg, N.S.

## FARM FOR SALE.

The undersigned now offers for sale, his farm, located in the pleasant village of Jacksonville, about four miles from the town of Woodstock, a mile from superior school, store, post office and four churches. House, two story, well built and finished throughout, also barns and outbuildings in good repair. This farm contains 140 acres, divided into two parts, one 50 acres on main road, the other, containing 90 acres on cross road, within 40 rods of front place. These will be sold separately or together to suit purchaser. Also some farming implements. This farm will be sold at a bargain. Terms easy. WM. PAYSON.

**FREE** Our special packet of Sweet Pea Seeds contains all the best known varieties, including Fire Fly, Countess of Aberdeen, Crown Jewell, Eckarts, and many others, 10 cts. per packet. Send us your name and address and we will send you two dozen to sell for us, when all are sold return the money to us and we will send you this elegant Watch and Chain FREE. We also give Violins, Accordians, etc.

NATIONAL MANUFACTURING CO.  
Dept. 18. TORONTO.

## MENELEK'S BISMARCK

A Russian Clown Who is Paralyzing English Efforts in Abyssinia.

It now appears that Leontieff has been making a fool of the English all the time that they thought they were making a fool of him. Leontieff is one of the world's visionaries who fall into a niche where the methods of the visionary are practical, while ordinary practical methods are visionary.

Nobody knew anything about this man until after the victory of Menelek and his Abyssinians over the Italian. Then his name was mentioned as the head of a Russian expedition of five priests and civilian followers who were going with several boxes of Bibles to pay their respects to the black conqueror, whose religious creed is closely allied to that of the church of which the Czar is the head.

The English Government sent to its St. Petersburg Embassy to find out the manner of man Leontieff was and his exact intentions.

"Oh, he's perfectly absurd," replied the Embassy. "He's a fifteenth century swash-buckler, a Don Quixote—a man who dreams, formulates one great project to forget it the next moment in another. Once he was a Buddhist. Now he has become a most ardent Christian and rides his new hobby with customary enthusiasm. He thinks if he takes 100 Bibles and prostrates himself at Menelek's feet the Abyssinians will join the Russian Church in a body. It is impossible to think that the Czar would trust a fellow of so little discretion on a diplomatic mission."

"The Czar is bringing you many books," was the word that the guardians sent forward by runners to Menelek, "along with holy men who come to felicitate a co-religionist."

"Humph, books!" exclaimed Menelek, thinking of the guns he needed to complete the outfit of his army. "Well, let them come. It will amuse my queen to look on a foreign priest."

At his first audience with Menelek, with the priests standing by without a suspicion of a smile, the King gave a start and then grinned.

"You Russians have a very fine taste in Bibles," he said, as he caressed the gold mounted pistol Leontieff had placed in his hands, and ran his eyes approvingly over the layers of Martini rifles.

Then, bowing with the grace of a fifteenth century courtier, Leontieff presented the Queen with a fan of marvelous beauty.

"If you will allow me, Your Majesty," he said, "I will open your Bible to a text." He pressed a spring and out came a needle dagger of the finest steel.

"The point is poisoned," Leontieff added—and the two priests looked straight ahead, solemnly.

The Queen was so delighted that she was tempted to kill a waiting-woman on the spot. This present settled it, as far as the Queen was concerned. He had gained a place in her heart that no other foreigner may expect, and Menelek obeys her orders as faithfully as the soldiers obey his. Henri of Orleans might present her with French shoes and laces, and the English expedition with fine silks, but the Queen only says: "These others are not like my Leontieff, and their gifts are poor, indeed, compared to my Leontieff's fan."

Moreover, she has proved that the dagger is equal to all that Leontieff claimed for it. She killed a waiting-woman, who aroused her anger, with a single blow—to say nothing of the babies she has stabbed to make blood to bathe her face.

"We'll treat this English expedition as you say, my good friend, Leontieff," said Menelek. So he did. Leontieff withdrew some little distance from the court. Menelek mentioned him to Colonel Rodd as an odd Russian who had come with Bibles and gone again. He covered the English with flattery and said of course he wanted to be on the friendliest terms with Queen Victoria.

Rodd departed under the conviction that all the talk of Russia and France having made Menelek a puppet was sheer nonsense. Then Leontieff returned from his retirement and with the King and Queen had a good laugh over how they fooled the Englishman, who was chuckling to himself over the fiasco of a certain Russian clown.

Leontieff has been in England this week to remove the embargo placed by the port authorities on more boxes of Bibles which he had bought in Birmingham. In this he succeeded, because he said if Birmingham refused his trade, he could just as well buy his Bibles of England's hated commercial rival, Germany. He got the first cargo out of port and made arrangements for another.

London reporters have been asking him if Bibles were not really a polite name for rifles and ammunition.

"Sir, why should I want rifles?" was the injured reply. "I am no soldier. Of course they are Bibles. Truly. What object should I have in deceiving you?"

He is buying a large number of field guns in France. At present he is staying in Paris, where he has for friends Frenchman as mysterious as himself. The English have awakened to the meaning of his work. The papers admit now that he is no clown, but a fearless, cool, adventurer.

It is his ambition to have Abyssinia extend her domain as far as the Nile and over terri-

tory which the English have long claimed as belonging to Egypt. He is importing Russians to train Menelek's soldiers. The Abyssinian army numbers 100,000 men. Fully armed and organized—their courage was proven in their battles with the Italians—they are a force which can give England any amount of trouble.

Leontieff's ambition to move them against the English whenever England and Russia come to blows flatters at once his violent hatred of English men and all things English, except good English rifles, his love of his own country, and his peculiarly medieval talent and disposition. Thus he has suddenly sprung into great importance.

If Russia and England clash in the Far East this mountebank, whom the English Embassy described as being perfectly absurd, will become the Czar's trump card. The semi-barbaric life of Menelek's court is more pleasing to him than that of a civilized country. His fifteenth century manners and methods are naturally congenial to Menelek's. He is the ideal man for the work he is doing.

Menelek and the Queen trust him in everything, and they will trust no other European in anything. Whenever a traveler wants to take the King's photograph, the King always says: "You must take Leontieff's too!"

Leontieff often sits on the King's left hand, with the Queen on his right, while the King receives his vassals. In short, Leontieff is the dictator of Abyssinia's foreign policy—Menelek's Bismarck.

## DISCHARGED TO DIE.

But Mrs. Fitzpatrick Didn't Lose Hope—Dr. Agnew's Cure for the Heart Accomplished What the Physicians Couldn't.

If the thousands of people who rush to so worthy a remedy as a last resort would go to it as a first resort, how much misery and suffering would be spared. Mrs. John Fitzpatrick, of Gananoque, after being treated by eminent physicians for heart disease of five years standing was discharged from the hospital as a hopeless incurable. The lady procured Dr. Agnew's Cure for the Heart, she declared as a last resort. One dose relieved a very acute spasm in less than half an hour, and three bottles cured her. Sold by Garden Bros.

## University of New Brunswick.

The following letter and circular are self explanation. They deserve the favourable attention of all graduates of the University and of the general public as well.

## UNIVERSITY OF NEW BRUNSWICK.

Fredericton, N. B., May 1st, 1899.

Dear Sir: The members of the class of 1900 who will graduate on the hundredth anniversary of the founding of the University, desire to celebrate the occasion by doing something towards a distinct advancement in its work and influence.

The most pressing need of the University at the present time is a new building for the departments of Physics and Civil and Electrical Engineering. The increase of students in these departments making such a building an absolute necessity. Plans have been prepared for a suitable building, the cost of which is \$20,000.

Feeling that the erection of such a building would be the most fitting method of celebrating the University Centennial, the class of 1900 has decided to appeal for assistance to the graduates and friends of the University. We intend to raise \$10,000 by a loan, and the remainder by direct contribution; and we ask your assistance either in the form of an annual or direct subscription. The members of the class of 1900 have already subscribed \$500 towards the Building Fund, to be paid six years after graduation.

We ask your careful consideration of our request; if you decide favourably, contributions should be sent to W. H. Harrison, Secretary of the Class, at the University. The accompanying circular contains further information as to the details of the building and the work of the University in the Engineering Departments.

We remain,

Yours very truly,

W. H. CLAWSON, President.

A. H. MCKEE.

G. F. McNALLY.

W. J. R. WILSON.

W. H. HARRISON, Secretary.

Committee on behalf of the Class.

## UNIVERSITY OF NEW BRUNSWICK.

The following statement concerning the present courses in the University will show the need of greater accommodations.

The University has now a Civil and an Electrical Engineering Course. The present draughting room is overcrowded with the seventeen students now taking the Civil Engineering Course. Only one student graduates this year, and many applications have already been received from students who are intending to enter. Under the present circumstances it will be impossible to accommodate this increased number. The lecture rooms connected with the Course is also too small, and there is no room whatever for a Museum in which to keep models of apparatus, illustrating sanitary and railway work. The lecture rooms of the Arts Professors take up all the remaining space in the present building; indeed for the Professor of Literature there is no regular lecture room. The Physics Laboratory is small, and situated as it is, in the upper part of the building, is unfitted as a room in which to conduct delicate experiments.

In the Electrical Engineering Course rooms are badly needed to accommodate the apparatus of the Department, especially the heavier machinery, such as the dynamos, recently presented by the Canadian General Electric Company. Engines to work the machinery cannot at present be purchased as there is no place in which to set them up. The cement

## A SHORT STORY

In London Life Containing Condensed Wisdom for Thousands.

A baker  
Living at  
257 Dundas Street,  
London, Ont.,  
Geo. Roberts by name,  
Recommends  
DOAN'S KIDNEY PILLS  
Because  
They cured him.  
He had  
Pain in the Back;  
His Urine  
Was red-colored  
And painful  
In passage.  
The cure through  
DOAN'S KIDNEY PILLS  
Was quick and complete.  
That's how they always act,  
Because they're  
For kidneys only.  
If you have  
Sick kidneys  
Don't experiment  
With an unknown remedy.  
Take no substitute for  
DOAN'S KIDNEY PILLS.

tester being purchased by former graduates for the Engineering Department, will, with the apparatus connected with it, require a small Laboratory also.

The accommodations required can be given only by constructing a new building. The University has not a cent of debt, and there is every prospect of a steady advance, especially in connection with technical work. Circumstances require and justify the construction of a new building before 1900.

The building will be substantially constructed of stone. It will be about 90 x 55 feet; the roof and inside framing will be of steel. The dynamos will supply a current for electrical work, and for lighting both buildings. On the first floor will be a Cement Testing Room, Civil Engineering Library, Reading Rooms and Physical Laboratory. The second floor will contain a large, well-lighted Draughting Room, Instrument Rooms and Museum. In the basement the engines, dynamos and heavier machinery will be fitted up. By the construction of such a building, not only will there be room for the courses mentioned, but in the old building much needed room will be available for the Arts Course.

The estimated cost of the building, with equipment, is \$20,000. It will be situated on the University grounds below the Gymnasium, where connection can be made with the city water supply. The building will probably be started in June, and ready for students about Christmas, 1899.

## The Beauty that Attracts Men

Is not so much in the features as in a clear, healthy complexion, and a plump body filled with the vigor and vitality of perfect health. Pale, weak, languid women are fully restored to robust health by the use of Dr. A. W. Chase's Nerve Food, a condensed food which creates rich, pure blood and new nerve tissues.

## NOTICE OF SALE.

To Henry C. Cliff, of the Parish of Wicklow, in the County of Carleton and Province of New Brunswick, and all others whom it may concern:

NOTICE IS HEREBY GIVEN that under and by virtue of a power of sale contained in a certain Indenture of Mortgage, bearing date the fourteenth day of September, A. D. 1895, made between the said Henry C. Cliff, of the one part and Thomas R. Cameron, of the Parish of Andover, in the County of Victoria, Carpenter, of the other part, and which said mortgage is recorded in the Victoria County records office in book "S" on pages 253, 254 and 255, and is numbered 8411, in said book, and which said mortgage was duly assigned by the said Thomas R. Cameron to Bridget Ann Lynott, of Edmundston, in the County of Madawaska, administratrix of the personal estate and effects which were of Patrick Lynott, deceased, who died intestate, and which said assignment is recorded in the Victoria County records office in book "S" on pages 312, 313 and 314 by the number 8445 in said book, there will for the purpose of satisfying the moneys secured by said mortgage, default having been made in the payment of the amount due thereon, contrary to the proviso for the payment of the amount secured by said mortgage, be sold by me, the undersigned Bridget Ann Lynott, administratrix, as aforesaid, at public auction, in front of the Court House, in Andover, in the County of Victoria, on THURSDAY THE FIFTEENTH DAY OF JUNE next, at the hour of three o'clock, in the afternoon, the lands and premises described in said mortgage as follows—all that certain piece parcel or lot of land and premises situate lying and being in the Parish of Andover in the County of Victoria and Province of New Brunswick and bounded as follows—beginning at a cedar post at the south east angle of lot number two granted to Robert Brown in block eight, thence west fifty-two chains to a cedar stake thence south sixteen degrees along the line of lands owned and occupied by George L. Brown until it strikes the side line of lands formerly owned by and occupied by Susan Murphy widow of Elias Murphy thence east until it strikes the base line of the river lots thence northerly along the base line of river lots to place of beginning—containing fifty acres more or less, the same having been granted to George W. Murphy and distinguished as part of lots three and four of block eight, together with the buildings and improvements thereon or in anywise appertaining.

Dated at Edmundston, New Brunswick, this third day of April A. D. 1899.

JOHN M. STEVENS,  
Solicitor.
